# School Management

## Board of Management

This year has again been one of activity and change as we position Hutchins to educate boys to be part of the new global environment.

The Headmaster and the Bursar have worked very hard to consolidate the School's financial position. We are confident the School is in excellent shape to face the vagaries of our economic climate. One of the vital areas of school funding is the level of Government assistance and although we are not able to accurately quantify the new measures announced in the last Federal Budget, we are optimistic they will be more realistic than the previous system. The focus on parents' ability to pay, rather than the wealth of schools, is to be applauded and I am hopeful of some savings for Hutchins parents when the system is phased in over four years, beginning in 2001.

This year we have been able to trim a number of expenses in order to keep fee rises to a minimum, whilst maintaining the quality of a Hutchins education. Parents should be aware

The School's most valuable resource is its teachers. The Board is indebted to them for their diligence and hard work in achieving excellent results in the past year.

that we do have a principle of including all extraneous items within the total fee structure, rather than have additional charges for items such as computers, fee insurance, excursions and sport.

The Planning and Development Committee has commissioned or approved a number of significant projects. The highlight was definitely the opening of the Early Learning Centre in February. The Centre is a fantastic facility and is a credit to the vision of the former Board Chairman, Steve Gumley, and the Headmaster. Architect, John Button, and builder, Jackmans, are to be commended for the quality of their work. The Committee has planned a number of projects for next year. The most important of these is the Nelson Road underpass. The Board regards this project as a priority. The present arrangements are not satisfactory and expose boys, parents and staff to unacceptable risks. We expect that the new underpass will be opened in time for the return to school in February 2000. The Board thanks Ian Johnston and his dedicated staff for the time and effort they have put into this project.

The Strategic Planning Committee has made

a thorough investigation into boarding at Hutchins. Following these investigations, the Board has decided that Burbury House is an integral part of the School campus and it is proposed to refurbish the facility in the coming year. Other projects we intend to complete in the coming year include: The Nettlefold Library, which is in great need of upgrading; repair and renovation works to the Brammall Pavilion; a new watering system for the War Memorial Oval; improvement to the Board Room and Conference Centre in the Ray Vincent Wing; repainting the Junior School and improvements to the Administration block.

Two long serving members of the Board retired this year. Jim Grant made a significant contribution to the School during his five-year term. His advice on real estate matters and chairing of the Planning and Development Committee were very much appreciated. John Clennett retired in August after ten years of dedicated service to the School. John was an exceptional Chairman and Board Member and his dedication to the School is unsurpassed. I thank him for his huge contribution. I would also like to thank most sincerely the Bishop of Tasmania, the Right Reverend Phillip Newell, who retires this year. His contribution as Visitor to the Board has been very much appreciated and I wish him well in his retirement. We are fortunate to gain the services of Ian Johnston, Elizabeth Hope and Peter Shelley, all of whom I am sure will make excellent Board Members. I thank all of the Board for their support during the year, and in particular Committee Chairmen Graham Woodward, Harvey Gibson, Nick Heath and Jim Grant.

The School's most valuable resource is its teachers. The Board is indebted to them for their diligence and hard work in achieving excellent results in the past year. Boys' results in the TCE were exceptional and there have also been many boys featuring prominently in state and national competitions. The focus on each boy doing his best in all his endeavours is achieving results and proving the value of a Hutchins education.

The retirement of Stuart Cripps and John Anderson marks the end of an era; they made huge contributions to Hutchins and I wish them well in their retirement. The appointment of Derek Woolley as Head of Junior School is a fitting one and I am confident his style will build on the excellence we are already achieving in Junior School education. I congratulate Miss Jenny Brewster on her appointment as Head of the Early Learning Centre and commend the other members of the Headmaster's management team, Barrie Irons,

Father John, Russell Morton and Peter Hodge, for an excellent year.

We were saddened in September with the passing of Ray Vincent. Ray's contribution to Hutchins over his whole lifetime was extraordinary. His influence on the School during most of this century is legendary and he was instrumental in developing the Hutchins community. The Old Boys' Association is an important part of Hutchins. I thank President, Tim Johnstone, and Secretary, Darby Munro, for their support during the year.

The Parents' Association continues to provide valuable assistance in development of the school campus. I thank all those involved in making Hutchins a better place.

The Hutchins Foundation makes a significant contribution to the running of the School, both in recurrent expenditure and in owning many buildings around the school campus. I thank President, David Catchpole, and Executive Officer, Christopher Hall, and their hard working team who manage this vital part of the school community. The Headmaster, Mr Toppin, has shown exceptional leadership and his energy, planning skills and hard work are taking Hutchins to a higher level. I thank him for his support. The Board's Minutes Secretary, Lyn Peach, and the Bursar, Lewis Prince, are very competent employees and I thank them for their assistance throughout the year.

On behalf of the Board of Management, I thank all of those who are part of Hutchins for a very successful year.

*Mr D Eddington*  
Chairman of the Board of Management

## New Board Members

Mr Peter Shelley was born in Hobart and is Chairman of a number of family interests under the banner of Asia Pacific Panel Pty Ltd. He is married to Mary and has three adult children. Mr Shelley attended Hutchins from 1957 until 1960. He is a past President of both the Hutchins Parents' and Friends' Association and the Hutchins School Old Boys' Association. Mr Shelley holds a number of positions within the aquaculture industry including: Chairman of Tasea Ltd, Executive Director of the International Salmon Farmers Association, Chairman of the National Aquaculture Council, Chairman of the Tasmanian Aquaculture Council, Chairman of the Tasmanian Lobster Growers Association, and a Director of the Tasmanian Aquaculture and Fisheries Research

Institute. Mr Shelley is Deputy Chairman of the Tasmanian Food Council and the Brand Tasmania Council. He is a Board member of the Royal Hobart Hospital Research Foundation and the Tasmanian Convention and Visitors Bureau. Mr Shelley is the Honorary Consul-General for Japan in Hobart. Mr Shelley's interests include family, trout fishing, reading and travel.

Mrs Elizabeth Hope attended Methodist Ladies College in New South Wales. As a student she participated in representative tennis and athletics and was School Captain in her final year. She holds a bachelor of Pharmacy degree from Sydney University and has practised in the retail pharmacy business in Hobart since 1975. She is married to Peter and they have three children; one son attended Hutchins, finishing in 1989.

Mr Ian Johnston was educated at the Hobart High School and the University of Tasmania where he obtained an Honours degree in Engineering. He is a Fellow of the Institution of Engineers Australia and a Fellow of the Hutchins Foundation. Ian is Managing Director of the consulting engineering firm, Johnstone McGee and Gandy Pty Ltd and has had involvement in a wide range of sports, particularly water sports and basketball. Ian is married to Deborah and between them they have five children who have, or are currently attending, Hutchins and Collegiate.

# School Administration

## The Headmaster

1999 started with a healthier enrolment than expected and numbers continued to grow slightly during the year, averaging approximately 1110 students. The decline in school age children and Tasmania's economic situation continues to place great pressure on enrolments at Hutchins. Hardly a month goes by without a family giving notice that it is moving to the mainland. While Hobart's total population remains relatively stable, the decline of the professional class is certainly having its effect here.

Intensive marketing campaigns have, I believe, been successful in allowing us to maintain enrolments. Roadshows, Open Days, Seminars, follow up of enquiries and Mr Brammall's careful enrolment procedures, ably assisted by Mrs Emma Griffiths, has ensured that we have maximised our enrolment base. Teachers are more aware of the important role they play in marketing the school and they have willingly contributed whenever possible to our marketing strategies. However, the difficult economic position of many rural families combined with a general decline in the rural population has meant that boarding numbers have fallen and continue to fall. The Early Learning Centre certainly provided a valuable focus for our marketing and once the building was opened, Kindergarten quickly filled.

We have spent some time this year "looking inward" and refocusing on what we are and what we do. This has been a rewarding activity because it has provided a keen focus for the year's activities. The recently revised Mission Statement and Aims provide the yardstick against which we measure our success. To this end, the renewed focus on academics (each boy doing his best) has reaped rewards. Research carried out by Mr Stuart Young has shown that there has been an improvement in effort and achievement in our senior years. The excellent academic results in 1998 were the icing on the cake.

As a boys' school we continue to probe how best to meet the needs of boys. Curriculum changes in Middle School have been especially noteworthy and there is now a wider variety of electives to meet the boys' needs. Some specialist facilities such as the Cessna aircraft and GAT flight Simulator have proved especially popular. While Years 11 and 12 are well catered for with a wide range of subjects available, our focus in 2000 is the curriculum in Years 9 and 10.

Research into the needs of boys has been conducted. We were successful recipients of two grants, one from the International Coalition of Boys' Schools and the other from a consortium from the University of Sydney. The latter grant allowed us to research the attitudinal changes that

An International Coalition of Boys' Schools link. Mr Toppin with Mr Hamish Simpson, Headmaster of Upper Canada College

have occurred with the opening of the new Middle School. Not surprisingly, there have been significant attitudinal changes achieved.

I was fortunate to attend the International Coalition of Principals' Conference in Finland in July this year. This was a gathering of some 800 Principals from around the world. It was a very important conference because it allowed me to bring a better understanding of what is happening in different educational systems to the planning process at Hutchins. Significantly too, research on "best practice schools" and the traits of "best practice Principals" was shared. As a result, staff have assessed my performance and this has allowed me to compare my practice with best practice. The Board has also conducted an assessment of my performance; together the assessments have proven to be very useful in developing my vision and leadership style for the School.

For the first time, the process of conducting regular teaching staff appraisal has occurred. A number of staff have completed their reviews. On the whole, they have reported that the process has been a useful one. It has provided an opportunity for frank and open discussions about their teaching and student learning.

Significant changes have occurred in the running of the Boarding House. In an effort to contain costs, Spotless Catering now provide meals and following the resignation of the Senior School Tuckshop Supervisors (due to a move to Melbourne) Spotless has also taken over the tuckshops. On the whole, this move has gone well although initially, there was considerable change required to how things were done.

Overseeing all that happens for the School is the Board of Management. Given the rate of change that is occurring both outside and inside Hutchins, the Strategic Planning Committee is charged with the responsibility of recommending to the Board the direction and pace of change.

The Committee has a wide-ranging brief and has made a number of significant recommendations to the Board, which have been accepted. The continuation of boarding on site at Hutchins is but one example of the discussions held.

Perhaps surprisingly, the most significant decision made in my time here has been to construct the underpass under Nelson Road in December of 1999. The project has been mooted for many years; while the hope of acquiring Nelson Road as school property remained, the Board was understandably reluctant to commit the funds for this project. However, with traffic appearing to be faster and the number of cars increasing, and the realisation that there was no hope of acquiring the road in the foreseeable future, the decision was made.

We have spent some time this year "looking inward" and refocusing on what we are and what we do.

In 1999 we were pleased to welcome to the School the following new teachers: Miss Jenny Brewster (Head of Early Learning), Mr Anthony Hyland (Design and Technology), Mrs Joanne Cook (Special Education), Mrs Marja Bratt (Art), Mrs Anna Cazaly (French), Mr Tom Daly (English), Ms Alana Smith (Science, replacing Mr Ian Millhouse on Long Service Leave), Mrs Caroline McCreary (Junior School), Mrs Melissa Terry (Year 6) and Mrs Lesley Salter (Year 3). In Term III we welcomed Mrs Jillian Abell (Director of Information Services) and Mrs Kandy Trees Parker (Centre for Excellence). We were also delighted to welcome from the United States for one year Prep teacher, Ms Cathlyn Gieselmann from University School, Cleveland, Ohio and Mr Curtis Smith, English Teacher from St Mark's School of Texas, Dallas. Mr Smith is on exchange with Mr James McLeod, who we farewell at the end of Term I.

To the non-teaching ranks we welcomed Classroom Assistants Miss Hilary Morton and Mrs Amanda Thomson, and Performing Arts and Early Learning Centre Secretary Mrs Barbara Carolan. To the boarding house we welcomed Resident Masters Matthew Brazier and Steven Mavrigiannakis and Gap students Nicholas Bryant (from South Africa) and David Jenkins (from Northern England).

This year Barrie Irons assumed the role as Deputy Headmaster and Mr David Brammall became Registrar. Mrs Liz McQuilkin was appointed Acting Head of English and in Term II Mrs Robin Short moved to the position of Music Teacher. Also in Term II Mr Derek Woolley was appointed Head of Junior School, replacing Mr Howard Kelly and Mr Dean Docking was appointed Assistant to the Head of Junior School.

At the end of Term I we sadly farewell Mr Howard Kelly, who moved to Cleveland, Ohio, USA to take up the position of Director of the Lower School, University School.

We say fond farewells to retiring staff members Mr John Anderson and Mr Stuart Cripps. We also farewell Mr Rex Beamish, Miss Annette Middleton, Miss Emily Putland, Mr Tom Daly, Mrs Anna Quinn and Miss Hilary Morton. Mr Stephen Smith (Early Learning Centre) and Miss Rebecca Clemons (Junior School) have a year's leave of absence in 2000 and Ms Cath Hogan-Jones (Director of the Centre for Excellence) and Mrs Emma Griffiths (Enrolments Secretary) commence Maternity Leave in January. We wish them all well.

Earlier in the year we farewell teachers Mr Peter Lucas, Mrs Margaret Poulson and Mrs Lesley MacLeod, Student Club Supervisors Mrs Gill Heydon and Mrs Judy Breheny; Burbury House staff Mrs Liz Cochrane, Mrs Dulcie Evans, Mrs Berice Grubb, Miss Debra Jordan, and Mrs Mary Lillyst; and Gap student Sam Warren who, after an outstandingly successful year with us, returned to his home in Worcester, England.

The Headmaster's Committee is comprised of senior staff who are my closest advisors. Their expert work is responsible for making so much that we do a success. I thank Mr Barrie Irons for his advice, support and assistance as Deputy Headmaster, Mr Lewis Prince for his custodianship of the school finances, the Heads of School Miss Jenny Brewster, Mr Derek Woolley and Mr Russell Morton for the vision and management of their respective schools and Mr Peter Hodge for his stewardship of the curriculum and teaching and learning processes. Mr Chris Hall as Development Director has worked tirelessly to promote the School, maintain links with the many associated bodies and ensure that Hutchins presents in the best possible light whenever it is on public display. Father John as Chaplain, has definitely made his mark with his positive presence in the spiritual life of the School. I also wish to thank my wife and family for their support.

None of our success as a school is possible without the hard work of staff, who continue to give above and beyond the call of duty as they seek to motivate boys to extend themselves and use their talents. They, together with the Board of Management, associated bodies, parents and boys combine to make Hutchins an excellent learning environment. I hope you enjoy this year's edition of *Virtus*.

Mr W Toppin  
Headmaster

# Farewells

## Bishop Newell

We thank Bishop Newell, who became Bishop of Tasmania on 24 August 1982, for his work in the Tasmanian Diocese and we wish him and his wife Merle a long and happy retirement. Bishop Newell has long taken an active interest in the life of the school. He has been the Visitor to the Board of Management and has attended meetings whenever his schedule allowed. He was a parent of the school when his son John attended Hutchins. He has maintained contact with Hutchins by reading the agendas of the Board, attending

important school functions and always being available to speak with me when I needed advice. In the last ten years he has come to the school for a day (Bishop's Day) and has taken part in numerous school activities. He has observed Mathematics classes with a keen interest! In recent years he has been accompanied on Bishop's Day by his wife whose special interest is the Early Learning Centre and Junior School. Bishop Newell's final official function for the school will be his attendance at the Annual Speech Night.

*Mr W Toppin  
Headmaster*

## Howard Kelly

Howard was educated at St Virgil's where he was Captain of Boats and then continued rowing with Sandy Bay and Lindisfarne. He completed his Bachelor of Education at the University of Tasmania, followed by a Master of Educational Studies in 1990. Prior to Hutchins, he taught at Mornington Primary, Springfield Gardens Primary, Mt Stuart Primary, and then in 1989 was appointed Principal of Gladstone Primary for two years.

In applying for the position of Head of Junior School, Howard wrote: "I strongly endorse the aims and objectives of Hutchins and shall pursue their realisation fervently and with conviction. As a principal and educator, I have given highest priority to instructional leadership activities, student relationships and professional development activities."

It is worth repeating that Howard's ability and commitment are of the highest order and his contribution

deserves the recognition of a substantive position.

In his acceptance letter, he said "I look forward to being a member of The Hutchins School, working to ensure the highest quality of student outcomes in accordance with the school's aims and objectives".

Howard worked tirelessly to put Junior School 'on the map'. That he succeeded in this is unquestioned. Whether it be relationships between boys, building teacher teams, together with staff developing curriculum, improving procedures, providing opportunities for boys to shine – Howard was there.

The synergy, the meeting of minds between Howard and Hutchins, has been a crucial element in the success of the Junior School. Hutchins has many reasons to be grateful to Howard for his efforts. Some of the projects completed during his time here are the Prep Playground, the Junior School playground and construction of the new Early

Learning Centre. His legacy to Hutchins is extensive and includes: an efficiently functioning Junior School and Early Learning Centre, a sequential curriculum, building of a team and team planning, a culture that stretches boys' minds, and innovative Speech Nights.

He moved from Hobart to Cleveland, to a different culture, a different set of expectations and a new set of challenges. I would like to thank Howard for his excellent contribution to this school. He can be proud of his achievements and on his departure, Hutchins is a far better place for his having been here.

*Mr W Toppin  
Headmaster*

## John Anderson

John Anderson was born and educated in New Zealand and moved to Australia in 1959 to join the Geelong Grammar School staff. On leave of absence in 1969-70 he spent two years on the staff of St Edwards School (commonly known as Teddies) in Oxford, England. In 1973 he assumed the position of Head of the Hutchins Junior School and teacher of a Year 6 class of thirty-three boys. At that time Junior School had an enrolment of one hundred and thirty pupils, with five full time and three part time teachers. John relates, with some amusement, that his first

executive decision in his new role was to decide on a girls' uniform!

In 1990 when John stood down as Head of the Junior School, its enrolment was three hundred and forty students and seventeen full time staff, which included three specialists, two part time teachers and two aides.

During John's seventeen years as Head of Junior School, camps were re-introduced, initially for Years 5

and 6 and eventually for Years 3 and 4. These camps, which were conducted at Montgomery Park, Carlton and Southport, were immensely popular and many boys would remember morning runs, jungle olympics, "thugby", orienteering and canoeing.

John was also instrumental in the re-introduction of musicals in Junior School, and some of the most memorable were Joseph and his Technicolour Dreamcoat, Moses (a sequel written by the late Fred Rawlings, the then music teacher), the Pied Piper, Treasure Island, Scrooge and Toad of Toad Hall. Following the success of those musicals, a new Junior School drama program was introduced, which saw all classes within the school presenting an act. Other Junior School presentations included Carol Services in the Cathedral, both as Hutchins and combining with Collegiate, and perhaps the highlight was the combined concert of independent Junior Schools of Hobart in the bicentennial year of 1988.

As a result of after hours study, John gained his Bachelor of Education and Master of Educational Studies Degrees at the University of Tasmania.

John's involvement in school sport included Under 16 cricket, Year 7 cricket, firsts rugby and Senior School hockey. He also encouraged vigorously full Junior School participation in whatever sports were being offered.

Outside school, John was involved with the Sandy Bay Swimming Club by serving as President and committee member and also served as judge, timekeeper and member of the Executive Council of Swimming Tasmania. His other activities involved serving both as President and committee-member of Southern Tasmanian Junior Tennis Development, as a selector for Tasmanian Rugby, as committee-member of the Hutchins Swimming Club and as a pennant player and committee-member of the Sandy Bay Bowling Club.

Since 1991 John's role in the School has been as Administrative Assistant, which has involved a myriad of tasks. The following are some, but by no means all, of those tasks: the control of all teacher supervisions and relief teaching, administration of teacher in training programs, preparation of the school calendar, co-ordination of arrangements for exchange students, scholarship examinations, the School Census, attendance registers, school examinations, school photographs, student and staff inoculations and maintaining the School's Honour Boards.

He will be missed by the Hutchins community, and we all wish him well in his retirement.

*Mr W Toppin  
Headmaster*

## Annette Middleton

Annette joined the teaching staff of Hutchins in 1973 as a Year Two teacher. Much loved by the hundreds of boys who have been under her care, Annette leaves this year to explore new ventures. Annette infamously became the "Ferry Mistress" in 1975, ferrying the Hutchins boys from Kangaroo Bay to Elizabeth Pier. She became an expert in the ferry/bus link operations after two years' tour of duty.

Annette moved to Year Three and taught there for many years, her kindness much appreciated by new teachers who joined the staff. A longstanding coach of minkey hockey, Annette could be seen wielding a hockey stick many a Saturday. Described as a "gentle soul" by many of her colleagues, Annette's friendliness will be sorely missed. A loyal, hard worker, Annette has served the School very well in her twenty-seven years of service. We wish her all the best in the future.

*Ms C Hogan-Jones  
Director, Centre for Excellence*

## Emily Putland

Emily joined the staff in 1996 as a teacher of French and Indonesian in the

Junior and Middle Schools. During her time at Hutchins Emily has been a grade 7 and 8 tutor and coached tennis, badminton and underwater hockey.

Emily has shown care and concern for all her charges and brought great enthusiasm to all she has done, whether it be in the classroom, dishing out French food or on the field playing boule, kasti or takraw. We wish her the very best as she takes up a position as teacher of French at Geelong Grammar School.

*Mr R Wilson  
Head of Modern Languages*

## Stuart Cripps

Stuart Cripps joined the staff in 1960 when he was appointed Master in Charge of Social Studies. The Headmaster introduced him to the School as Mr Stuart "Crisps" – which immediately earned him the longstanding nickname "Daffa". He was a resident Housemaster from 1960 until 1964. Over the years he became Master in Charge of History, whilst retaining the position of Master in Charge of Social Studies.

He always had a very flexible approach to academic studies, which fitted in especially well with senior students. In the course of his time at Hutchins he was responsible for the curriculum and teaching of both Social Studies and History from the first year secondary to senior secondary level, and the status and success of the subject is due to his expertise. He has also taught English, Religion, Mathematics, Science and Legal Studies.

Stuart Cripps has been an institution at Hutchins – a genuine character who is fondly remembered by all who were taught by him.

He has been School Housemaster, Assistant Buckland Housemaster and Thorold Housemaster (three times) but regrets he was never attached to Stephens House. He also served as Assistant Librarian, Deputy Librarian, Master of Academics, Acting Deputy Headmaster and Careers Master. In the latter role he boasts that he succeeded in getting one boy into ASIO and one into the Casino!

From the late 1980's until the end of 1997 he was Head of the Humanities Faculty, and again, in that position he demonstrated a high standard of professional performance and leadership. He always managed to maintain a balance between lively debate and an understanding of the institutional precepts under which the School must operate.

For over thirty years, at the end of each year he was responsible for the organisation of prize lists, including collecting from prize-winners their books and ensuring the smooth running of Speech Night, which occurred largely as a result of his efficiency.

In his early years at Hutchins Stuart acted as a liaison person between teachers in the government schools and independent schools, and was very successful in overcoming any

problems which arose in the dual system. He was also Special Schools Co-ordinator, and Student Teacher Co-ordinator.

He was also Master in Charge of the Book Room and was responsible for the removal of the books from Macquarie Street into the new book room, for the innovation of an accounting system concerning book sales, and for advice and liaison with the staff on the purchase of new material. He returned early from holidays to undertake this task and was very successful in obtaining help from boys who willingly gave up their time to assist him.

Stuart's extra curricular activities have been numerous, including Master in Charge of Tennis, Master in Charge of Hockey, basketball coach, debating coach, organiser of athletics, and assisting with the Lifesaving Group and dancing class supervisor (with Mrs Donnelly and Sister Jessica). His wide range of talents and interests also includes bridge, tapestry and "three step" cooking.

His other duties included master in charge of locker keys, "sweeper" (which meant missing many assemblies and awards presentations) and he will be well remembered for his many years as "pedestrian crossing supervisor" – which attracted the comment by a member of the public when he was absent: "Did that old man die?"

He was also an initial committee member of The Hutchins School Staff Association, and with other committee members John Houghton and Vern Osborne formulated the Staff Association Constitution.

Stuart Cripps has been an institution at Hutchins – a genuine character who is fondly remembered by all who were taught by him. He is modest, self-deprecating and a great wit. He was always an extremely popular teacher, with both staff and students. He was reliable and caring, without pretension, and carried out his numerous and varied tasks without fuss and without display.

*Mr W Toppin*  
Headmaster

# Obituary

It is indeed the end of an era with the passing away of Ray Vincent on 20 September. No one has done more for Hutchins than Ray. His association with the School began in 1923 when he enrolled as a boy, and continued until his death.

Times have changed and it is unlikely that anyone will ever again give such long, honorary and unstinting service. A list of Ray's activities reflects only part of his contribution.

Sixty two years' service as Secretary, Assistant Secretary and President of the Hutchins Old Boys' Association (1926 – 1988) stands as testimony to the strength of his commitment. In that position he worked tirelessly locating missing Old Boys, updating rolls and maintaining personal contact with a great many Old Boys for years.

Ray was instrumental in the establishment of The Hutchins Foundation and together with Messrs Hay, Page and Kemp was an original subscriber. He worked tirelessly for the Foundation in many different capacities. He acted as Appeals Treasurer for the Sub Primary, Ray Vincent Wing and Aqua Appeals. He served on most of the Committees of the Foundation at various times and provided extensive financial advice on a whole range of different matters connected with the Foundation. He was a Founder of the 80 Club, a group of Old Boys who were over 80 years old.

He was Correspondent for all issues of *Magenta and Black* with his column "Beneath the Ivied Towers" which provided news of the doings of Old Boys. Ray instituted the end-of-term Old Boys' lunches in 1932 and apart from the war years (when they were run by Bill Hood) convened those lunches until 1991.

During Ray's time as a Prisoner of War in Java and Timor he organized the preparations for the celebration of the School's Centenary in 1946 and upon release played an integral part in the celebrations.

The School Football and Cricket teams were also a focus for his work. He prepared the cricket pitches every Saturday morning until the bushfires of 1967. He was the correspondent for *The Mercury* with School and Club results. He was awarded the MBE for services to sport in 1976.

Ray was made a Life Member of the Old Boys' Association, (to which was added a bar to Life Membership), the Old Boys' Football Club and of the Old Boys' Cricket Club, The Australian Amateur Football Council, The Tasmanian Amateur Football League and a Life Director of the Hutchins Foundation.

In recent times his encyclopaedic knowledge of Hutchins and Hutchins Old Boys has

1909 – 1999

During Ray's time as a Prisoner of War in Java and Timor he organized the preparations for the celebration of the School's Centenary in 1946 and upon release played an integral part in the celebrations.

been an extraordinary resource which the school has come to rely on. In typical fashion he gave of that knowledge and his time unstintingly. His Hutchins story and service to this school have been unique – he was a remarkable man. No truer statement can be said of Ray than "Vivit Post Funera Virtus".

*Mr W Toppin*  
Headmaster

# Student Management

## The Senior Prefect

The first eighteen years of life are when a boy develops into a man – whether we like it or not. But there is more to the idea of a ‘man’ than simply a fully grown body and a legal age. It carries with it an expectation, a hope that responsibility and accountability are now playing a large part in life. This is an ideal, of course, but Hutchins is a school which tackles these ideals and tries to make them a reality.

One of the areas in which Hutchins deserves commendation is student management. ‘Involvement’ is drummed into the brain of the new Hutchins student and there is no better way to incorporate involvement, accountability and organisational skills than to see students playing a major part in the running of the school. From the Junior School Leaders to the Middle School Council and the SRC for grade eleven, it is evident that management and leadership are well developed concepts for Hutchins boys.

For the Prefects it is impossible to make it through the year without considerable management skill. The roles of the School Prefects cover the entire school, with prefects assigned to each of the sections of the school. This year they were Thomas Windsor (Early Learning Centre), James Walker (Junior School and Second Prefect), Simon Gardner (Middle School), and Timothy Starkey (Senior School). Regular assemblies and interaction with their respective prefect ensures that every boy in the school is kept up to date with what is happening and gets to see what type of things they are heading towards on the other side of Nelson Road in the Senior School.

A Prefect is also assigned to the various different cultural areas of Hutchins, this year with portfolios in Academics (Ben Wild), Music (James Field) and Drama (Daniel Copping). These prefects are the student liaisons with their respective area in the school, playing a large part in the organising, running and promoting of events such as the Scholars Conference, school plays, school musicals, concerts and many others throughout the year.

The President of the SRC (Nick Avery, assisted by Ben Wild) is responsible for co-ordinating and overseeing the smooth running of the SRC and all its functions and associated activities. This position also serves as a vital information link between the students, the teachers and the prefects ensuring smooth running of most school events. There has been a new portfolio established this year in Graduation (Alastair Walsh). This position is to serve as a liaison between students undertaking

the Hutchins Graduation Certificate and the co-ordinating staff. In the past the process of the graduation certificate has been misunderstood by many students. This major new link with the teachers ensures understanding and gives some guidance to students in this area.

The house system provides a more personal environment for students and the House Captains (Stevens, Nick Macleod; Thorold, Michael Ashbolt; Buckland, Jamie Chung-Gon; and School, Luke Doyle) play a large part in the lives of students within their house. House Captains act as important role models for students. House spirit is highly valued at Hutchins and it is considered fundamental for students to feel that they belong to a special community within the greater school community.

The role of the School Prefects does, however, extend beyond the daily management of the school. Prefects are the communication link between the students and the teachers and provide leadership to younger boys. Prefects should uphold the values and tradition of Hutchins as they represent the school at all times. One of the characteristics of Prefects is that they are often involved in many different areas of school life. This makes them accessible to almost every student, and helps to foster relationships which strengthen involvement in the life of the school. By encouraging this involvement, and providing so many opportunities for responsibility and leadership, Hutchins helps instill the qualities of a ‘man’ in the body of a man.

## Students' Representative Council

1999 has been an extremely busy and successful year for the Students' Representative Council. Its success can be attributed to the dedicated hard work from members of the Administrative Executive and the Curriculum Executive.

The Administrative Executive comprises four portfolios: the Social Committee, the Student Welfare Committee, the Publications Committee and the Community Service Committee.

The Social Committee, with President, Lou Edwards and Secretary, Tom Gibson, had the role of co-ordinating and organising all social events arranged for the students.

The Committee worked incredibly hard throughout the year, organising all aspects of the SRC socials at Hutchins, including the lighting and sound, food and drinks and supervisors. This hard work resulted in a number of very successful socials.

The Student Welfare Committee, with President, James Laird and Secretary, Oscar Potter, were very successful in their role to ensure the well being of students. Working with the school counsellor, the Committee organised Leadership Camps for Year 7 and Year 8. Both were a huge success. They were also responsible for organising a discussion group about life-skills tutoring.

The Publications Committee, with President, Jamie Shearing and Secretary, Michael Gozzi, have regularly published the new SRC Bulletin which is designed to inform the students of any SRC related information. The Committee has been responsible for the promotion of almost every SRC event, including socials, plain clothes days and community appeals. The Publications Committee have also had a heavy involvement in the student paper, the Vivit Post.

The Community Service Committee, with President, Richard Clark and Secretary, Simon Taylor, have been kept busy throughout the year in their role to support areas of the broader community through student participation in community service activities. The Committee organised students to participate in various doorknocks, including the Save the Children's Fund, the Guide Dogs and the Red Cross. They were also successful in supporting fund-raisers such as Wuppy Week and Jeans for Genes Day.

The General Secretary for 1999 was Matthew Banks. His role focused on linking the two Executive bodies of the SRC. This is vital as it ensures effective communication between Executive members and their respective portfolios. The General Secretary also has the role of running the 40-hour Famine within the school. This year it raised over four thousand dollars, fifteen hundred dollars more than last year.

I would like to thank all the members of the SRC for their dedicated work throughout this year. Thanks also must be extended to Miss Schafferius for her excellent guidance and support.

Nick Avery  
 SRC President

1999 Students' Representative Council:

Standing (left to right) Alex Deane, Simon Taylor, Tom Gibson, Nick Gozzi, Nick Avery, Finn Dorney, Lou Edwards, James Jenkins, James Laird, Richard Headlam, Oscar Potter, Richard Clark, Ben Wild, Miss Schafferius  
 Kneeling (left to right) Alex Thompson, Richard Griggs, Matthew Banks, Jamie Shearing, Richard Chopping, Eric Daniel

## Curriculum Executive

1999 has been a busy and successful year for the Curriculum Executive. The executive is made up of four committees: Learning Programs, Activities, Curriculum Review and Clubs and Societies.

This year the Learning Programs Committee of James Jenkins and Richard Headlam successfully organised a Defensive Driver course. They also assisted with the running of the Young Achievement Australia awards along with many other minor activities. A dance course designed for Year 12 to assist them at their leavers' dinner was introduced this year.

The Activities Committee, run by Richard Griggs and Alex Thomson, organised a number of successful activities. In First Term '3 on 3' basketball, the House Challenge and a number of Speaker's Forums were run. Term Two events were Torporama, Battle of the Bands and a new activity, The Beep Test Championships. Term Three saw the annual Hutchins Gift which was won by James McCulloch.

The Curriculum Review Committee of Alex Deane and Richard Chopping conducted a Summer Sports Day review as well as a review of the student diary. The committee also wrote and made available a study skills booklet. Courses were run for Year 9 based on this booklet.

The Clubs and Societies Committee of Eric Daniel and Finn Dorney successfully held Clubs and Societies Day and had a good turn out. They have also overseen the formation of The Hutchins Parliament which has expanded to the extent that it enjoyed the presence of the Prime Minister for one of its sittings. The new Clubs and Societies brochure has been a major project this year with many changes and additions having to be made.

The Executive met weekly and was chaired by Ben Wild and Mr Hodge. Matthew Banks was also present in his role as the General Secretary of the SRC. As well as each committee's individual responsibilities, the executive as a whole aided in the running of the Early Learning Centre Open Day and the whole school Open Day. In both cases they stuffed hundreds of envelopes and then manned the registration desks throughout the day. Collectively the Curriculum Executive had a very successful year and will leave behind new ideas and a solid framework for next year's group.

*Ben Wild*  
SRC Vice President

# The Chapel of St Thomas

## From the Chaplain

It has been a busy and vibrant year in the life of the Chapel. The Gospel has been presented and the divine presence sought in word, music and reflective silence. Many have listened and participated with interest, and hundreds of prayer candles have been lit. There have been nineteen baptisms, and at present a group from the Junior School is preparing for Admission to Communion.

Many responded to the Lenten Appeal with generous donations of clothing. Boys took part in the Anglicare doorknock, and our "mission" to St Christopher's Home, an orphanage run by sisters of the Community of the Sacred Name in Fiji, was a great success.

We welcomed to the Chapel a number of visiting speakers, including ex-Senator Michael Tate, Bishop Owen Dowling who came to confirm, Mr Peter Breen from Christian Blind Mission International and retiring Bishop Phillip Newell. Among our guest speakers have been the Headmaster and other members of staff – Messrs Morley, Smith, Millhouse and Overton.

The Boarder Service has been moved from Sunday night to alternate Thursday nights, and this new arrangement works well. It looks as if House services will become more regular and therefore more part of the natural rhythm of life at Hutchins, and this is a very worthwhile step.

A new font, the gift of Launceston Grammar, was crafted from brass by Mr R Servant and it features a .8m glass bowl. It is an impressive symbol of the importance of baptism.

This year has seen the resurrection of the original Hutchins cope to its former glory. Originally crafted by Mrs P Vincent it has been painstakingly restored by Mrs J Millington, and worn on significant occasions.

I thank those who have helped in many ways: Chapel Warden, David Stary; the servers and candle-bearers; the readers and music-makers; and all who have encouraged and willingly participated in the life of the Chapel.

*Fr J Goodwin*  
Chaplain

*The baptism of Sam McMillan*

# New Zealand - Fiji Trip

On Monday 6th September, a party of eighteen eager travellers left Hobart Airport for the trip of a lifetime. In the space of eleven days, fifteen boys and three staff travelled in three countries. Many of the boys had been no further than Melbourne before, so for them in particular the trip was a revelation.

In the first thirty-six hours we packed in a trip to the Jewish Museum and the synagogue at Saint Kilda, a Chinese banquet, a movie and a flight to Auckland. In the next three days we travelled all over the Waikato River Valley, stayed at Father John's old school Southwell in Hamilton, saw the glow-worm caves at Waitomo, visited a nature reserve with endemic species, experienced a full hangi whilst visiting a recreation of a Fifteenth Century Maori village, marvelled at the geysers at Rotorua and the Maori craftwork at Whakarewarewa, had a ball on the luge and gondola just out of Rotorua and drove back to Auckland to see Kelly Tarleton's fascinating 'Water World'.

Next stop Fiji. We had a wonderful time and it really is too hard to say what we enjoyed the most. The jet boat ride through the

Ben Gray, Robert Knight, Mark Groom and Ian Wilson with some friends at Saint Christopher's Orphanage

were so joyous, friendly and trusting. The Tongan and Fijian Anglican nuns, who worked amicably with Methodist friends, were utterly devoted to their charges and their loving concern clearly had transformed these children. The boys will never forget the day at the beach, the games they played around the orphanage and the amazing concert on our last night there or the morning chapel service.

Many thanks to the co-leaders of the trip, Father John and Jodie Schafferius, for their unflinching help, common sense and cheerful good humour. Thanks too to the boys for their good judgment and willingness to get involved. We have all learned a lot from each other. Roll on 2001 when we hope to do it all again.

Mr A Webber  
Head of Humanities and Religious Studies

mangroves was at times terrifying, the Hindu temple full of interest (especially for Mark, Ben and Ian), the two trips up the Navua River, with its spectacular waterfalls and rockpools, were calm and relaxing and it was a rare privilege to be greeted by Fijians in native full dress and to share their food and customs with them in their villages. The fire walking was hard to believe as was the sheer pleasure and luxury of the last day of the trip which we spent eating, drinking, snorkelling and playing volleyball and touch footy at a tremendous pace on Malamala, a coral island. All leaders of the trip agree, however, that the highpoint of the trip was the time spent at Saint Christopher's Orphanage. All members of the party were stunned that the little children, (some of whom had worked the streets or been beggars or pickpockets or who had lost their parents...the list of woe could continue)

# Chapel Choir

Interest in the choir continues to grow and this year the number of boys in the Chapel Choir rose to fifty five. The Choir continues to provide music for services in the school chapel and churches in and around Hobart. The choir sang at twenty one church services throughout the year, performed at many public engagements and gave a recital of popular sacred music in St David's Cathedral. The Choir was also featured on ABC radio and sang at the Hutchins-Collegiate Concert at Wrest Point. Our second CD was recorded this year. To Be A Pilgrim, released in November, was inspired by last year's tour to England and contains music that the choir sang in the great English Cathedrals.

Throughout the year we have had valuable assistance from Mrs Anne Morgan, Mr Andrew Legg and Fr David O'Neill as accompanists for the choir in rehearsal and performance. Mr Peter Symons also spent much of his time behind the scenes preparing the choir for performance, organising our robes and getting the final details of the CD ready for production. Most of the thanks must go to the boys for their time and commitment to the choir in what was a very busy year. The excellent attitude the boys have to their music makes it easy to train and organise such a large ensemble. Special thanks must go to our three senior boys, James Field, David Stary and Daniel Copping for their superb leadership and example, and also to Charles Fish our Head Chorister.

This year the choir can boast the largest treble-line and the most outstanding back-line in its history. Next year will be an even stronger and more exciting year as the choir prepares itself for ChoralFest 2000, Australia's most prestigious choir festival.

Mr S Morris  
Master of the Choristers

# The Hutchins Family

## The Hutchins School Old Boys' Association

During the last year the Association has been focussing on our role within the School community and how we can best serve Old Boys in the future as well as ensuring our relevance within the School family. This will continue into the first quarter of 2000 and will be tied in with the School's strategic planning exercise.

During 1999 Mr Jim Grant resigned from the Board of Management and was replaced by Mr Ian Johnstone while Mr Peter Shelley replaced Mr John Clennett who completed his term of ten years as a Board member. We thank Messrs Grant and Clennett for their contributions during their period as our Board Representatives.

Mr David Morris replaced Mr Tim Johnstone as Association President at this year's Annual General Meeting while new committee members elected were Chris Drury, Paul Lovell and Charles Badenach.

Andrew Bayley did not seek re-election while Peter Shelley's appointment to the Board saw him also stand aside from the Committee. Both these gentlemen are former Association Presidents and they are to be thanked for their contribution to the Association over a number of years.

The Association's major social functions for the year have been the Virtus lunch in May, the Beer & Bite in August as well as the September end of term luncheon and the Christmas luncheon in December. This function is to be known in future as the Ray Vincent Christmas Luncheon to honour the memory of our long serving former Secretary who passed away in September. We extend our sympathy to Peg, Tom and Robert on the death of a Hutchins legend.

With the Virtus luncheon now a regular feature on the School Calendar, the Association is looking at how we can best accommodate our members as far as regular luncheons are concerned. Obviously, we need to continue with them but should they be held quarterly or as has been the case, at the end of each term. The venue for these functions is also being reviewed. For many years they have been held in the Boarding House dining room but the Ray Vincent Christmas lunch was held at the Masonic Club, the former site of the school. This enabled a greater number of city based Old Boys to attend and it appears likely that more lunches will be held at this venue in future.

The School has recently appointed Mr Andrew Short as Alumni Officer and part of his duties will include maintaining Old Boys records and general liaison with Old Boys groups. In addition, he will be largely responsible for organising year group and other reunions. We congratulate Andrew on his appointment and look forward to his working with our members.

The Association membership increased by 120 from the 1999 Leavers and we wish those leavers great success for the future and look forward to their involvement in the Association.

## The Hutchins Foundation

1998/1999, my first year as President, has been one of review, planning and development. Early in the year the Allocations and Investment Committee finalised the development of an investment policy which was subsequently approved by the Foundation Board and has been implemented with considerable success.

The Headmaster has set a challenging pace within the Hutchins community and specific aspects influencing the Foundation include the strong marketing focus, the capital works developments and the planned refurbishments.

Once again the Hutchins Foundation Art Prize was extremely successful in drawing together the work of a wide range of talented Australian artists. More importantly it promoted the artistic awareness of Hutchins. The Foundation is proud to offer this Prize and I thank all members of the committee for making this such a professional and prestigious event.

The Hutchins Foundation faces many challenges in its fundraising activity including the difficult Tasmanian economic environment and many competing demands on people's generosity. To address this issue the Headmaster, with the support of the Foundation, is working to create a greater awareness of the mutual benefits of philanthropy in the Hutchins community.

### A New Direction

A number of structural issues were addressed during the year with the introduction of fewer meetings of the Foundation's Executive Committee and Board but each meeting having a more detailed reporting structure. The Hutchins Foundation has an integral involvement in the strategic planning committee of the Hutchins board on which the Foundation is represented by Andrew Ashbolt and me.

This committee has been grappling with the issue of short-term and long-term fundraising for the benefit of the Hutchins community. In particular, there is a need to address the issues of executive support (and a reporting structure for that support) as well as seeking to maintain integrity of the Hutchins Foundation objectives while recognising the need to raise funds in the short-term for shorter term objectives.

It is proposed that short-term fundraising for short-term objectives should be conducted separately from the long-term fundraising processes of the Hutchins Foundation. To facilitate this process the strategic planning committee, in conjunction with the Headmaster, have developed an administration reporting structure which provides for the employment of additional personnel from the beginning of next year. A major benefit to the Foundation from this process will be the development of specific marketing activity aimed at encouraging a spirit of philanthropy within the Hutchins School Community.

## New Appointments

We were pleased to welcome the experience of John Whelan to the A&I Committee. To the Programmes and Projects Committee we welcomed a new Chairman – Max McMullen – and Geoff Hazell, Ian Anderson, Marguerite Hunn and Vince Sorrentino

## The Committees

A new committee was formed during the year under the chairmanship of Rob Hues to care for the real estate investments of the Foundation and also to look at potential real estate needs and acquisitions which may be needed for the long-term benefit of the School. The committees have all worked hard in a difficult fundraising environment.

The members of the Bequest Committee continue to promote the bequest concept among Hutchins Old Boys and other members of the School community who may appreciate the opportunity to assist Hutchins through a special bequest. By its nature this is a long-term fundraising activity and requires dedicated commitment over the very long-term with little control over year to year outcomes.

Although we are experiencing low interest rates, the broader investment policy implemented by the A&I Committee combined with reasonable market conditions and extremely low inflation has led to a most satisfactory growth in real assets over the last year. I thank Andrew Kemp and his team for the development of a sustainable investment policy and look forward to its continued success. The P&P Committee continued its wide range of roles throughout the year. This committee is a very public face of the Foundation and seeks to raise funds and also to encourage members of the Hutchins family to participate in its various activities which develop a sense of community and encourage a spirit of giving and sharing.

## Headmaster and the Board

Being a member of the School Board as well as President of the Foundation has allowed me to develop a better understanding of the future needs of Hutchins and the ways in which the Foundation can help. The Headmaster and the Board's Strategic Planning Committee are developing plans for the future needs of the School. This development will need the assistance of an active fundraising support structure. The Foundation was established for this purpose and with an appropriate split of short-term and long-term focus it is ideally placed to assist in developments for both current and future Hutchins boys.

I would like to thank the Chairman and those who have supported me and the Foundation over the past year. In particular I commend Christopher Hall for the enormous workload he has undertaken. Both Don Camm and Pam Daly have also contributed enormously to the successful operation of the Foundation's activities and I thank them most sincerely. Once again we look forward to an exciting year of growth and development within the Hutchins Foundation.

Mr D Catchpole  
President

## The Hutchins School Parents' Association

The Parents' Association is now seventy years old. Over the years the Association has made a significant contribution to the life of the school, providing major resources, as well as funding a wide variety of smaller projects each year. During the last ten years major Parents' Association projects have included redevelopment of the tennis courts, construction of the Student Club adjacent to the Senior Tuckshop and \$50,000 contributed to the Science and Technology Appeal for the Foster Science Wing. Smaller grants have provided specialised equipment for teaching areas such as music, science, sport, technology and humanities.

The Parents' Association always has a strong committee which is well supported by several Parent Groups (Eastern Shore, Central and Southern) which all provide excellent parent networking opportunities. They also undertake a variety of fundraising activities as well as providing valuable feedback to the Headmaster on a variety of issues. Guest speakers from the school's faculties regularly attend Parents' Association meetings giving parents a greater understanding of their son's education and the school's facilities.

Parent assistance in the two tuckshops has generated valuable income for the Association. Now that the actual operation of the tuckshops is managed by Spotless Catering, volunteer assistance by parents is essential to maintain a profitable income from this activity. The Clothing Pool has operated as a voluntary service for many years, but it too is facing restructure. It is anticipated though, that profits will continue to assist the Parents' Association. I would like to acknowledge the enormous amount of work done by Vicki French over the last four years expanding the operations and services of the Clothing Pool to make it more accessible.

The Fair was again a great success, raising around \$20,000. The twilight event proved very popular, with a Fair Social the highlight of the evening.

Hutchins has been well represented on the Tasmanian Parents' Council this year, with the Headmaster attending in addition to Alex Graeme-Evans and myself. Alex continues as a Vice-President, while I have been nominated as Minute Secretary and TPC representative on the Schools' Registration Board.

There are many areas outside the Parents' Association where Hutchins benefits from the support and expertise of parents. These include assistance in the libraries, junior classrooms, Centre for Excellence, tuckshops, Foundation, career talks and displays. We are also indebted to the many parents who coach and manage sports teams and those who are involved in Parent Support Groups for Rowing, Rugby, Football and Cricket. There are always projects for parents to support and we greatly appreciate the time and effort which so many parents freely give. The school and your sons benefit.

I would like to thank our committee for the past year and in particular Alex Graeme-Evans for his work as Secretary and James Gard for his continuing expertise as Treasurer. I am sure we can all look forward to another challenging and worthwhile year in 2000.

Mrs J Inglis  
President

## The Archives – Electronic Records and the New Millennium

On this page last year, the major needs of the School's Museum and Archives were recorded as being the storage and retrieval of the enormous amount of archival material in the School's possession onto a data base. The issue of storing information electronically, and the related matter of the increasing amount of correspondence being electronically transmitted, raises unprecedented issues for the recording of the School's history.

As more and more School business is conducted electronically, the obvious questions to be asked are: where does the responsibility lie for the recording of such business? How much of it realistically should and can be recorded and stored? Is the best method of recording and storing of electronic data to be on paper, or should it, in turn, be electronically stored? Is electronic storage wise, given that the formats used for documents using certain software today may not be readable in the medium or long-term future? A recent report in Victoria, into that State's Public Record Office, revealed that its existing electronic document and records management systems are inadequate for long term accessibility. Sobering, not just for this School's Archives, but for the School generally.

The Museum was privileged to have many visitors throughout the year. The recently retired Curator of History at The Tasmanian Museum and Gallery, Mr. Peter Mercer, visited with his wife, and they were both very impressed with the Museum's acquisitions and displays. Mr. Mercer acknowledged the historical significance of the School's Museum and Archives for the School and Tasmania. The interest on Grandfather's Day, and the regular inquiries locally and from interstate, underline his observation. This resource, opened twelve years ago, is testimony to the hard work of previous Archivists, Staff Members and ultimately to the generosity and far-sightedness of donors down through the years.

Responding to inquiries from researchers continues to be time-consuming because of the incomplete re-cataloguing and transfer of information into one central record. However, the searches, and the often-unrelated discoveries made during those searches, have been generally of mutual benefit to the School and the inquirer. One such beneficiary is the School's Chapel, which now has some of North's drawings of the design of the School's chapel at the former campus in Macquarie Street, to grace its walls.

I attended two stimulating events organised by The Friends of the Tasmanian Museum and Art Gallery. Kenneth Park, former Curator of Collections at Wesley College, Melbourne, spoke of the innovative designs of new museums (large and small) around the world. The Mt. St. Canice Heritage Museum was the venue for a lecture on and display of the work of the nineteenth century English mastercraftsman, Pugin. (The woodcarver, Ellen Nora Payne, some of whose work the School owns, would have been influenced by Pugin.) Many communities, it seems, are placing Museums and Archives at the top of their priority lists – volunteer enthusiasts, professionals and businesses are collaborating to prepare museums for the new millennium.

The Hutchins School winning its first 'Head of the River' in 1923, when it was a Fours Event.

The 1923 Crew (Bow: J.Hood; 2.S.Darling; 3.B. Law; Str: J.Cowburn; Cox: T.Frankcomb) and below the 1999 Eights 'Head of the River' Crew (Bow: H.Brolsma; 2. A.Walsh; 3. N.Denholm; 4. S.Carr; 5. W.Headlam; 6. S.Taylor; 7. A.Macleod; Str: J.Murdoch; Cox: C.Blundell).

This potpourri ends with a quotation made one hundred years ago, about something quite unrelated: from The Friends' School magazine, – 'The School Diary', 5th August (1899) – "The Senior football team played that of Hutchins School and was beaten as usual. I think they have only succeeded once in beating that invincible school."

Mr T Daly  
Archivist

# Early Learning Centre

Our new Early Learning Centre has been a never ending source of excitement and pleasure this year! The early years are the most vital years of a child's educational life. During this time they are acquiring all the foundation skills for future learning and are forming crucial attitudes both to learning, and to themselves as learners. Therefore those very first experiences of school are critical. As a well planned environment is one of the key features of an effective early childhood program, a lot of research, time, thought and care went into creating the 'state of the art' building you see today.

How does something like the new Early Learning Centre happen? Just combine the vision and drive of Mr Bill Toppin and the Board of Management, then stir in the energy and creativity of Mr Howard Kelly and the architect John Button and add the meticulous work of builder Derek Chambers. Finally sprinkle liberally with ideas from staff, children and innovative mainland schools and you have the perfect recipe!

'The Journey' is the theme for Kindergarten to Year 6 this year and hopefully every boy's learning journey has been an interesting and successful one.

The building is a sumptuous feast of colours, shapes and interesting angles. Aesthetically it is a delight. More importantly though, it takes into account how young children learn. The arrangement of indoor and outdoor areas allows for a flexible teaching program. Materials and equipment are easily seen and accessible, helping the boys to be independent and responsible. There are special places for the children to keep their personal belongings and there are well planned offices for staff. Toilets, drinking fountains, art areas and a variety of display surfaces are all carefully planned and placed. The boys have a safe environment with numerous resources, places and spaces for them to use and change as they change. There are many interesting things to touch, see, hear and do.

'The Journey' is the theme for Kindergarten to Year 6 this year and hopefully every boy's learning journey has been an interesting and successful one. Some of the many activities that boys have enjoyed this year are the Sports Activities Afternoons, Cross Country at Dru Point, the Eisteddfods, Grandparents' Day, Anniversary Week, Mt Dromedary bush walk, touring theatrical productions such as Inchboy

and Pinocchio, Joeys, French Day, The Prep Farm Day, The Christmas Celebration Concert, trips to the Farm and the Show, Bushdancing, class visitors, trips to the Antarctic Adventure, The Solar Trade Fair, Choir performances, assemblies, cross-age buddies from Middle and Senior School and the list goes on.

It has been a very busy but exciting year and I certainly feel privileged to have joined the Hutchins community. It is a special community where everyone's input and effort is valued and appreciated.

The joy of working with young children is their energy, enthusiasm, curiosity, optimism and passion for life. These attributes, which the Early Learning Centre aims to foster and develop, are the vital ingredients for all life-long learners.

# Preparatory Class G

If Hutchins boys were in charge of the world...

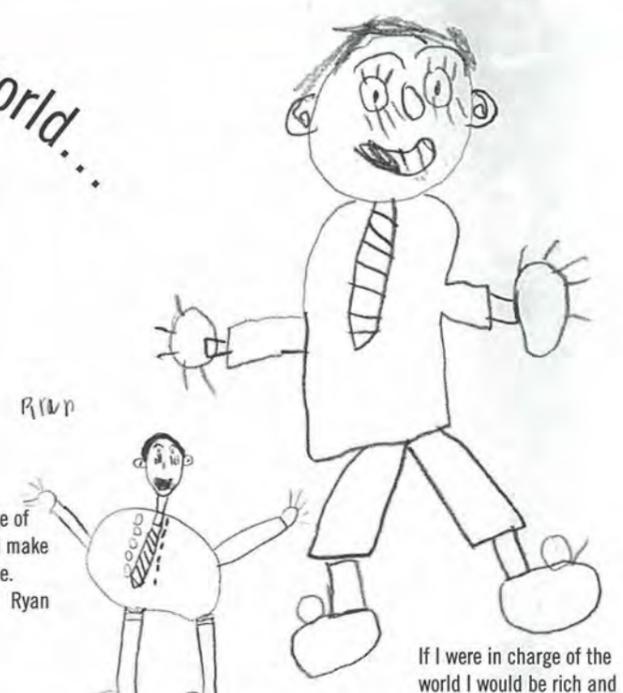

If I were in charge of the world I would not let anyone rob or there be bad people.

Luke

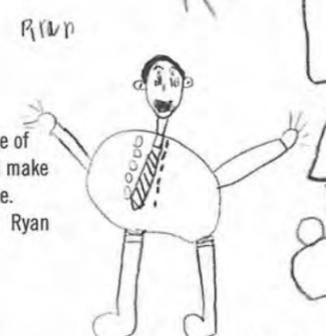

If I were in charge of the world I would have more money to buy presents.

Sam

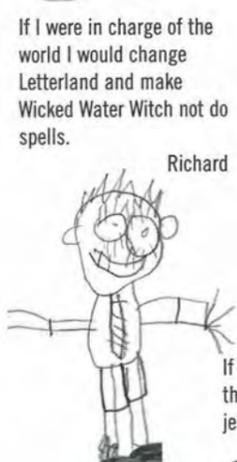

If I were in charge of the world I would be rich and make sure there were only nice animals.

Wilson

If I were in charge of the world I would make chocolates be free.

Ryan

If I were in charge of the world I would change Letterland and make Wicked Water Witch not do spells.

Richard

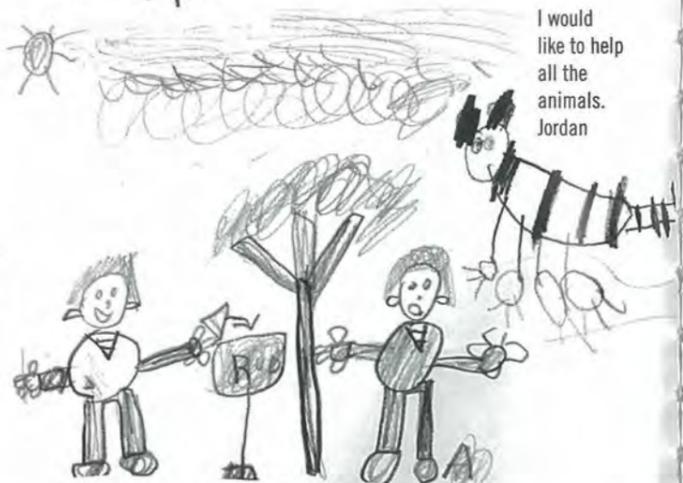

If I were in charge of the world I would make jellybeans food.

Lachlan

If I were in charge of the world I would have chocolate cake for breakfast.

David L.

If I were in charge of the world I would wish everyday we did not have to go to school.

Thomas

If I were in charge of the world I would make sharks nice.

Declan

I would like to help all the animals.

Jordan

David L.

Rory

Middle Row L-R Ryan Ward, Zachariah Pearce, Thomas Whitton, Richard Sayers, Luke Jones, James Smith, Rory Middleton, Wilson Mure  
Front Row L-R Nicholas Lancaster, David Lodder, Jordan Townsend, James Wheller, Miss Cathlyn Gieselman, Declan Martin, Wills Wurf, Edward Thwaites, Lachlan Crowder

## What a world it would be! Prep G 1999

If I were in charge of the world I would make sure no Letterland people would be cheeky.

Rory

If I were in charge of the world I would let Carlton play the Swans and Carlton would win.

Emmanuel

If I were in charge of the world I would make sure that Jumping Jim could not jump on people.

James S.

If I were in charge of the world I would make sure there are no chocolates. There would be only fruits and vegetables.

James W.

If I were in charge of the world I would make toys from Toy World free.

Zachariah

If I were in charge of the world I would turn the world into an explorers jungle.

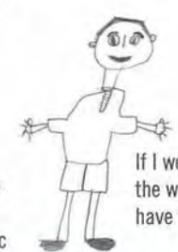

Nick

If I were in charge of the world I would make everything jellybeans and chocolate. It would be yummy.

Wills

If I were in charge of the world I would have oranges everyday.

Zac

If I were in charge of the world I would never have to eat broccoli.

James

If I were in charge of the world I would make it rain all of the time.

Edward

# Preparatory Class S

## Dads

**My Dad by David Titchen**  
My dad works for the Hydro and he works with electricity and wind turbines. He wants to have his own place for wind turbines.

**My Dad by William Hodge**  
My dad is a doctor. I like it when he plays cricket with me at our shack. He wrestles with me and always wins.

**My Dad by Jhobin Aflatooni**  
My dad's got big, brown eyes. And he's nice and he takes us to the park to play. He's an architect and we are building a house.

**My Dad by Luke Smith**  
I love my daddy. I miss my daddy when he's at work, and he's grading papers and teaching the other boys. He likes wrestling with me. He teaches me to snap my fingers.

**My Dad by Matthew Allanby**  
On the weekend daddy works in his shop. On his days off he goes out to Mures for tea with me. I really like that. He likes to watch footy on television and soccer.

**My Dad by Tobias Tenbensei**  
He builds with me making some toys out of wood. We've made trucks and cars and rockets and satellites. And he likes being silly at bedtimes.

**My Dad by Andrew Hay**  
My dad's nice. I like going outside with dad. Sometimes we play soccer. Dad and I like to ride our motor bikes up behind our house.

Dad by Isaac Woo

Dad by Sam Hooker

Dad by Sam Keating

**My Dad by Tim Watkins**  
My dad goes to work when I go to school. After working he comes home and plays with me. We play Diablo, a computer game and you have to try and catch Diablo.

Dad by Max Waldron

**My Dad by James Norris**  
Well he's bald, and he's tough and he lets me fight him in the night, and I win. Dad has taught me to kick on the top of your toes and it goes really high. I love my dad.

Dad by Cameron Jeffery

Dad by Xavier French

Dad by Hugh Tyler

Dad by Nathan Brown

Dad by Nanak Narulla

Dad by Ben Savva

Dad by Owen Swain

## Mums

**My Mum by Hugh Tyler**  
My mum is special 'cause she loves me. She plays ball with me and she loves soccer.

Mum by Tobias Tenbensei

Mum by William Hodge

**My Mum by Max Waldron**  
I love my mum because she loves me. On Mother's Day I am going to give my mum a present and breakfast in bed.

Mum by Timothy Watkins

**My Mum by Owen Swain**  
I like going to the shack with my mum. She lets me go for a swim. She likes exercising but she doesn't like cooking 'cause it's always boring.

Mum by Andrew Hay

**My Mum by Xavier French**  
My mum's lots of fun 'cause she plays Uno with me, and she plays school with me at home. She reads me stories when I get home.

**My Mum by Sam Hooker**  
My mum likes going out with us. I think she liked it when she watched me in the egg and spoon race, 'cept it was a golf ball!

Mum by Matthew Allanby

Preparatory Class S

ROW 3: Matthew Allanby, Andrew Hay, James Norris, Hugh Tyler, William Hodge.  
ROW 2: Mrs. Amanda Thomson (Teacher's Assistant), Samuel Hooker, David Titchen, Xavier French, Tobias Tenbensei, Owen Swain, Ben Savva, Max Waldron, Mrs. Amanda Sargent (Teacher).  
FRONT: Jhobin Aflatooni, Timothy Watkins, Isaac Woo, Cameron Jeffery, Nanak Narulla, Nathan Brown, Sam Keating.  
INSERT: Luke Smith.

**My Mum by Ben Savva**  
My mum likes me and I like her. She plays cards with me. And she likes my sister Montana.

Mum by Luke Smith

**My Mum by Sam Keating**  
For Mother's Day I'll give my mum some flowers, 'cause they're girls stuff! She always wins hockey for OHA.

Mum by David Titchen

**My Mum by Xavier French**  
My mum's lots of fun 'cause she plays Uno with me, and she plays school with me at home. She reads me stories when I get home.

Mum by James Norris

**My Mum by Nan Narulla**  
I like getting kisses and cuddles from my mum and I also like picking flowers for my mum. My mum likes me hopping in the middle of her bed and eating toast.

**My Mum by Cameron Jeffery**  
My mum loves flowers. She's got long hair. I like her to read me a story and it is Thomas the Tank Engine.

Mum by Jhobin Aflatooni

**My Mum by Isaac Woo**  
I like to go to the park with my mum and play with the leaves. I sometimes help her making cakes, and she lets me lick the bowl.

# Grandparents are Special

My Nan likes me because I always come down to her. She is kind because she gives me stuff like lollies and presents. She lives at South Arm and I go and see her at the weekend.  
**Andy Buchanan**

My pop is special because he made me a billy cart. He made it in his shed. I play on it at my place.  
**Guy Swan**

My Grandpa is special because I come from Tasmania to Melbourne to see him and do the shopping with him. I help him make things. I love my Grandma and my Grandma is special too. I kiss her and hug her.  
**Jimmy Waldron**

Andy Buchanan

My Grandpa is a Professor. He knows all about the Earth. He bought me a solar-powered robot. That was very special. He bought it with his American Credit card. He lives a long way away and I don't see him very often, just when he comes to visit.  
**Shervin Aflatooni**

My Grandma is special because she plays good golf. We visit her. We drive to Launceston and it takes quite a long time. It takes two hours. She is pleased to see us and she makes afternoon tea for us.  
**James Roberts-Thomson**

I don't see my mother's mum very much because she lives up in Sydney. Last time I saw her we had dinner together. She is special because she has a lovely house.  
**Tim Underwood**

My Grandma is special because she gives me lots of hugs. She helps me when I fall over. She lives in Melbourne and she only comes over every year.  
**Ben Richmond**

My Nan is nice because she gives me lollies and she lets my sister and me build cubbies in her room.  
**Matthew Huizing**

Matthew Huizing

My Grandma is special because she lets me go to the shop. I buy P.K. She comes to our house and when she comes to our house we make playdoh. We make people.  
**William Mollross**

Rodney Tennick

Grandad is special because he lets me ride on his tractor. We get the hay for the cows. He has a grey hat and he wears old clothes because he does lots of work outside in the paddocks. I like him a little bit because he is a bit grumpy sometimes.  
**Rodney Tennick**

My Granny lives over the bridge. She collects me from school and I go to her house and wait for Dad to pick me up. She sometimes buys me toys and treats.  
**Nicholas Cannell**

My Grandma always plants seeds and I don't know why. I think it's because she likes to see pretty flowers in her garden. She is special because she loves me.  
**Luke Knight**

Grandad lives in Melbourne. He used to be a mechanic and he did build a big train. Now he stays home and works in his workshop. I go in his workshop and watch him when he's working. He is special to me because he builds me stuff.  
**Nathan Holloway**

Ben Pearce

My Grandma gives me lots of jellybeans when I come to her house and also when I leave her house. I don't see her very often because she lives at Sister's Creek. She lives on a farm. When I visit her I get to feed the animals with my Uncle Simon.  
**Ben Pearce**

I like my Grandma because she does give me stickers. She likes to give me bulbs to plant in my garden. She has a nice garden and she works in it a lot. She has black hair and she doesn't really look like a grandma because she is not that old. When I visit her I like to fill in my sticker book.  
**Sam Manning**

## Year One S

### Year 1S

Back Row L-R Matthew Huizing, Ben Richmond, Sam Manning, James Roberts-Thomson  
2nd Back Row L-R Cameron Burnett, Jimmy Waldron, Rodney Tennick, Nathan Holloway, William Mollross  
2nd Front Row L-R Michael Titchen, Nicholas Cannell, Ben Pearce, Samuel Graves, Luke Knight, Gus Howe, Andrew Isles  
Front Row L-R Shervin Aflatooni, Guy Swan, Benjamin Ridgers, Andy Buchanan, Tim Kiddle, Julian Rusworth, Tim Underwood  
Absent - Harrison King  
Teacher's Assistant Mrs Ros Jones  
Teacher Mrs Judy Smith

My grandpa is in China. He is living in a hotel. He is special to us because he gives us presents.  
**Tim Kiddle**

Cameron Burnett

At Grandpa's house in Sydney I like to go into her little garden, which is like a jungle and catch lizards.  
**Gus Howe**

Dziadzi is fixing the floor. He is special because he fixes things. I watched him when he fixed my bed. I like to get the eggs from the hen house. Then I come inside and give the eggs to Nanny.  
**Cameron Burnett**

Nicholas Cannell

Michael Titchen

My Granny is special because she makes me chocolate cake nearly every time I go over there. Sometimes when she goes to the shop she rides her motor bike. She doesn't seem like a Grandma because she does quite a lot of things. One of her favourite things is Art.  
**Michael Titchen**

My Grandma is special because she made my mummy. She always gives me ice cream at night when I stay at her house. She looks like an old Granny because she doesn't have grey hair.  
**Samuel Graves**

Samuel Graves

I like my Grandma because she makes cakes and pikelets. Once she baby-sat me and Jen and she brought a Nintendo game for me to play and some bubble bath for Jen. We watched the footie together. It was the West Coast vs. Carlton.  
**Andrew Isles**

Benjamin Ridgers

Grandma likes to garden and cook food. She has white hair. She is wrinkly. She wears glasses. She loves me because I am her grandson.  
**Benjamin Ridgers**

**Dougal McNoodle Doodle**  
222 McDougal St  
Mount Noodle  
Noodle Land  
Pink Boy 7007  
Planet Noodle

Dear Dougal,  
Pluto is blue. It has a moon. It is very dark and is smaller than our moon. Pluto is made up of frozen gas called methane. It probably looks like a dirty snowball. In summer some methane warms up and forms a thin atmosphere. Pluto's summer lasts 62 years. It's midsummer was 1989. Next midsummer is in 2239.

From Max Hutchins

**Mr James Powell**  
20 Space Port Street  
Hobart  
Tasmania  
Australia  
Planet Earth

Dear James,  
I am on planet Saturn. It has lots of rings that are made up of lots of rock. There are large rocks that roll around. I love it here on Saturn. I have a space buggy that I take everywhere. If I need to explore I take my space motorbike out.

From Ben Baynes

**Mr Chucky Powell**  
9 Marine Terrace  
Battery Point  
Tasmania  
Australia  
Earth

Dear Chucky, Dougal, Cameron and Ben B,  
I have landed on Saturn. Saturn has five huge moons. It is the planet with the largest rings. I went through the rings on my space bicycle. I have special boosters on my wheels. I have mini rocket launchers on my bicycle.

From James Powell

### The Giant Scorpion

My constellation is a giant scorpion. It had a battle with a giant. The scorpion won the battle so he became famous. The scorpion had a palace and the giant had a little hut. No one cared for the giant because he was very mean and not friendly. In the battle the scorpion flicked his tail at the giant's face and he was hit and he fell to the ground and he died. You can see the scorpion with his poisonous tail.

Dougal Middleton

### What's in a Black Hole

All the stars got pulled into the black hole and turned into melted butter. I found a space bus with Martians cruising along. I made friends with the Martians. One's name was Zule, the other was Nuk. We were driving along to the other side of the black hole to a magical land with air and rocks and water. It was exactly like earth but 700,000,000 miles away. But how will I get back to Earth? "I know, I will change back time." I had a clock and started winding, winding, winding, back time until I got back to Earth. Finally I was almost back to earth. Only 70 more winds and I would be back. I am about at Saturn now 50 winds, now 40 winds, now 30 winds, now 20, now 10, now 1, now I am home.

Luke Tucker

### Sun

The sun is like an uncooked pancake  
It is as hot as a roaring fire  
The sun is hotter than a hot roasted pig  
It looks like a ball of lava  
A round beach ball with flame leaping from the side  
It looks like a yellow clock without any hands or numbers  
I love the sun because if it's raining the sun will come out sometimes and Dougal and I can play soccer and football

Edward Pascoe

### The Great Temple

One day a giant lived in a temple made of gold. He was very unkind. One day the giant was walking in the forest. He found a scorpion. The scorpion grew bigger and bigger! Then they had a fight. Scorpion's friends came to help him. They grew bigger and bigger. Then the giant's friends came to help the giant and they grew bigger and bigger. They bit and kicked each other. Scorpion kicked the giant so hard that he flew in the air. That was the end of him. The scorpion then went to live in the great temple.

Darren Freese

### Explorer

I'm a great explorer. My spaceshuttle was dragged into the black hole. I was stretched and I ended up at the other end. It was a nice, beautiful garden. There was a house called home. I saw a girl named Shera. "Who are you?" I said. "I'm the owner of this house" she said. Then she saw my space shuttle. "Hey, we can get out of here in no time" she said. She climbed in. I said that the fuel was all gone. "Don't worry, I've got star fuel" she said. "Wow" I said. "Actually I would like to stay here". "Okay" she said "bye". "I'm out of here". I watered the garden and loved the flowers and slept in them. I built a couch that I slept in, amongst the flowers and dreamed.

Bodane Hatten

### My Alien

In a dark, dark place lived an alien called Mr Kill. Mr Kill had an aeroplane landing pad and a buggy car. One day an alien got his aeroplane buggy car and the landing pad and got the aeroplane to blast him from Mars. Mr Alien has 3 eyes, 2 pieces of hair, 4 legs, 2 hands, no fingers and a rectangle shaped head. Mr Alien works for Space Protective Ships. He is kind but if you fire at him he will fire back. His colours are yellow, orange, red, blue and he has chocolate in the middle of his body. He likes to eat spaghetti bolognese.

Ben Schneider

### Sun

The sun looks like a dirty orange ball  
It's as hot as lava  
A hot bright yellow banana cake  
Someone's sunburst head  
Hot red plates  
A lions thick yellow mane  
I like the sun because it gives us light to see

Cameron Willis

### Moon

The moon looks like a big chunk of blue vein cheese  
A sphere that's been hit with a mini gun  
A beach ball that's been buried  
It's as big as Mercury like a mat covered with ashes  
Burnt pancakes  
A very big ball that's been blown up and then thrown in the mud  
A mud covered soccer ball  
A dirty round clock  
I like the moon because I play soccer and the moon looks like a soccer ball with mud all over it

Daniel Jones

### Southern Cross

My constellation is the Southern Cross and four stars are destroying it. The four stars are destroying everything. It was up to the Soviets now they have five rocket launchers, two bazookas and three tanks, but they still didn't beat the four stars. The Soviets destroyed it but you can still see the Southern Cross constellation in the sky.

Yianni Papoutsakis

### Sun

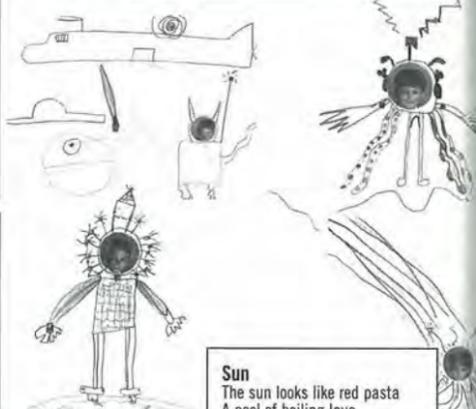

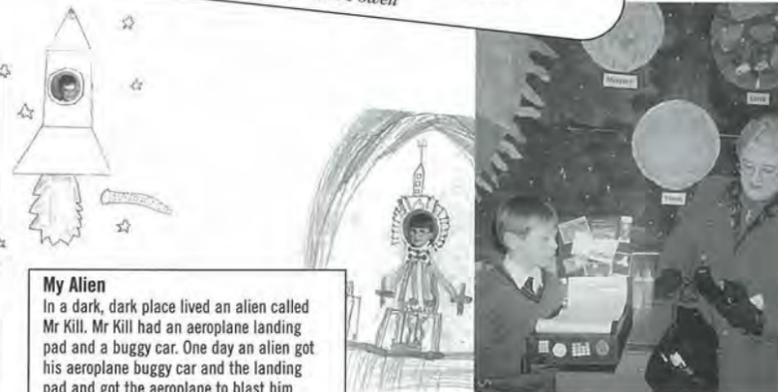

The sun looks like red pasta  
A pool of boiling lava  
A circle of fire  
A round sandpit in the blue  
A blob of yellow paint  
A hoop of fire  
The sun is important because it gives us days

Jaryd Tacey

### Black Hole

One day a famous boy went to space to discover what was on the other side of a black hole. Ian was his name. The black hole got longer and redder and time grew slower and slower. Ian was frightened but he was determined to find out what was on the other side. He got a big surprise when he found he was in his own bed.

Ian Underwood

Year 2B

Back Row L-R Bodane Hatten, Yianni Papoutsakis, Ben Baynes, Cameron Willis, Andrew Bourke, James Powell, Jaryd Tacey, Ben Schneider, Miss Jenny Breuster

Front Row L-R Angus Ware, Daniel Jones, Darren Freese, Luke Tucker, Ian Underwood, Dougal Middleton, Max Hutchins, Edward Pascoe

**My Alien**  
My alien is called Greg and his pet is a firefly called Monty. His body is blue and his legs are white with orange nail polish on. He can see six different things at the same time. He has an air bike with a lunch box on the back. He lives on Mars in a flying saucer called Macaroni. He is the only alien on Mars so he just plays with his pets as friends but he is very happy. His favourite thing to do is go Mars surfing. He has been to Pluto but he came back because it was too cold.

Angus Ware

**My Alien**  
My alien's name is Mr Alien Head. He has two brothers and one sister. He lives on Mars. He has a big family. He has four eyes. He is green all over with a little mouth. He has no bones just a walking stick. He has small little legs. He likes to go investigating and picking up rocks. Sometimes he gets lonely.

Andrew Bourke

## Back From The Dead

One night I heard a noise, I got out of bed. I went to the house next door. I knocked on the door. The butler opened the door. The butler said "Come in". He had a grin on his face. He took me to the table. He said "What do you drink?" I said "red cordial." He went to make it. He came back and I saw a bit of blood on his suit. I saw a bit of really, really red blood. He went away. I went around the house. It was spooky. Suddenly a big fat ugly monster ran after me. He chased me up the stairs, down the stairs, through the kitchen and out of the kitchen, in the back door. He left me alone. I went to the door. It was locked. Silly me, I've got the key. I went and got the key from the mat. I went and wrote the things.

Max Howe

## We Find An S.O.S.

William and I were working at Telstra when an S.O.S. came and the man said there was a tidal wave and it was near an island. So we sent out two runabouts with one cargo ship with a slip on it, so we could pull it up the slip because the engine would not work. When we got back he gave me and William a reward and it was a trophy to share.

Ross Giblin

Ben Lodder

Lewis Stadler

(L-R) James Buchanan, Cale Hodson, Ross Giblin, Lewis Stadler

Samuel Stanton

Robert Cameron

## Lost on Mars

Jordan and I went to space and when we got there we floated to Mars because the space ship blew up. Sparks went everywhere over Mars and we had no food, all we had was a packet of potato chips and we ate them. Then I found a box full of food that lasted us a couple of nights. Then Jordan found a phone pole and I rang Super Barn and the food took a year to come. I found sixteen oxygen tanks for Jordan and I. Jordan found an alien's house, there was a tonne of food.

Samuel Hunn

William Heath

## Intelligent Monkeys Invading The Island

One day I was walking along the beach with Hugh. I saw a bottle, it had a note in it. I said "Hugh" he came running over. I took it out. I read it. It said, hey can you rescue me, I am Duncan. I am stranded on a desert island with intelligent monkeys doing the macarena around a palm tree. I am stuck on the top of it. They have machine guns. There are sharks in the water doing the macarena too. There is a boat nearby. It can't see me so you better come in a helicopter. I am in the U.S.A. My hovercraft crashed three days ago in some rocks. The monkeys put machine guns on it, please come. "Hugh we better go", "Okay Peter will it take a night?" "Probably". "Hey we are here at an island". "Where is he?" "I'm up here, stick em up". Bang, bang, bang, they missed us. I knew one. He escaped from Sydney Zoo last year. He is called Sam. Duncan threw two coconuts at Sam. He fainted. We threw him into the water. The rest of the monkeys ran away. So did the sharks. Duncan climbed down from the tree. "If you get stuck give me a call", "Okay Duncan" I said.

## Medieval

I went to a scary castle. The drawbridge came down and the grey portcullis opened. I went in. It was dark. I saw a knight. It was cold. I fell down a trapdoor. Then I saw a skeleton having a bath. The skeleton had wide gaps between his bones. His bones were very white. Then a brown monster nearly got me. I saw the door. The drawbridge came down and the portcullis went up and I went out.

## The Head of Junior School

It has been an exciting and productive 1999. Each year seems to be busier with more and more things in which to get involved. The boys have had many, many opportunities to be stimulated, challenged and stretched. Most have grasped the opportunities enthusiastically and their journey through this year has been full with many highways and byways explored.

Our theme for this year has been 'The Journey.' Not only have we travelled the highways of the core curriculum but explored many of the side-roads where creativity, music, drama, arts, character developments, sports, values, and much more have been visited. A journey very much worth taking.

Academic excellence, where each boy is challenged to do his best, is foremost amongst the goals of the Junior School. Learning experiences and support have been provided to help each boy reach his potential. Clear pathways in each Curriculum area have helped guide the development of the boys, while classroom teachers have provided exciting programs which engage them in meaningful and relevant learning. Along with personal class achievements there have been some outstanding results in various State and National arenas:

- In the Mathematics Association of Tasmania Maths Relay Competition our team of Dennis Ng, Robert Sim, Tim Jones and Thomas Ryan won the southern section and came second statewide.
- Our Year 6 team of Thomas Ryan, Robert Oxley, Tom Leworthy and Tim Jones won the National final of the Muscular Dystrophy Trivia Challenge in Canberra in December.
- In the Australian Schools English Competition (203 entrants) the boys achieved 3 High Distinctions, 24 Distinctions and 56 Credits.

- In the Australian Schools Maths Competition (206 entrants) the boys achieved 4 High Distinctions, 37 Distinctions and 47 Credits.
- In the Australian Schools Science Competition (55 entrants) the boys achieved 3 High Distinctions, 13 Distinctions and 18 Credits.

Classroom teaching was enhanced by a varied and extensive list of excursions and outdoor education experiences with major activities being the year group camps, the Year 6 Canberra/Melbourne tour and the Year 5 exchange with Launceston Grammar.

The boys experiences have been extended by a wide range of extra-curricular activities. What a wealth of opportunities they have had. Stimulating, fun and challenging activities and lots of new experiences have been theirs for the taking:

3/4 Vocal Group; 3-6 Art Group; 5/6 Vocal Group; Book Club; Chess Club; Dazzling, Dynamic, Diverse Drama Group; Double Helix Science Club; Maths Club; Pet Ownership Club; Photographers & Film Makers Club; Public Speaking and Debating Club.

The involvement of the boys in our performing arts program continues to be a strength of the Junior School. Participation in choirs, vocal groups, string groups and bands is very high and the boys had many opportunities to perform in assemblies, Open Day, Anniversary Week, Eisteddfods (with many exceptional performances), Grandparents Day, Speech Night and for community groups.

The Year 5 and 6 Drama group were busy all year with a highlight being 'This is Your Life' at Mr Kelly's farewell.

Many opportunities were provided for the boys to experience leadership and develop appropriate skills. Class captains, monitors, house captains & sports captains provided some of the opportunities. The following twelve boys were elected as Junior School Leaders: Andrew Carolan; Ramanan Daniel; Craig Irons; Tim Jones; Tom Leworthy; Cameron McCulloch; Dennis Ng; Joshua Parker; Erik Pohl; Julian Sayers; Robert Sim; and Rory Ware. Each was a member of one of the committees: Community Service, School Environment or Activities and

were able, through the committees and other opportunities, to make significant contributions to the Junior School.

Each day boys were asked to reflect upon themselves as a person, their relationship to others and their role in contributing to a caring and sensitive school environment.

The teaching of values has become an integral part of schooling in the Junior School. Regularly boys were given the opportunity to reflect upon many aspects of their relationship with others, their own character and those traits which are both desirable and necessary to become successful community members and which will impact greatly and positively on his journey ahead.

Along with the boys the staff continue to learn and upgrade their skills. Professional development of teachers is vital in ensuring that we provide the very best for the boys in what we teach and how we teach it. The advances in technology and the ever increasing research into teaching and learning place greater demands on teachers' time to keep abreast of all that is happening. We are fortunate indeed to have such a professional and committed staff. I thank them for their dedication, support and hard work throughout the year.

What an exciting and productive journey 1999 has been. While musing over the photographic mural in the top corridor it is often overhead. "Have we done all that?"

Mr D Woolley  
Head of Junior School

Mr D Woolley, Head of Junior School

# Junior School Sport

Once again the Junior School Sport Programme has offered all of our boys from Year 2 to Year 6 an opportunity to represent the School in a wide variety of sports during 1999. The House Sport Programme has allowed boys to participate in the four major carnivals throughout the year with many boys selected from these carnivals in Interschool Teams.

The House Swimming Carnival was held in early March. After two years of taking the Barclay Cup, Buckland had to settle for second place behind Stephens. Once again the battle for third and fourth place was very close with Thorold narrowly out-swimming School. A strong team was selected to swim for Hutchins at the Interschool Carnival at Clarence. Benn Butterworth was able to break the 50 metre Backstroke record and William Keyes broke a record in the 50 metre Freestyle beginning a highly successful record breaking year for him. Five out of six relay teams were successful in placing first.

The Winter Sport Programme began after Easter with Soccer once again our most popular sport. Many boys chose to play Australian Rules this year and gave Mr Barrenger many options when selecting the team each week. The Football team played in the Catholic Schools roster on Thursday afternoons whilst Soccer, Hockey and Minkey were played on Saturday mornings. Great commitment was displayed by boys during the season and once again we were most fortunate to have the assistance of many parents in managing and umpiring teams.

In August we held the House Cross Country Carnival at Dru Point for boys from Kinder to Year 6. All boys participated and we were most fortunate to have a beautifully sunny day. School House began its winning streak over Buckland followed by Stephens and Thorold. A number of weeks prior to the House Cross Country twenty boys from Years 4, 5 and 6 attended the All Schools Cross Country Championships at Symmons Plains. It was a most enjoyable day with the Under 11 boys awarded the Teams Medallion.

The House Athletics Carnival took place very early in Term Three. This placed a great deal of pressure on the boys and staff to ensure all was in preparation for this most important event. The Carnival ran very well with the most entertaining events being the Balloon Toss and the Tug-O-War. We replaced the Ball Throw event this year with a new event, the Vortex Throw. This device, similar to a small gridiron ball with a tail, whistled through the air and covered enormous distances smashing the previous ball throw records. At the end of the

Carnival School were clear leaders followed by Buckland, Stephens and Thorold. Boys who performed exceptionally well at the House Carnival were selected to represent Hutchins at the Interschool Carnival at the Domain. This year we took along a very large team of forty two and all competed very well. Once again our Relay Teams were very strong, winning all but one event.

Along with the programmed sports offered in the Junior School there are many elective sports which boys may choose to be involved in. This year we have had boys representing Hutchins in Table Tennis, Indoor Cricket, Twilight Cricket, Flippa Ball, Rockclimbing, Summer Hockey and Basketball. These teams have shown an extra commitment to sport and to representing the School.

1999 has certainly been a year packed full of sporting involvements and sporting success in the Junior School. With the Olympics in Sydney next year there will be no doubt that the enthusiasm that our boys display for sport will be extended far into the future.

Mr A Wirtz  
Junior School Sports Co-ordinator

Football Fun

Jesse O'Hara, Year 6

Sam Hunn, Year 2

# Outside School Hours Program

The Outside School Hours Program encompasses both the After School Care Program as well as the School Holiday Programs. The OSHC Program is run from the Early Learning Centre and the opening hours are 2.30 p.m. to 6.15 p.m. during term and 8 am to 6.15 p.m. during the school holidays.

This year has seen many changes to The OSHC Program such as:

- a new location in the Early Learning Centre
- the setting up of a parental advisory committee
- the introduction of Year 8 boys as helpers in the After School Care Program

Ms H-M Hart  
Coordinator

Ben Newby, Robert Cameron, William Heath, Nicholas Cannell and Adan Byrne are trainee miners at The Mineral Centre.

# THE BEST THING ABOUT 1999

1999

By Henry Young

Skeleton artwork by William Thompson

**Skeleton**  
Squeaking, squawking bones rattling in the night. Cracking, smacking and falling everywhere. Clinking and clashing with bones in the night. Spooky things touch you. Hearing bones rattling as you walk down the street. Bendy bones with cracks in them. Clacking, clinking and different types of skeletons. Cracking and smashing. Scary things that you just would not believe!

Andrew Douglas

The best thing about 1999 was art with Miss Clemons. We made heaps of things with Miss Clemons. She is a great teacher and made me a Maths Magician!

Lauchlan Heather

The best thing about 1999 for me was going to camp. I slept with Sam, Josh and Sebastian. We went to Port Arthur, Devil's Kitchen, Remarkable Cave and the Tasman Arch.

Alex Tucker

Jordan Rattle and Andrew Douglas love a good story

The best thing about 1999 was camp. At camp I slept in the same room with my best friends.

Joshua Smark

The best thing about 1999 was coming to Hutchins. I really enjoyed it without all the girls.

Edward Manfield

The best thing about 1999 was camp. I liked the rooms.

Hugo Hardy

Henry Young and Lauchlan Glass dressed up for our olden day classroom

Sebastian Bender with real bones

The best thing about 1999 was going on camp. I enjoyed camp for lots of reasons. One was sharing a room with only Wills and myself, no teachers!

Lauchlan Glass

Henry Young

Dr Broadby, Alex Tucker, James and skull!

Camp was the best in 1999. I really liked it when we played cricket. I've had to take in every moment because I leave at the end of the year to go to Sydney in NSW.

Samuel Wignall

The best thing about 1999 was camp at Port Arthur. The best food we had all those nights and mornings was the steak and bacon pies. Also, in the room I slept in was with Andrew, Tom, Lauchlan, Jaime and Eddie.

Jordan Rattle

Geoffrey Wicks

The best thing about 1999 was when we went to Port Arthur. I liked the big goal at Port Arthur and my teacher this year.

Andrew Douglas

By Sebastian Bender

The best thing about 1999 was camp.

Daniel Ling

The best thing about 1999 was getting to know two classes and making new friends.

Henry Young

Edward Manfield and James Creak proudly show off their artwork

We had a fantastic time at camp

Peter the convict showed us around Port Arthur

**Middle Row:** William Tremayne, Gabe Monacchetti, Joshua Smark, Cyton Tong, Alex Tucker, Christopher Walch, Samuel Wignall, Lauchlan Glass, Miss Rebecca Clemons  
**Front Row:** Andrew Douglas, Eddie Manfield, Jaime Bastias-Perez, Daniel Hocking, Jordan Rattle, Daniel Bower, Daniel Ling, Thomas Driver, Samuel Chan

The best thing about 1999 was that I had a lovely teacher. We had fun and did great work. All of the boys had a friend. I had lots and lots. It was a great year.

Timmy Green

The best thing about 1999 was Soccer which is my hobby. Maths was my favourite subject.

James Creak

The best thing about 1999 was camp, even though I got bitten by an ant. We also got a new car and I talked about that every day. I have had a really nice time at Hutchins in 3C.

William Tremayne

The best thing about 1999 were my friends. On camp I was in a bunk room with Tom and we told each other jokes.

Jaime Bastias-Perez

The best thing about 1999 was camp. I liked it when we went to Port Arthur. I loved playing spotlight.

Thomas Driver

Sebastian Bender, Daniel Bower and Daniel Hocking love Hands on Science

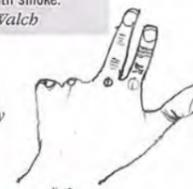

Jordan Rattle, Andrew Douglas, Hugo Hardy and William Tremayne show off their hairstyles on Wacky Hair Day

The best thing about 1999 was camp and the boys in our class. At camp I slept with Lachlan. The teachers were very nice. We went to Port Arthur. All the boys in our class were so good.

## Stories Retold:

### The Lion and The Mouse

(Retelling the story from the Mouse's point of view)  
One day I was running through the deep dark jungle, when I tripped over a nose. It was a lion's nose! He roared and grabbed me. I felt the strong claws digging deep into my tail. "Please spare me. I may be able to help you one day." So the lion did. The next day, I heard a roar. The lion needed help. I scampered over roots, jumped puddles and reached him. I nibbled and nibbled at the net that held him to the ground. I tried harder and harder - I broke through! He was free and we were friends. "One good turn deserves another."

David Symmons

### The Hare and The Tortoise

Once a hare and a tortoise were arguing about who was faster. They decided to have a race. It was over a certain distance. Everyone who watched was very excited. Soon after the start the hare was so far ahead he was out of sight. The poor tortoise was only a few meters from the starting line. The hare decided to play it easy and sat down to have a nap in the sun. Many hours passed. He overslept. Just as he rubbed his eyes he saw the tortoise approaching the finishing line. The hare ran for his life but, you guessed it, the tortoise had already won.

The moral of this story is "Slow but steady wins the race."

Graeme Wertbeimer

### The Lion and The Mouse

(Retelling the story from the Lion's point of view)  
One day, when I was sleeping in the grass, a little mouse crept over my nose. I got up and grabbed it by the tail. The mouse begged me not to eat him, so I let him go. We made a deal. If I helped him he'd have to do the same for me one day. A few days later I was trapped by a hunter's net. I roared and roared. The little mouse came running to my rescue. He nibbled away at the net and made some holes. I was free. The moral of this story is "One good turn deserves another."

Aayush Gupta

### The Lion and The Mouse

One day a mouse was walking along the jungle path. He wasn't watching where he was going. Suddenly he walked over a lion. The lion woke up and grabbed the mouse. He was intending to eat him for lunch! The mouse begged the mighty beast to let him go. So the lion did. The mouse said, "I will repay you someday." Many months later the lion was caught in a hunter's net. The mighty beast roared a mighty roar. The whole forest trembled. The mouse came running and said, "What is the matter?" The lion replied, "I am caught in this net. I will need your help." The mouse went to work, nibbling away at the net and set the mighty beast free. They became the best of friends.

The moral of this story is "One good turn deserves another."

Alastair Glass

### The Lion and The Mouse

(Retelling the story from the mouse's point of view)  
One dark night I was walking through the jungle. I walked over a hill and it moved! I wondered what it was. Suddenly a huge paw grabbed me. It was a lion. "Ahhhhh!" He was about to eat me. I begged him to let me go and I said, "I'll pay you back for your kindness." Many days later the lion got caught in a hunter's net. He roared and roared. I heard him and I ran to help. I saw the lion in agony. I climbed the tree and started to nibble through the net. Just as the hunter came up, the lion escaped and we ran away together.

The moral of this story is "One good turn deserves another."

Bubbles bounce, wave and jiggle.  
Bubble painting crystals.  
Matthew Graney

## A Journal Entry:

Dear Journal,  
I'd like to tell you about my crystals. When I first started to grow my crystals, I thought that they would never form. They looked like some 'Coca-Cola.' The next day there were still no crystals. When I came home from school, I noticed a little white thing on the jar.  
On Wednesday there were lots of crystals on the stick and many more on the jar. When Thursday came, there were crystals everywhere. On Friday, hundreds of crystals had formed but the water was still there.  
On Saturday they were nearly ready to eat. When Sunday came I decided to eat them on Monday. But I forgot all about them in the morning, so I am going to eat them after school.  
Jack Knight

# What a GREAT year

## The Importance of Catchment Areas

A catchment is an area of land surrounded by hills and mountains where water runs to the lowest point.

### How we can help

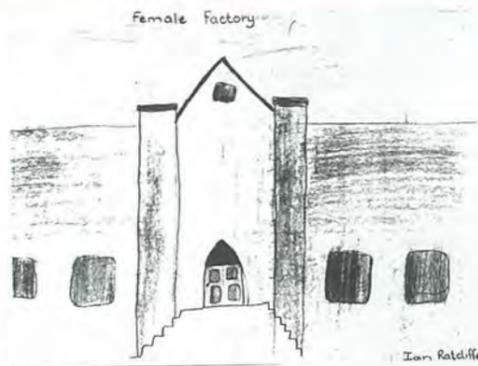

We can help by making the toilet things go to the sewage.  
We can help by making wind breaks so that the dirt doesn't go in the water.  
Farmers should use natural fertiliser.  
People should use less detergent and things like that.  
You should get your car serviced because oil could leak into the river or sea.  
When you go on a picnic you should put your rubbish in the bin.  
The industry should put their fish guts in the sewage or use a natural fertiliser.  
Fishermen should not put nets or rusty hooks in the water.

Harjeevan Narulla

## The Women's Factory

In 1803 Hobart was settled. We went to the women's prison and learned about how they were treated. They slept on straw. For breakfast they were given a very little bit of bread and for dinner they got bread again and some soup. The soup was made out of ox and sheep heads and vegetable or barley. The worst convicts had to get the tar out of the rope so they made them do it till their hands were bleeding. Next to the first yard was a chapel. In 1828 they opened the factory. They had flood and the sandstone walls all got moss on them. The first class women did cooking and sewing. The second class women had a C on their shoulders they did hand washing and cooking. The crime class people had to get the tar out of the rope and do a lot harder work.

## 4K Camp

On Friday we had breakfast. Then we packed up our bags and swept up the cabins. After that we went to the beach while Mr Warren and Mr Stewart set up the ropes course. The waves were very big and I nearly got splashed by a very big one. Damo did get splashed by a very big one. When we got back to the camp Mr Warren showed us how to do the ropes course. We had to wear a helmet, a harness and a carabeana. We did it in groups of five. Only two people got through and I was one of them. It was very, very, hard and I got a chocolate bar. After that we went home.

Gavin Groombridge

## 4K Camp

Today we went to the Gemstone workshop. The people in the work shop showed us how they polished all of the gemstones. Their names were Nigel and Christine. First they went through this special machine that cut them. When that is done they put them in a polishing machine. At the end we all got to buy some, I spent 5 dollars. Then we went back to camp and had morning tea. Then we went for a swim but I had to do coast care work. When we went for a swim it was time to get out. Then we went for a walk down to Cockle Creek. We have just got back. We talked about the French meeting the Aborigines.

Damien Sikkema

## A First Look

On Wednesday 4K went to the Tasmanian Museum and Art Gallery for a "First Look." We went on Mr Bishop's bus. When we got there our tour guide, Sue, took us up some nice carpet stairs and sat down. She pointed at a painting of a child helping make tea with her mother with her laser light. She couldn't use a torch because it might fade the paintings. Next we went up another flight of stairs and she gave us magic telescopes which were decorated toilet rolls. They help you focus on paintings by stopping other lights from distracting you. We looked at a picture of a couple on a tropical island with the painting of his dog. We then went to another room. She chose me to go up. She put a beret on my head and gave me a finished painting of a seascape. I got some brushes and a palette. I pretended to paint the picture. We did some inter-active activities like still life ordering, looking at portraits. It was fun. We saw another picture with the same dog! Then we learnt that when people breathe or touch paintings they slowly go brown. People come and fix them some times. I learnt that people sometimes paint on bitumen but it bubbles, so people use canvas. Mr Hickey and Mrs Headlam came with us. We went to look at the pictures more closely. It was interesting.

Sam Thompson

## Countries I Would Love to Visit

1. In New Zealand I would like to see water rafting because it looks so thrilling and exciting. It would really inspire me. I would like to stay in the caravan because you could stay at one place then move on to another spot. It would be very cheap so that I could spend more on sight seeing. I would like to go skiing on the high mountains to really get me excited. I would like to see the lovely boats at the wonderful jetties.
2. In Singapore I would like to stay in a luxurious 5 star hotel. I would like to see the dragon parades because I would like to know how they did it.
3. Canada. I would like to see the Banff Springs and play on the golf course there. It would be beautiful.
4. Brazil. I would like to see the wild life and the Amazon River.
5. I would like to go to the Eiffel Tower. Also I would go to the vineyards.
6. Russia. In Russia I would visit the clockwork tower and visit the busy city of Moscow.
7. Netherlands. I would like to visit the windmills and I would visit Amsterdam.
8. Britain. I would like to see the Industries.

Luke Ranson

## International Lunch

Yesterday our class had a International Lunch. Because we had done research on countries we brought some food from the country that we researched on. I ate a lot of sushi, fried rice, Turkish delight and I drank a bit of Perrier water that came from France. I brought Turkish delight and also some fried rice. My favourite food was fried rice and sushi but all the rest was quite nice. It was a great idea.

Hamish S: "I did not lick the storm"

## Chapel

We go to Chapel to pray to God and to worship Him for all the things that He made in the world.

To sing Holy songs and show Father John our appreciation for what he does for us.

We go to Chapel to worship Jesus' death, to sit down quietly and listen to what Father John has to say to us.

We go to Chapel to learn about God and how Jesus rose from the dead and pushed the tombstone out of the cave and did not have any blood or any holes on his hands or feet.

To listen to the prayers and readings to learn more about Jesus and God and the three disciples John and Matthew.

To sometimes hear solos by people.

To hear when people's birthdays are and to pray about people who are sick and are in hospital or the Kosovo people who have come from Kosovo because of the bombing.

To pray for the people who are dead and are sad or who are lonely, hungry for food and a drink.

To listen to Mrs Short's music.  
Hamish Sherrey

## WINTER

Frosty, winter morning  
Moonlit sky.  
Day breaks.  
Trees whisper in friendship  
As you trudge through  
Heavy sleet and snow.  
Gumboots squelching  
Beanie covers ears.  
Thinking about  
Looking for my beach towel  
Sun, sea.  
Nathan Cosgrove

## ROBOT SPECIFICATIONS

My robot is quite different to most robots. It runs on tracks and is used as a transport for the disabled. It is a chair with a radar on it and buttons to go places. I think that if Hutchins did this idea they would get a lot more students at the school and Hutchins would be very popular.  
Tim Stoklosa

William S: Showing the class an American coin, "And on the tails side it said In Gold We Trust". And later in the talk, "And this coin comes from Dutchland" (Deutschland)

Crazy Hair Day (left to right) Jamie Morrow, James Peters, Jack Tronson, James Hunn and James Kirkland

Jack Howe

Nicholas Howard

Jamie M: "A triangular square"

## JO'BURG STORM

In  
Late hot summer days  
Come  
Thundering, flashing  
storms  
That  
Darken the afternoon sky.  
Bolts of lightning  
Strike paths through trees,  
homes.  
Unfortunately  
I was home.  
Tree house empty.  
A  
Flash of lightning  
Struck  
The tree house door  
And Killed the tree.  
Michael Sorrell-Saunders

Edward S: "At cubs I learnt to tie a ripe.."

## Poems and Extracts:

Fudge is delicious  
Utterly yummy  
Dying from temptation  
Great for my taste buds  
Everyone likes it  
James Kirkland

Pitter Patter  
Pitter patter  
Pitter patter  
Rain is falling  
Explosions of rain drops  
Are going off  
Help! Help!  
Duck for cover.  
Chris Lamond

Running, jumping in puddles.  
Aquaplaning down windows.  
I like rain.  
Nice, refreshing rain  
Christian Morford-Waite

## STORMS

Lightning flashes.  
Sky lights up.  
Watching the storm on the lounge room couch.  
What a sound!  
Very loud.  
Eardrums hurt.  
Thunder screams its deafening sound.  
Angry storm lashing out.  
Bright, white light.  
Walking outside  
Storm hits me with endless rain.  
Such a sight but not for long.  
Storm dies down.  
Cool!  
Playtime.  
What a day!  
RAIN  
Jack Tronson  
Crash!  
Ouch!  
Hail hit me.  
Lightning sparkles flashing everywhere.  
Bang!  
Thunder crashing.  
Puddle jumping in gumboots.  
Home time.  
Lying in bed listening to rain shooting the roof.  
Watching raindrops race down the window.  
Heavy rain lullabies me to sleep.  
Morning - wake up.  
Pick fresh fruit.  
Nicholas Young

# Year Four M

THE HUTCHINS SCHOOL  
SANDY BAY  
1999  
YEAR 4 M

## Year 4M

Back Row: Nicholas Howard, Chris Lamond, Nicholas Young, Jackson Swain  
Middle Row: William Hower, Edward Salter, Jack Howe, Jamie Morrow, Nathan Cosgrove, Robert Holmes, Hamish Sherrey, Mr L Morrisby  
Front Row: Michael Sorrell-Saunders, James Kirkland, James Peters, Jake Winzenberg, James Hunn, William Sexton, Jack Tronson, Tim Stoklosa, Christian Morford-Waite

Cascade Brewery by Tim Stoklosa

Tim S: "My dad is shafing the hars off his face"

Hamish S: "I comb my heir"

Christian M-W "My favourite type (apple) is golden delisours"

James K: "Generally I have a shower in the mourning"

## Class Captains and Vice-captains:

- Term 1: Jack Tronson, James Hunn
- Term 2: Michael Sorrell-Saunders, James Kirkland
- Term 3: Tim Stoklosa, Jackson Swain

Christian Morford-Waite, Jake Winzenberg, Michael Sorrell-Saunders and William Hower

Jackson S: "Toilet!"

James H: "The third book in a sequel is called a threequel"

James H: "Udder genius is the word for fudge"

Jack T: "You can make a cake out of flower" "I walked over the Sindny harper bridge"

Jamie M: "I was sick alover the bed, TV and toilet seat..."

Tim S: "Ireland is in Scotland"

Michael S-S: "At the beach I went boggy booding and I got pold under and flipt"

Jack H: "About eight eggs develop in the female groin"

Teacher: "What is another name for an oblong?"

Christian M-W: "For PE we do sport with Mr Works" (Wirtz)

Hard workers - resting

The way rivers all sparkle in the sunlight  
Great mountains with their peaks over the clouds  
Amazing waterfalls, falling smoothly over the cliffs  
The beauty of a rainforest towering over our heads  
Deserts, dead, lifeless, but still of amazing beauty  
Blue oceans, swarming with colourful fish  
*Thomas Saunders*

On the suspension bridge

Our world is our home  
Under the sea they swim  
Rivers, crystal and clear  
Water flows with the rapids downstream  
Over the hills there are snow capped mountains  
Rain, pitter patter, pitter patter  
Long cold nights  
Dry hot plains  
*Oliver Young*

As the tall tree tops dance in the wind  
As the splendid nightingales start to sing  
The hushed grey mountains stand above  
In the narrow creek the fish fall in love  
The towering cliffs with sharp rocks around  
And the funny small rocks lay on the ground  
*Ben Lawless*

Rivers sparkling, glittering  
The water as green as the clearest glass  
Sliding over rock  
Desert sand goes on and on and on ....  
Dry, no-one around  
Forest, big trees touch the ground  
They stand guard around you  
From the tiniest creature to the largest whale  
Birds singing the finest tunes  
Mountains touch the sky.  
*Oliver Illingworth*

Volcanoes erupting with a bloom  
Mountain tops covered with snow  
Streams carrying debris  
Waterfalls suddenly dropping, down, down, down.  
Forest floors covered in leaves  
Tornadoes causing millions of dollars of damage.  
*Alistair Green*

Large mountains towering, reaching for the sky  
Great oceans stretching as far as the eye can see  
Tiny seas with small colourful fish  
Flowing rivers bubbling gently, the sun beams down  
Tall trees of yellow and green to small blooming flowers  
From the tiniest insect to the largest whale living together  
Flat deserts, small creatures and scattered plants.  
To Antarctica with its great penguins  
Huge clouds - thunder rain and lightning to clouds fluffy white  
Night and day ever changing  
*Ted Stoklosa*

Problem solving

White peaks above the clouds  
Swaying grass on the ground  
Birds flying in the air  
Butterflies everywhere  
Calm rivers going down  
Quiet things walking around  
*Ben Sbadforth*

Hot deadly desert killing with heat and sand storms  
Hills and green grass little rivers going passed like time  
Volcano hot and fierce ripping through the mountain  
Salty air, waves lapping at the bleeding beach  
Rapid storm growing with wind and rain  
Wind ripping at the land, tearing through the trees.  
*Lachlan McDonald*

Mountains and rivers they mix with the wind  
The steep narrow mountain  
The river so blue  
The trees and the beauty of  
The animals and the fish and the birds.  
*Zac O'Hara*

Mountains towering above the fluffy clouds  
Rivers raging through the beautiful bush  
Volcanoes angrily erupting as lava  
Lurks through the town  
Waves crashing on the golden sand  
Magnificent trees stand tall in the great forests  
Vast deserts stretching out with burning sand.  
*Michael Asby*

Towering mountains, so high they touch the sky  
The sea splashes down below so cold  
Animals think it is time to hibernate  
While we rug up  
In deserts the wind starts to blow  
Here comes a sand storm  
Trees start to rustle, the wind still blowing.  
*Samuel Burnett*

Visiting warriors

## Haiku Poetry

### Roller Hockey

Fast exciting game  
Shooting missing shots at goal  
Half time face-off missed  
*Mark Fenton*

### Soccer

Diving goalie saved  
Out the ball goes, far, far out  
Head high pass, shoot, scores  
*Trent Townsend*

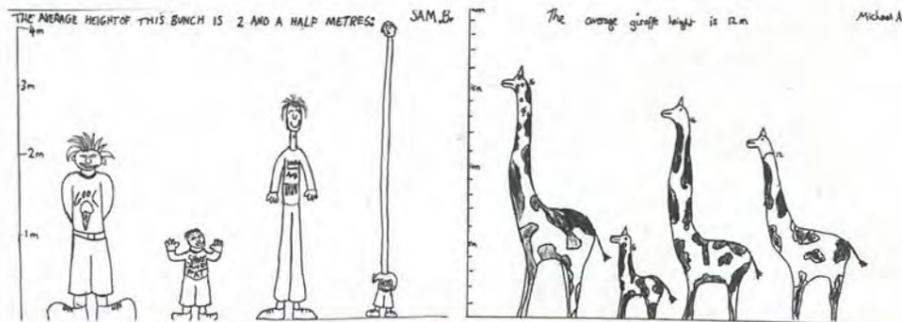

### Sailing

Wind fills the big sails  
Nice sunny day for a sail  
Cruising the river  
*Alastair Sayers*

### Sparkling Water

Waves bust on the rocks  
Fish scatter all around me  
Tickling my feet  
*Oliver Illingworth*

## Fought

Pursue your dreams with courage; prepare your heart with determination.

I have a lot of friends. I'm good at Maths and comprehension. I'm wonderful at sport. I'm an excellent reader. I'm a magnificent runner. I'm super at computer games. I'm a really good cubby house builder. I'm good at making things.

Harry More

I'm a good person. I like sport. I am very cheerful. I work hard. I can relax in front of the television. If you give me a job I will complete it. I like being fit. I'm a good friend and a good listener.

David Gardner

I enjoy school. There is plenty to do. It's very relaxing.

Justin Guiler

I like my school because it gives me the opportunity to do many things. I believe I can achieve anything I attempt.

Grant Ashbarry

This year has been the best year I have ever had. The trip to Launceston was great fun. All the excursions we have been on have been interesting.

Sam Blackaby

Reading the news at Win Television

I laugh all the time but I can't control it. Maybe that's why I have so many friends that laugh all the time. I am a good listener. I am very responsible.

Ken Pang

The best things about me are I'm friendly and cheerful. I keep secrets. I like designing things. I dance very well.

Alastair Jevtic

I am good at being me. I am exciting. I am good at eating McDonalds. I am friendly. I am smart at Maths. I am good at fishing. I have a great sense of humour.

Ross Schreuder

I'm so cool because ... I'm incredibly gorgeous. My vocabulary is huge. I am extremely funny. My dress sense is uncanny. I can dance better than most popstars. I am a cat owner which makes you a better person. I am stronger than all the superheroes Marvel comics can come up with. Did I say I was gorgeous ... and modest!

Matthew Morris

I have a charming smile. I guess if I weren't me I'd be my friend because me and my mates, we get on just fine.

Lachlan Hall

I enjoy being at Hutchins because of the fun people and the things we get to do. The people are friendly and funny. We achieve in sports and competitions. We achieve in getting along in class. I feel special because of the things we do.

Thomas Clark

I have a problem with laughing which I can't help. I am a good listener and a good friend.

Sam Crosswell

My hero is my old dog, Nelson. We had to give him away because he wouldn't stop barking and biting the postman. We gave him to a man that lives in the country. I miss him.

Edward Finnis

The best thing about me is I am kind. I am a good friend. I am good at school.

Nicholas Healey

Christopher Hocking, Christopher Ridgers, Justin Guiler.

The school year has been fun and exciting. The best part was going to Launceston. The worst thing was the first day of school. I was so nervous when I walked into class.

John Taylor

We do a lot of different subjects and we do work that is not always at our desks. You are encouraged to work hard. At the start of the year the classroom was bare but it soon got more colourful and you know you've taken part in it.

Zach Johnston

David Beckham is my hero. He is rich and famous. He is very good at soccer and he has girls coming from all directions.

David Buxton

My hero is my dog because he makes me happy when I'm sad. He's cute and I like him a lot. He also barks at burglars.

Christopher Hocking

Pierce Brosnan is my hero because he's in James Bond movies. He is really cool with all of those moves and gadgets he uses.

Matthew Wilson

My hero is my mum. She is a jack of all trades. Every night she cooks my dinner. I wouldn't be able to live without her.

Christopher Neugebauer

My hero is my dad because he tells me everything that happened to him before I was born. He has done a lot of sport and teaches me how to do them. He is always there to help me.

Zach Johnston

This may sound strange, but my hero is music. Yes, I have decided my hero is music. I mean, without music the world would be dull. For example, in a movie when it is a sad scene there is sad music. In Mission Impossible the music makes it exciting. Also, singers and musicians and even people who work in CD shops, what would they do? I listen to music whenever I have free time and it normally cheers me up.

Oliver Mestitz

Shoes are my heroes because when I go out I can put on my shoes and I can walk for a very long time. They are mostly comfortable, although sometimes they can get a bit tight. I love my shoes. They're my heroes.

Jacob Cook

When I am older ...I would like to take over my dad's job or work for him

Thomas Clark

I'm going to be a doctor and live in a mansion.

Nicholas Andrewartha

I want to be the first person on Mars.

Christopher Ridgers

My future is to be a full time rock star.

Sam Blackaby

I want to be an artist so I can design new cartoon characters and make comics. I really want to be a commercial artist.

Callan Rogers

I hope to be an air traffic controller and work hard.

Saleb Sultan

My future is to be a judge and have lots of friends.

Nicholas Healey

I'd like to be either an extreme sportsman, bounty hunter, industrial designer or a zoo keeper. I don't want a boring desk job.

Lachlan Hall

My dream is to be a professional soccer star.

David Buxton

I'm going to be the President of Australia. I'm going to have fun.

Harry More

I want to be a doctor or else have my own airline.

Nicholas Stebbins

I want to be an architect. I want to design and make things.

Christopher Hocking

My dream for the future is to help the economy of the world so no one would be poor.

Ross Schreuder

# Year Five M

Year 5M

Back row: Zach Johnston, Grant Ashbarry, Nicholas Healey, Callan Rogers, Saleb Sultan.  
Third row: Samuel Blackaby, Ross Schreuder, Thomas Clark, David Buxton, Nicholas Stebbins, Edward Finnis, Jacob Cook.  
Second row: Mrs Caroline McCreary, Matthew Morris, Sam Crosswell, Oliver Mestitz, Christopher Neugebauer, David Gardner, Nicholas Andrewartha, Justin Guiler, Alastair Jevtic.  
First row: Jacob Wilson, Christopher Hocking, John Taylor, Harry More, Matthew Wilson, Lachlan Hall, Christopher Ridgers, Ken Pang.

Zach Johnston

Follow your dreams

Think for yourself.

Trust is a must.

LEARN TO WORK.

You don't need to be perfect, you need only be yourself.

## INVENTIONS OF THE FUTURE

...at birth, a sort of microchip that will be planted in the human brain, so that they would know as much as scientists at the age of 10...  
*David Port*

An automatic homework doer to be able to put a homework sheet in and it comes out done.  
*Taylor Mrsich*

... transportation devices which enable you to travel from one part of the world to another in less than one second. These transportation devices would be roomy, have lots of luggage space and would fit up to 10 people at a time...  
*William Keyes*

The Pollution Bug: This insect bug would be introduced to the world to eat its way through human pollution...  
*Aaron Brown*

...a watch with a small pantry and a fan that can sense when you're hot or cold...  
*William Casey*

An auto stacker which stacks the groceries after you have been to the supermarket.  
*Nathan Street*

I was in my little tree house in the jungle and I could see the mist starting to cloud over like smoke from bonfires. The wind was blowing, like a giant coughing, so I went to the door and closed it and put on my jacket. I sat down and thought and looked at my chemistry bench and thought about my cold that I couldn't get rid of. As soon as I had the idea I went to my chemistry set and had a look around to look for the ingredients to start the cure, but I had nothing, so I thought and thought until my mind was like a big bundle of cotton wool.  
*Luke Burgess*

As soon as he was born, they knew he would be trouble. He was Iva Goodgadget, the mad inventor of the 21st century. When he was a little boy he used to sit all day in his chemistry room inventing deadly potions and other inventions. One day accidentally, while in his room, he spilt some acid on his cat and unfortunately it blew up. Have you ever seen an exploding cat? It's very messy...  
*Alexander Bender*

## REFLECTIONS

### POPULARITY AND TEASING

Kids I have found are scared to admit things because popular kids will just bag them about it. If someone picks his nose the popular kid will make a fuss, tease him and pick on him. But if he does it, it's fine. A popular kid can hold a grudge on someone for so long. Most people will hate that kid because the popular kid does and they want to be on his good side.  
*Ian Mitchell*

### MUM

My thoughts about mum are she's healthy, nice, kind, helping and very fair. She helps me with my homework when I get stuck. She is friendly.  
*Thomas Friend*

### DAD

I like dad because he is funny. Sometimes he can get a bit angry but we love each other and that's the main thing.  
*John Britten*

### GROWING UP

GOOD - You get out of school.  
If you are a boarder you get to sit at the masters' table. Money, driving  
BAD - Job, work. You have to pay for yourself.  
*Nicholas Allwright*

### ARGUMENTS

When I am in an argument I try to defend myself but I never get personal but I try to stand up for myself. I hardly ever lose an argument and my mother says I should be a defence lawyer.  
*Saul Webb*

### FRIENDSHIPS

Friends are with you all your life in good or bad. I think friendships are the most important things in your life.  
*Thomas Stanton*

*Nathan Street, Robbie Elrick and Thomas Stanton on the way to Maria Island*

**Year 6C**

Back Row: Saul Webb, Thomas Stanton, Robert Sim, Robert Elrick, Thomas Friend, Nicholas Smith  
Middle Row: Luke Burgess, Ian Mitchell, David Jackson, Ramanan Daniel, James Cazaly, Thomas Ryan, John Britten, Nathan Street, Mr D Woolley  
Front Row: William Keyes, Nicholas Allwright, Aaron Brown, Taylor Mrsich, Alexander Bender, William Casey, Nicholas Bostock, Joseph Werner-Hickey  
Insets: David Port, Mrs R Collis

## Maria Island Stories and Poems

It was a cold and dreary night, the moon was full, but thin strips of ragged cloud scudded fitfully across the surface of the lunar disc, driven by the icy wind. In the large cell blocks the poor, shivering convicts clutched at their thin blankets, seeking a little bit of warmth out of the thin cotton material. The baying of the guard dogs filled the air...  
*Nicholas Bostock*

...I could hear the dogs running after me and the heavy breathing of the guards. As I looked back over my shoulder I noticed all the commotion I had caused back at the penitentiary. There were lights and guards everywhere and they were catching up. I knew that I wasn't going to win unless I thought of something quickly. Then I came to the crossroad...  
*Joseph Werner-Hickey*

The wind comes howling in every night off Mercury Passage and from Hobart Town to the south. It whistles through the tombstones, and would have sent a chill down the spine of the miller in his cottage those long years ago. A lonely place to be buried, the cemetery on Maria Island: come to think of it a lonely place to live. A spectacular panorama on the day, if the wind isn't blowing...  
*Thomas Ryan*

A place of peace and grace,  
with a background of birds in song.  
A place of joy and freedom,  
and a place of many old times.  
So many things around you,  
So many things have changed,  
since its early history.  
*Nicholas Smith*

The freezing cold foam,  
Gushing over the pointy  
rocks,  
Waves, hitting the cliffs,  
Then spraying up into the air,  
Large seas of seaweed,  
Swaying from side to side.  
*David Jackson*

**Convicts**  
Historic culture  
Bishop and Clerk  
Native hens fossicking around  
Hungry possum wrecking our tents  
Maria Island beautiful thoughts  
Rough ferry ride  
Grubby cells  
Maria!  
*Robert Sim*

*Maria Island Penitentiary by Saul Webb*

Bishop and Clerk, an astounding place.  
Fossil cliffs, beyond time and space.  
Going under water, freezing but fun,  
Seeing abalone away from the rays of the sun.  
Jumping off the jetty, swimming in the sea  
Was carefree and joyous and fun to see.  
*Ramanan Daniel*

**Parched earth and dry grass**  
Big mountains and high cliffs  
No warning for the careless  
Maria Island and me.  
*James Cazaly*

Lino Printing by Alexander Perndt

### Friendship Recipe

Ingredients- 10 bottles of laughter, 3 litres of trust, 1 teaspoon of humour, 11 cups of happiness, 50 grams of understanding, a touch of fun, 20 kg of enlightenment, crushed enjoyment and mixed adventure.

Method- Pour the laughter and trust together into a bowl and stir well. Mix in a teaspoon of humour. Add 11 cups of happiness. Pour the understanding with a touch of fun. Add the enlightenment and crushing enjoyment. Put it in the oven and bake for 30 minutes. When cool sprinkle the adventure on top. A perfect friend.

Samuel Howe

If I could be another member of my family. I'd be my cat because it doesn't have to do any work.

Jesse O'Hara

If I could be an animal. I'd be a tiger because I'm cunning and strong.

Robert Jubb

If I could be a building. I'd be The Great Pyramid because it's big and strong.

Samuel Pearson

If I could be a flower. I'd be a rose because I'd be beautiful.

Robert Beadle

If I could be a book. I'd be an encyclopedia because I'd have lots of knowledge.

Alexander Perndt

If I could be a type of food. I'd be a brussel sprout because I wouldn't get eaten.

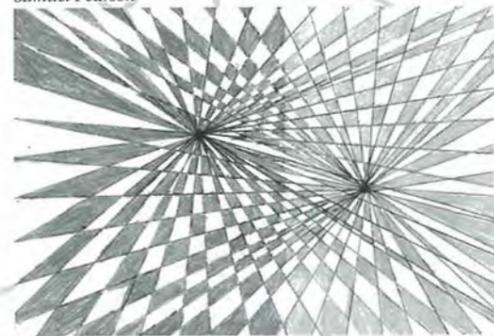

Scott Nichols

Line Dancing

Ready to take the plunge, snorkelling on Maria.

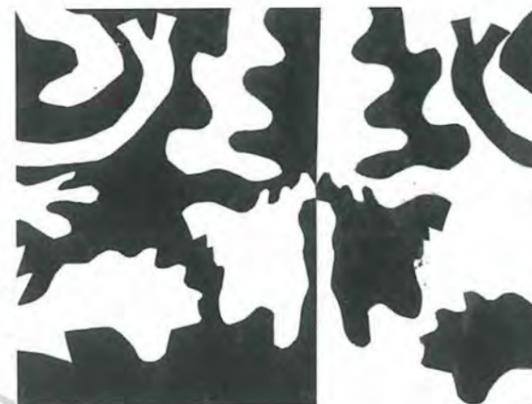

Patterns by Jesse O'Hara

### Maria Island

Magical mist  
Amazing sea life  
Riveting stories  
Interesting history  
After dark games  
Impossible walks  
Snug in my sleeping bag  
Looking for mischief  
Animal droppings  
Not enough sleep  
Dirty socks

Michael Bamford

Symmetry by David Chapman

Background by Scott Nichols

### If I was the teacher for a day

Rules: Anyone found being silent in class will be severely punished.  
Large pets must be kept outside during lessons.

Desk Arrangement: All the desks would be in a big circle. Mine would be in the middle on a revolving platform.

Nicholas Evans.

Year 6T

Back Row: Ryan Bean, Nicholas Evans, Thomas Leworthy, Jesse O'Hara, Joshua Parker, Robert Beadle.

Middle Row: Mrs Melissa Terry, Dennis Ng, Samuel Howe, Patrick Kelly, Asbley Winter, Erik Pobl, Robert Jubb, Rory Ware, Samuel Pearson.

Front Row: Matbew Bradley, Scott Nichols, Alexander Perndt, Michael Bamford, Justin Hynes, David Ward, Charles Thomson, David Chapman, Tristan Giblin

### Year 6T Report

6T have had a fun filled year. Both inside and outside the classroom. One of the many highlights was our camp to Maria Island. We went snorkelling, walked to the top of Bishop and Clerk, viewed the Fossil Cliffs and saw the Painted Cliffs as the sun was setting. We went on a night walk where we studied the stars. We ate lots and learnt a lot about the history of Maria Island.

Our first public appearance as a class was a behind the scenes tour of Hobart's Village Cinema. While we were there we looked at the film projectors and watched a movie clip.

As part of our Air Unit in Term I we designed and made balloon powered cars, which was great fun. We also had a visiting Science show, where we learnt many facts about air and watched lots of interesting experiments.

We were able to touch Gummy Shark, Spotted Dog fish and many other sea creatures on our visit to the Marine Discovery Centre.

We dressed up as miners, panned for gold, and experienced the journey down a mine shaft at the Minerals and Mining Centre. We walked to Salamanca where we were able to purchase our lunch. It was a great day.

As part of our Australian Government unit we visited Parliament House in Hobart.

We also ran our own election and debated bills. Socials were again a highlight of our year, this is a great opportunity to meet girls.

Tristan Giblin  
David Ward

### Class Captains

Term I Joshua Parker & Partick Kelly  
Term II Samuel Howe & Dennis Ng  
Term III Nicholas Evans & Alexander Perndt

### Rory.

Friendly, tall.  
Bodyboards, swims, runs,  
Joyful.  
Smart, happy, boy.  
Charles Thomson

### Justin.

Friendly, normal.  
Run, ride, swim,  
Fun.  
Happy, cool, boy.  
Justin Hynes

### Mathew.

Crazy, short.  
Draws, swims, runs,  
Happy.  
A great friend.  
Matbew Bradley

### Dennis.

Nice, funny.  
Swims, sings, basketballs,  
Smart.  
Short, friendly, guy.  
Asbley Winter

Rory Ware, David Chapman & Tom Leworthy.

## *The Head of Middle School*

This year, a description of The Hutchins Middle School was the leading article in the respected educational journal *In Schools* and we were given a very positive report card indeed.

The School was also fortunate to attract, through the efforts of the Headmaster, a substantial research grant from the Federal Government to look at the changes to Middle School over the last eighteen months, as part of the Innovation and Best Practice Project of the University of Sydney. The survey findings, from students, parents and staff, of the independent researcher, Associate Professor Joan Abbott-Chapman, were strongly encouraging of the ethos and practice in Middle School, and drew a number of enquiries from schools around the country seeking to emulate some of the innovations discussed.

"This year saw the inaugural House Music competition, modelled on the popular Senior School format at which Middle School boys have been spectators for some years."

Enrolments in Middle School for 1999 remained steady at close to 220 boys, equally divided between Years 7 and 8. It was a typically busy year, the first full year in the new facilities, and one marked by an extraordinary number of top performances by students in all kinds of fields, reported elsewhere in this magazine by the hard-working Year Heads, Chris French and Janet Waters.

Head of Middle School, Russell Morton, was invited to deliver a paper on Middle Schooling at the annual conference of the International Coalition of Boys' Schools in Nashville, Tennessee.

Year 8 Tutor Chris Berndt attended a national conference on Middle Schooling in Melbourne, whilst Chris French also spent some time in Melbourne looking closely at the organisation of sport at major independent schools.

## *Staff*

After working in other areas of the School, Anna Cazaly joined the full-time staff as a Year 7 Tutor and teacher of LOTE and English. Rex Beamish spent the year in Middle School after moving from Senior School to serve as a Year 7 Tutor and teacher of LOTE and English. Marja Bratt joined the Middle School staff as a Tutor and teacher of Art, and despite the misfortune

of badly injuring a foot on a Year 8 camp, has made a very positive contribution. During Mrs Bratt's convalescence, Jennifer Stuerzel and Maria Wiseman combined capably to maintain the Art program for Middle School boys.

## *Innovations*

This year saw the inaugural House Music competition, modelled on the popular Senior School format at which Middle School boys have been spectators for some years. A feature was the leadership of senior boys in each House who worked with the bands to produce a most enjoyable inaugural performance. Points from House Music contributed to the Middle School Cock House Competition.

Some of the Clubs took major steps forward this year, especially the Flying Club and the Model Railway Club. Mr Tim Fish and Mr Kent Moore put a great deal of effort into developing the flight simulator based around the Cessna aircraft purchased last year, and the facility was further improved when a commercial flight simulator on semi-permanent loan was moved into the same suite of rooms. Mr Ian Addison and Mr Chris Berndt worked with a group of students to begin the development of a large model railway layout in the electronics area of the Design and Technology faculty.

## Sport

Sport again figured prominently in the program for the year, and its careful organisation remained the province of Chris French. Honours were even in the inter-House competition, with Thorold winning the Athletics and the Swimming and Stephens the Cross-Country. Several teams and many individuals gave excellent accounts of themselves in competition with other schools, their efforts being recorded in the sporting pages. Once again, there was a major contribution made by volunteer coaches, parents and Old Boys, and their invaluable assistance is gratefully acknowledged.

## Leadership

Middle School Council members were again identified from the large group of Year 8 boys who undertook leadership training. They deserve special mention for their tireless efforts over the year with lunchtime activities in the Early Learning Centre, Junior and Middle Schools, for their newspaper, running of assemblies, sponsoring of service activities and generally building the ethos and good climate of the Middle School.

The group began with six members, Jon Cook, Lewis Halliday, Mark Toppin, Sam Muskett, Joe Pemberton and Harkiran Narulla, to whom three - Jonathon Manning, Dean Rollins and Nathan Brooks were added during the year as their positive contributions became evident.

As an important innovation, the Council, assisted by Middle School prefect Simon Gardner and guided by Chris French, developed a proposal to the Headmaster's Committee to have service by Middle School boys to the school and the community recognised formally. Not only was the proposal welcomed enthusiastically, but also it has prompted development of a similar approach for Years 9 and 10.

The Middle School newspaper, lunchtime activities, organisation and running of assemblies and a myriad of other tasks were carried out with care and purpose by this core group, and their contributions have been greatly appreciated.

## Parents

Once again, a significant number of Year 7 parents accepted the challenge of spending a good part of one day in their sons' classrooms on the annual SWAP Day in March, a fixture new over three years and one which still draws positive comment.

The Middle School's sporting program was very much enhanced by the efforts of parents,

many of whom gave faithful support and encouragement Saturday after Saturday.

Some of the unsung heroes, particularly from the perspective of hungry boys, were the mothers who served regularly in the tuckshop. Their efforts were very much welcomed once again.

## Assemblies

Lewis Halliday and Mark Toppin have done a great job organising and running Middle School assemblies several times each term. Speakers have been as varied as Dr Michael Tooth on sun-smart behaviour, exchange teacher Mr Curtis Smith on his home state of Texas, and American blind musician Mr Peter Breen from Christian Blind Mission International.

Once again, the tremendous efforts of the Year Heads, Janet Waters and Chris French, the Academic Coordinator Rob McCammon, Counsellor Alan Dear and galaxy of Tutors including Ian Addison, Rex Beamish, Chris Berndt, Marja Bratt, Anna Cazaly, Tim Fish, Rob McCammon and Emily Putland are warmly acknowledged. Their efforts over the year were truly professional and went well beyond the call of duty.

## Drama

Outside of formal drama lessons, Middle School boys have had no fewer than three opportunities to strut their stuff on stage during the year. Honours English student from the University, Jo Richardson, produced 'Treasure Island' with a Year 7 cast, Michelle Weeding produced 'Patsy' with a cast of Year 8 boys, and Russell Morton produced a play for Years 7 and 8 written by Ian McQueen and entitled 'Bullies', which toured other schools in November.

Overall, 1999 has, in Middle School, been a usefully busy and profitable one during which all boys found opportunity to extend their horizons with strong encouragement from home and the skilled assistance of a committed staff team.

*Mr R Morton*  
Head of Middle School

# Year Seven

The four Year 7 classes, ably tutored by Mr Addison, Miss Putland, Mrs Cazaly and Mr Beamish have brought the millennium to a close with an exceptionally successful year in every respect.

## 1999 in Brief

The year began for our 107 students on Wednesday, 10 February. By the end of Term 1 they had all participated in a rich diversity of school experiences and firmly established themselves as a Year Group with enormous talent. Each class had taken part in a four day camp based at Southport; the Swimming Carnival had revealed some promising young swimmers; two SWAP days had been enjoyed by parents, staff and boys; rehearsals had commenced for the Year 7 drama production *Treasure Island*; both summer and winter sports had been experienced and an Activities Day with Collegiate as well as the first two socials had been hugely popular additions to the calendar.

The Callover Reports made it clear that each boy was striving for excellence in the classroom as well as enjoying the extra-curricular activities available, and this opinion was borne out by the excellent performances in the *Poetry and Prose in Performance* competition, which was won by Matthew Street with an amusing rendition of Michael Rosen's 'The Little Red Alarm Clock'.

Terms 2 and 3 saw a continuation of these fine standards. *Treasure Island*, with Nicholas Graney as Jim Hawkins supported by a talented cast, was presented early in July to enthusiastic audiences. A large number of boys elected to participate in the State and National academic competitions (Maths, Science, English and the Alliance Francaise). A competition of another sort, the *Hutchins School Short Story and Poetry Writing Competition* (Junior Section) was won by Andrew Bennett with his story 'A Quest for the Flying Thing'. Individual performances in the Cross Country and Athletics competitions, the House Music and the House Debating once again revealed a wealth of talent and commitment among the Year Group.

Year Group and End-of Term Assemblies provided regular forums for celebrating the boys' achievements, and were enlivened by the presentation of musical items, plays and displays of ADT work. Congratulations to the many boys who participated on these occasions, and to those who were awarded certificates for Outstanding Achievement and Commitment, Sports Merits and the 50, 100, 150 and 200 Merit Certificates.

## The Curriculum

The Year 7 curriculum provides a stimulating range of subjects which the boys explore with interest and enthusiasm, and the lively and colourful displays of work in the classrooms attest to the energy which goes into day-to-day learning.

A new approach to teaching and learning was undertaken by all Year 7 teachers in Term 3, during which the theme 'The Millennium' was investigated in depth for two weeks. Integrating the curriculum in this way produced some marvellous work which was placed on timelines around the classrooms. The unit was brought to a close with a special 'Millennium Assembly' at which Mr David Brammall and Mr Russell Morton (alias Professor R. Nostradamus) spoke about the past and the future, and during which the boys were able to share with each other some of the excitement and learning that they had experienced.

## Achievements

Throughout the year opportunities presented themselves to our students to challenge their academic, sporting and creative skills beyond the normal classroom requirements, and while each boy clearly does his best in such circumstances, some of our high achievers deserve particular acknowledgement.

**University School Exchange:** David Creak was selected to represent the Year Group this year in the exchange to University School in Cleveland, Ohio.

**Swimming:** Louis Balcombe, Charles Fish, Clifford O'Hara, Tom Ayliffe, Hamish Hall, David Creak, John Dale Hove, Edward Ashbolt, Justin Sanderson and James Gordon represented the School after excellent performances in the Middle School Swimming Carnival.

**Cross Country:** Tom Ayliffe and David Calder are to be congratulated for their first placings in the House Cross Country. Matthew Graver, Charles Fish, Jared Sheppard, Matthew Street, John Dale Hove, Louis Alderdice, Huw Nestor, Josh Phillips, Alex Hunnibell, Richard Gard and Keepa Mewett also put in notable performances, and all went on to represent the school.

**Athletics:** Tom Ayliffe, Jonathon Barnes, David Calder, Charles Fish, James Gordon, John Dale Hove, Keepa Mewett, Chris Quinn, Henry Allwright, Chas MacKinnon, Jared Sheppard, Clifford O'Hara, Sam Button, Sam Kirby-Fahey, Robert Tilt, Chris Alomes and Sam Harvey took part in the Southern Independent Schools Athletics Carnival after competing strongly in the Middle School competition.

**Parliament:** the representative from Year 7 was Bob Tronson.

**Australian Maths Competition:** High Distinctions were awarded to Charles Fish and Ronan Fenton; 13 boys earned Distinctions and 20 earned Credits.

**The National English Competition:** High Distinctions were awarded to Charles Spiegel (who topped the State) Jonathon Manning and Dylan Viney. There were 13 Distinctions and 27 Credits.

**Tasmanian Maths Competition:** Ronan Fenton achieved an Outstanding Award.

**Australian Science Competition:** Charles Spiegel, Ronan Fenton and Nicholas Graney were awarded High Distinctions; there were 14 Distinctions and 11 Credits.

**Australian National Chemistry Quiz:**

Jonathon Manning was equal first in the State, and Ronan Fenton equal fourth.

High Distinctions were also awarded to Michael Chapman, Kurt Fuller, Ben Sheehan and Dylan Viney

**Alliance Francaise:** Alastair Tooth, Ben Sheehan, Richard Simmons and Matthew Wilson participated in the poetry speaking section.

**Eisteddfods:** Peter Eland and Nicholas Graney both distinguished themselves in Vocal Solos in the Hobart Eisteddfod, and Peter won two further awards in the City of Clarence Eisteddfod.

**Class Captains:** The following boys are to be congratulated for their contribution to the smooth running of their respective tutor groups: Matthew Lister, Sam Stove, Sam Harvey, Chas MacKinnon, Jared Sheppard, Matthew Bowditch,

Jake Squires, Huw Nestor, Richard Gard, Dean Lovell and James McCreary.

**Colours:** Chris Alomes, Tom Anderson, Matthew Bowditch, Tim Boys, Michael Chapman, John Dale Hove, Joseph Dyer, Nick Enman, Ronan Fenton, Matthew Graver, Nick Gregory, Richard Hazell, Liam Houston, Chas MacKinnon, Jonathan Manning, Martin Mulcahy, Greg Otto, Justin Sanderson, Ben Sheehan, Jared Sheppard, Stuart Smith, Matthew Street, Robert Tilt, Bob Tronson, Dylan Viney, David Wicks, Jared Wilson and Matthew Wilson.

**Tuckshop Committee:** Louis Balcombe, Josh Fitzgerald, Scott Lawless, Isaac Bennett, Richard Hazell, David Wicks, James Gordon, Tim Boys, Nick Kimble, Jake Squires, Josh Phillips, Richard Gard, Sam Kirby-Fahey, Michael Norris, Sam Button, Alex Humphrey, David Calder, Tom Anderson, Shamim Samedani and Joseph Dyer.

Hamish Hall came fourth in the State Rock Climbing competition, and was also selected to play in the Southern Hockey team; Sam Kirby-Fahey and Robert Tilt were selected to play in the State Rugby team; Michael Chapman was selected to play in the U17 State Badminton squad; Michael Andrews played in the U13 Southern Tasmanian Soccer Team; Lars Becker travelled to Brisbane to play in the National Squash titles and became the highest ranking Tasmanian player.

It has been a wonderful year. Thank you everybody.

# Year Eight

The boys have had a very busy and productive 1999. The features of the year would have to be the enormous amount of work and time the boys have done with Middle School leadership and service, the Year 8 camps on the East Coast and the boys' participation levels in the school's extra curricular program. They have taken on leadership roles with enthusiasm and have carried out their responsibilities in a reliable and cooperative manner. Thirty five boys attended the leadership training nights and the two day camp at Orana and their willingness to be involved in the daily planning and organisation of Middle School is a credit to them. Many boys have also volunteered to do Middle School Service and have been participating in the Early Learning Centre Lunchtime and After School Care Supervision programs - some boys have attained over 40 hours of service! The Year 8 Camps were very popular and they were an important time where pastoral bonding between students and staff occurred. Mr Stewart works very hard in running these camps and the boys appreciate his efforts and enthusiasm. Throughout the year, many boys have fully engaged themselves in many activities, with the End Of Term Assemblies always a showcase of their talents. The list below is testimony to the boys' level of involvement.

#### Athletics

Jack Madden, Andrew Dawson, William Priestley, Dane Johnson, Adam Kilby, Mark Toppin, David Powell and Lee Andrewartha all performed well in the Inter-School competitions. Andrew Dawson won the State 80 metres Hurdles.

#### Cross Country

- Jack Madden won the Inter-school Cross Country and Michael Ashbolt also performed well finishing seventh.

#### Swimming Team

- Jack Madden, Joe Pemberton, Adam Kilby, and Tom Mills were all members of the school's swimming team and each were members of record breaking relay teams at the State Independent School's titles.

#### Australian Science Competition

- High Distinctions - Jack Madden and Tom Mills
- Distinctions - Robert Easter, Dean Rollins, Tim Carolan, Ben Harvey, Matthew Wertheimer, Hugh Thomson, Hayden Farquhar, James Walsh, Henry Knipe and Joe Pemberton
- Credits - Lee Andrewartha, Nathan Jones, Oliver Mellers, Piers Symons, Harkiran Narulla, Alasdair Edwards, Paris Butfield-Addison, David Sorell-Saunders, Winston West, Jonathon Manning and William Priestley

#### Australian Mathematics Competition

- High Distinctions - Jack Madden and Tom Mills
- Distinctions - Robin Abell, Robert Easter, Dean Rollins,

Tim Carolan, Ben Harvey, Mark Toppin, Matthew Wertheimer, Vaughan Allen, Piers Symons, Jonathon Manning, Tom Mills, William Priestley and Charles Cunningham

- Credits - Lee Andrewartha, Oliver Mellers, Alex Menzies, Alasdair Edwards, James Walsh, Winston West, Henry Knipe and Joe Pemberton

#### Australian English Competition

- Distinctions - Hayden Farquhar, Tim Carolan, Matthew Wertheimer, Stuart Arnold, Dean Rollins, Harkiran Narulla, Ben Harvey and Sam Halliday
- Credits - Paris Butfield-Addison, Nicholas Perndt, Jacob Britten, Jorge Burgess-Lowe, Robert Easter, Alex Halse-Rogers, Hugh Thomson, David Sauer, Joe Pemberton, Phillip Morey, Henry Knipe and Dane Johnson

#### Australian Chemistry Competition

- High Distinction and Special Award - Hayden Farquhar
- Distinctions - David Sorell-Saunders, James Walsh and Stuart Arnold
- Credits - Piers Symons and Tony Wan

#### 150/200 Merit Cards

Sean Freese, Ben Morrison, Matthew Bax, Alex Farmer, Henry Knipe, Lee Andrewartha, Robert Easter and Robin Abell. 200 Merits - Jonathon Manning

#### Other notable achievements

- Robert Easter, Lee Andrewartha, Hayden Farquhar and Jonathon Manning finished second in the State Maths Relay Championship
- Dean Rollins topped the State and received a 'Special Achievement Award' in the Australian Computer Competition
- Matthew Mulcahy won the 'Writersports' competition and the school's Poetry and Prose competition
- Jorge Burgess-Lowe, Dean Rollins and Hugh Thomson were members of the school orchestra
- Jacob Britten was a member of the Senior Choir
- Nicholas Summers, Mark Toppin, Cameron Stuart, Charles Harris and Joshua Mulcahy were members of the Swing Band
- Piers Symons, Jacob Britten and Alex Morris were members of the Chapel Choir
- Hayden Farquhar, James Walsh, Matthew Mulcahy, Tony Wan, Winston West and Simon Enman, were 'Parliament' members
- Simon Enman completed half of the Duke of Edinburgh Award
- Charles Cunningham was selected in the State Team for sailing and competed in Perth
- Simon Foster and Simon Enman have attained over 40 hours of Middle School Service

## TCWs

Nathan Brooks, Charles Cunningham, Pekko Mahakitsiri, Tom Chang, Stuart Arnold, Matthew Bax, William Clennett, Jack Madden, Sam Muskett, Matthew Wertheimer, Tom Mills, Joe Pemberton, Alex Farmer, Jonathon Manning, Simon Enman, William Priestley and Lee Andrewartha

## Middle School Service

- Mark Toppin, Nathan Brooks, Sam Muskett, Lewis Halliday, Joe Pemberton, Jack Madden, Jonathon Manning, Dean Rollins, and Harkiran Narulla were all selected for the Middle School council
- Simon Foster, Nathan Brooks, Cameron Stuart, Simon Enman, Dean Rollins, Matthew Holmes and Nicholas Summers were the first to be awarded their Service Certificates

## Sport

- Lee Andrewartha won the Southern Orienteering Championship.
- Tim Carolan and Lewis Halliday were table tennis premiership players.
- Vaughan Allen, Lewis Halliday and Piers Symons were selected in the U15 Southern Cricket Squad
- Matthew Wertheimer, Lewis Halliday and Dean Rollins were selected in the U14 Southern Football Squad
- Sam Morris was selected in the Tasmanian Lacrosse Team
- Mark Toppin, Andrew Dawson, Tony Wan, Aston Wills and Jack Madden were premiership players in basketball
- Vaughan Allen was selected in the U15 State Cricket Squad
- Alex Menzie, Tim Carolan, Ben Morrison and Jonathon Manning were members of the U13 A Premiership soccer team
- James Walsh, Alex Farmer, William Clennett, Matthew Wertheimer and Jonathon Nicholas were rowing winners at the Head Of the River
- Adam Hill was selected in the Southern Soccer Team
- Paul Howard was runner up in the Tasmanian Junior Squash tournament
- Zen Miles won many Karate competitions, some at State level
- Andrew Dawson was selected in the Tasmanian Schools Athletics team

## Middle School Council

After the leadership training at the start of Year 8, nine boys were invited to join the Middle School Council based upon their efforts and leadership up until Easter. Each boy in the Council had a portfolio and these included Chapel/ Assemblies, SRC, Lunchtime Activities, MS newspaper, Academics and Sport. The council planned and administered many activities and was ultimately responsible for providing Middle School boys with a diverse range of activities. They also gave their peers the opportunities to give feedback on how to make their Middle School experience even better. Our SRC representative also worked closely with the Senior school in assisting the Council to attain some of its goals. The boys are to be congratulated on their efforts and the list below gives some indication of how successful they have been.

- The Middle School Colours were reviewed and changes were made
- The Middle School Service Award was created and boys can now attain service hours that will count for their graduation certificate in Year 12.
- BBQs were held throughout the year to raise money for the 'MS sponsorship' child
- Lunchtime sport equipment was purchased with the help of the Senior School SRC
- The Middle School Newspaper was created and Jonathon Manning was the driving force behind this
- A lunchtime duty roster for Year 8s in the Early Learning Centre was created and this allowed boys to gain service hours. Some boys also assisted at After School Care
- Portable covers for the gates near the handball court were ordered
- Notice boards have been added and extended
- Lunchtime activities have been provided and have included tug-of war competitions, staff versus students basketball games, football kicking competitions, rowing displays, soccer shootouts, torporamas and many other competitions where students could win prizes
- The End Of Term and Middle School assemblies were organised by council members
- Reports on the weekly Winter sports were posted on the sports boards
- Input from peers was gathered from Tutor SRC meetings to assist in evaluating homework timetables, diaries and Middle School procedures and routines.

The Year 8s have been a happy and helpful Year Group and we wish them all the best as they enter their Senior schooling.

Mr C French  
Head of Year 8

## The Head of Senior School

We were lucky to have Dr Stephen Gumley speak to the staff during the year on 'The World of Work'. He emphasised the importance of teaching and learning the 'soft skills' - problem solving, working with others, conflict resolution and developing good communication skills. Without these skills an education is incomplete. These skills are learnt in all areas of school life - the classroom, the sports fields, the Performing Arts Centre, the Tutor Group, the House and in the family home to name just a few.

This school provides a vast range of activities for boys to choose from. We can only encourage them to get involved and do their best. This is the message given to every new boy to the school. We believe that there is something for everyone at Hutchins, all a student has to do is go out and seek a new challenge. Let me share a few highlights of the year to illustrate the variety of opportunities there are to develop the life skills mentioned.

Who would have thought we would have a student representing his country at Rock Climbing in San Francisco. That is exactly what James Cameron in Year 9 has done.

Enterprise and Marketing competitions have become very popular with our students. Arthur Pitman and Jason Siu won the ASX Sharemarket Game for the third time in a row. Their earnings are now in excess of \$1,500. William Bignall was a speaker at the Youth Business Forum at West Point. Sam Trethewey won the State Plan Your Own Enterprise Competition and Justin Hallock and Adam Stankiewicz were Group Category winners. Martin Scott won \$350 for an Export product plan. The economic future of Tasmania could well lie in the hands of our young entrepreneurs. They are certainly learning the importance of planning ahead.

Arthur Pitman and Oscar Potter won Scholarships to attend the National Science Summer School and Nicholas Starkey was one of only three Tasmanian students selected to attend the National Mathematics Summer School. Congratulations also to Matthew Woolley who won first prize (\$100) in

the Senior Section of the Tasmanian Mathematics Competition.

James Field won the Public Speaking Section of the Lions Club Youth of the Year Award. Daniel Copping won the Diana Large Memorial Award at the Hobart Eisteddfod while James Shoobridge won the Adjudicator's Choice Trophy for an Individual Performer. Daniel and James topped off the season by joining Simon Martin in winning the Senior Schools Debating trophy for the first time in ten years.

Mr Web, the Hutchins Web Design Team, won the State award in the Australian Schools Web Challenge. The team of David Townsend, Arthur Pitman, Peter Bardenhagen and Richard Charlton were guided by Mr Kent Moore and sponsored by St John's Hospital. They are happy to prepare a Web Site for any business - at a price of course!

Joel Bevin won the "My Vision for Tasmania" Essay Award conducted by the Order of Australia Association. Essay writing is a vital skill and our boys are keen competitors in the school Essay and Short Story writing competitions.

On the sporting side pride of place must probably go to Tim Hazell on being selected in the State Under 18 Australian Rules Football Carnival and later on his drafting to the Hawthorn Football Club. The real challenge now starts for Tim.

Simon Gardner will tour South Africa with the Australian Boys' Water Polo Team in December. Nathaniel Symmons made the National Under 18 team for the second time. Tom Windsor and Sam Halliday were State selections.

Sam Madden is fast developing into one of our States brightest swimming prospects. He had a highly successful Tasmanian Short Course Swimming Championship, winning seven gold medals. He broke eight records, including one set by Australian swimmer Scott Goodman.

Orienteering continues to flourish as it provides a mental and physical challenge. Ben Robinson came first in the Men's 18A Section at the Australian three day Orienteering Championships.

The Hutchins rugby team was again well represented at State level by Tim

Starkey, Ben Gray, Sebastian Carr, Stuart Ecob and Ben Robinson. Bigger and older players, backed up by supporters who sometimes forgot the purpose of the game, frequently challenged them. This game provides a real test of self control and the 1999 season certainly provided that.

Robert Catchpole won the State Handicap Division of the World Sport Promotions Australia Junior Golf Challenge as well as the Southern Junior Golf Championship. He was also part of the School team that won the State Schools championship for the first time. Christian Rainey and James Jenkins were the other two players. They will compete in the National Schools final in March. The prize is a trip to the World Schools Championship in Scotland.

The highlights of the athletics season were the record breaking sprints by Scott Wells and Matthew Smith who won the Open 100, 200 and 400 metres events. The cheering of the large group on the stands, led by School Whips Willie Whitehouse and David Blackwood, made for a memorable carnival.

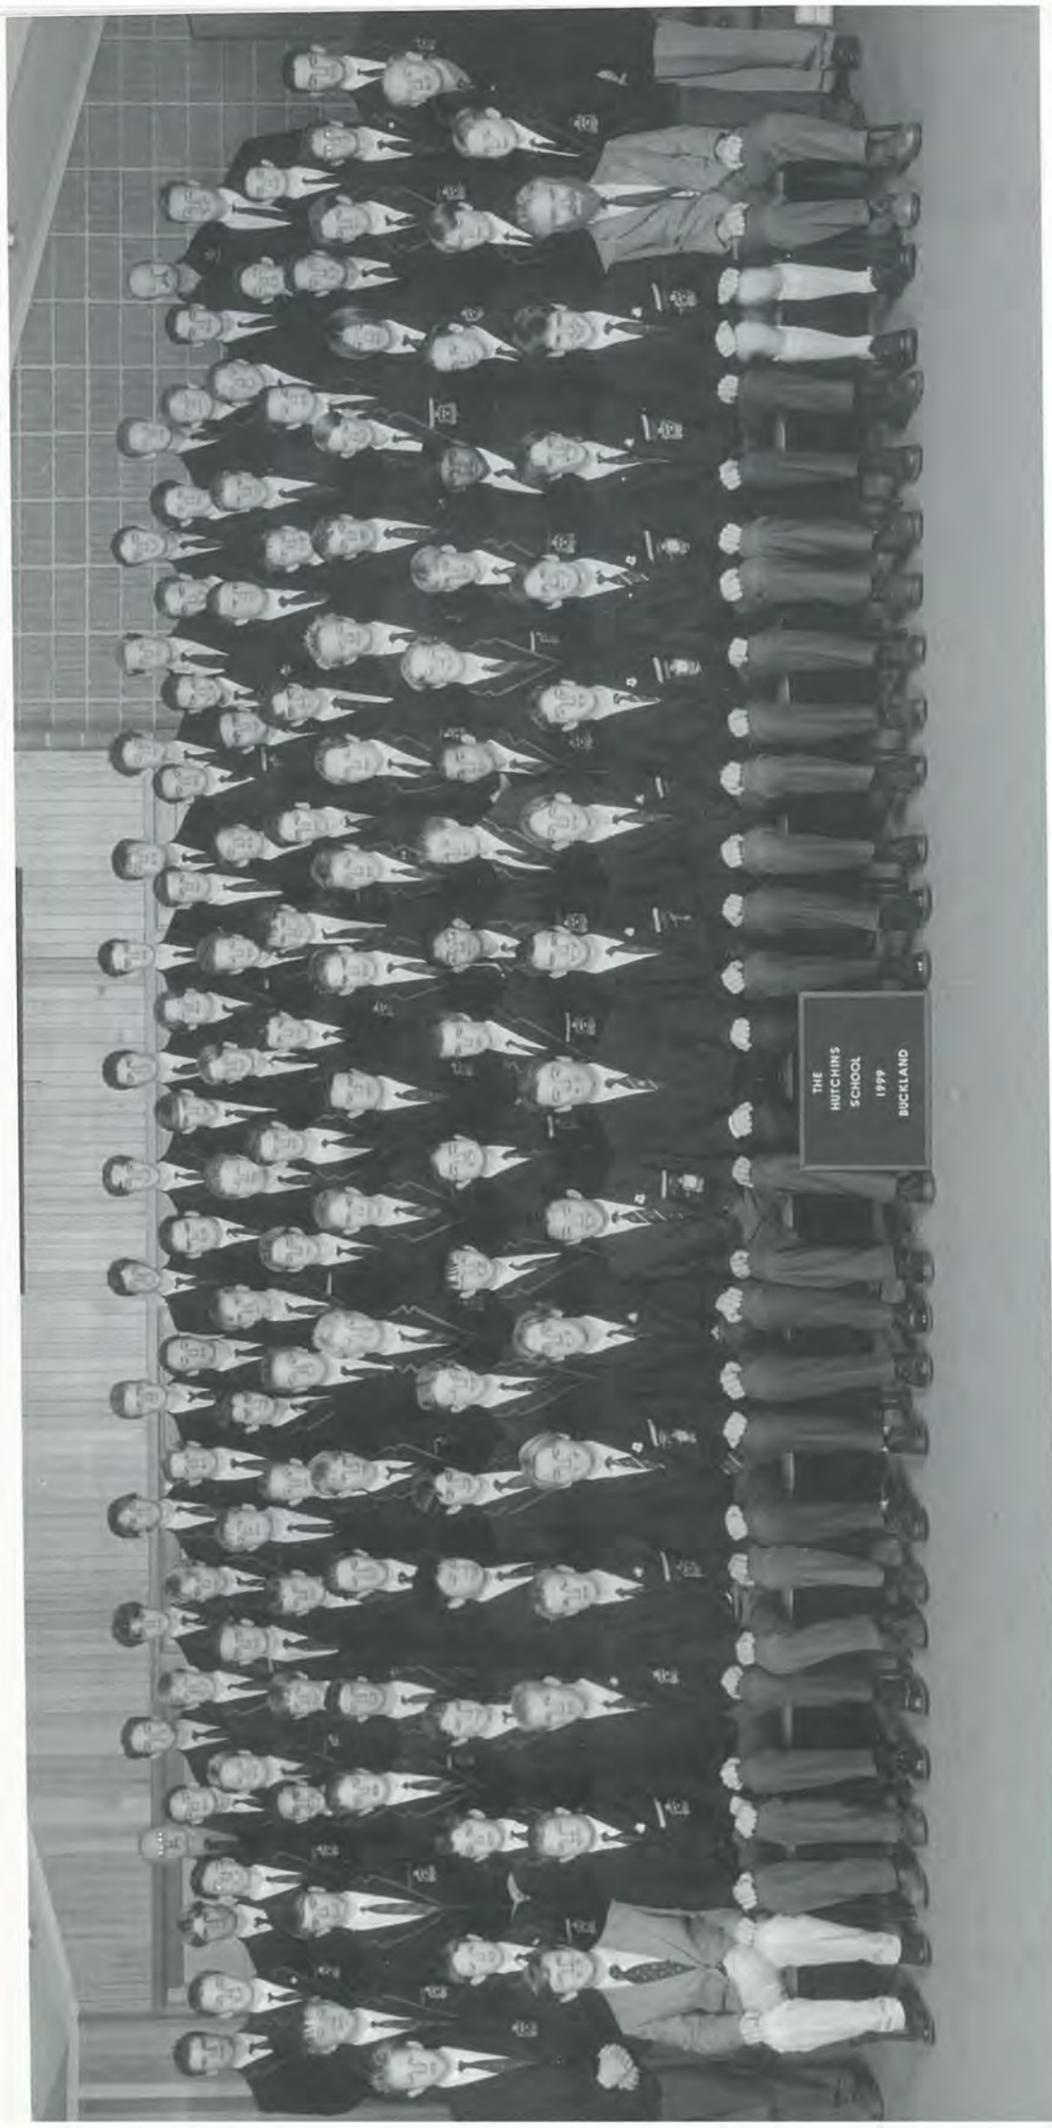

Hockey continues to provide a well-organised competition for our students. James Beamish (U18), Richard Headlam and Guy Russell (U17), Jeremy Inglis and Peter Ayliffe (U16) and Ben Creese and Alastair Addison (U15) were all selected for state teams.

Finally a well done to our Open basketball team on winning the SSATIS Trophy. This was presented to the school at the Awards Assembly.

All in all 1999 has been a busy year. We celebrate the successes and thank all those many Old Boys and parents who have helped us provide these opportunities for growth.

Mr B Irons  
Head of Senior School  
and Deputy  
Headmaster

## Waratah Award

David Blackwood

1999 has been an eventful year and certainly one to remember. Although the mighty Buckland House was unable to clinch victory in the Cock House Shield, we did succeed in fulfilling this year's goals of participation and doing our best with the utmost loyalty and enthusiasm. With full participation and determination, the Buckland Boys of 1999 upheld the honour of the House and kept the house spirit as strong as ever.

As the year progressed, I realised that winning the Cock House was not as critical as it first seemed. Rather it gave students a chance to be involved and contribute something towards the House. Throughout the year Buckland boys experimented with these opportunities. They were able to discover new talents and in doing so, strove for excellence, both on the sporting field and in the classroom. They proved the strength and ability within our House. Despite a third place in the Cock House Shield, Buckland House achieved many fine wins, in cricket, golf, Kingborough on Summer Sports Day, surfing, volleyball and badminton. We were also successful in rowing, hockey, squash, tennis, sailing, chess and academics.

During Term 1, all Year 12 boys took a 'journey' to the Middle School where we enlightened the future boys of Buckland House with several of our most prestigious chants. This was extremely successful in initiating the House Spirit and was evident in the Middle School House Swimming Carnival. It was thrilling to hear young voices cry our chants, and drown out those of the other Houses.

Our most recent claim to fame occurred several weeks before the end of term, when we rightfully recaptured the House Grill from Stephens House in highly competitive games of indoor soccer and softball.

On the social side, Buckland House organised several activities with sister houses Dundas and McPhee. Some of the most memorable occasions included a Year 9/10 Pizza-Video Night and the Year 12 Bowling Night. We also found our Year 9-12 barbecue extremely enjoyable, as it strengthened the growing relationships between senior boys.

I would like to thank all Buckland boys who took on the challenge and participated with enthusiasm to uphold the true identity and spirit of the House. I would especially like to thank the House Prefects and House Executive for their help and support throughout the year and to the House Whips, Will Whitehouse and Dave Blackwood for their tireless efforts.

The Year 12's of 1999 have been a closely knit group of boys who have intermingled and combined together to create a year of unforgettable memories. I would like to thank the House Tutors, Mr McLeod (Acting Housemaster in Term 1) and especially Mr Millhouse for providing us with guidance and assistance throughout the year. Finally I wish the Buckland Boys of 2000, the very best of luck. Remember that it's not what the House can do for you, but what you can do for the House that makes it successful.

*Jamie Chung Gon*

Buckla boys at the Anniversary Lunch. Caleb Lang examining the delights

**GO BUCKS!!!**

## 9IAb/The

Our tutor group has had a pleasing year. Mark Jessen came third overall in the Southern Badminton titles. He also won the table tennis. Christopher Jones received a High Distinction in the Australian Geography Quiz, played in the swing band and played soccer, waterpolo and cricket, and along with Rowan Oliver, was in the Premiership winning side for cricket. Rowan also played soccer, received a cricket award, and was Vice-Captain of the tutor group. Stephen Blakesley played football and along with Matt How, Paul Hussey and Alex Reid played basketball. Alex Reid also played soccer in the under 14 A side with Patrick Sherwood and Alan Beadle. Alex Polegaj played in the under 15 A soccer side and also played cricket. He was the SRC representative, was in the orchestra, and showed his talent by being the only Year 9 boy to compete in the House chess. Paul Hussey and Matt How played volleyball for their winter sport. Julian Balcombe and Robert O'Connor played soccer in the under 15 side and particularly enjoyed drawing pictures in tutor time. The Tutor group has also achieved the distinction of having both the youngest, the shortest and the lightest person in the Senior School. Thanks Mrs Abell for being our Tutor in Term 3 while Mr Herbert enjoyed his Long Service Leave.

## 9SHi

Our Tutor Group has had a very good year. Mr Hickey has been a really good Tutor and has helped us with a lot of things. This year we have had some great Tutor group activities. Some of these have included having MacDonalds lunches and watching movies. We have also done a few sporting activities with other Buckland classes. The Class Captains for 1999 were Ryan Perry for Term 1, Robert Otto for Term 2, and David Hicks for Term 3. Most members of our class have been in many competitions which have included maths, science, english, and computing.

## 10PSt

has had a very successful year and there have been many outstanding individual performances. These include Jason Backland's great run in the Athletics and Oliver Hallock and Robert Joyce being selected for the school's First XI soccer. They also visited University School in America for three weeks. Adrian Kan came sixth in the State in the Australian Chemistry Quiz and helped his badminton team do well in the school competition. Anthony Males won the U15 rowing competition, Cameron Veal won the U15 rock climbing competition, Jon DeHoog coxed the

second VIII and Joel Bevin came first in the State Essay Competition. He was also selected for the school's First Squash team and the tennis seconds.

Cameron Irwin was set to achieve great success in the state Body Boarding Competition but had to pull out because of pneumonia.

Ben Gunn helped Buckland win the House golf. Nick Harbutt and Kent Trendall competed in the high jump and the javelin at the State Independent Schools Athletics. Joseph Barker progressed well with his karate skills. Tristan Briers helped organise the Nintendo stall at the Fair and Chris Brown helped the Buckland squash team come second on the House sports day.

## 10AHy

have had a successful year. We have enjoyed many Tutor activities including go-carting, cinema trips and a McDonalds lunch. This has all been due to the hard work of Mr Hyland. There have been a wide range of academic and sporting achievements in our Tutor Group including David Millington who won the English Short Story Competition. He was in the top percentile for the State English Competition and he rated in the top 0.7 % in the Australian Geography Competition, which was quite an achievement. Nick Parker travelled to Perth to represent the State and School in the National Teams Racing Championship for sailing. Jacob Chambers won selection out of 200 people to do the Defence Force Awareness Tour and Adam Stankiewicz won the State division of the Plan Your Own Enterprise Competition.

## 11SYo

has had a great year. Our second year of being a group has led to a somewhat relaxed, yet organized and smoothly running environment. Jobs held by students within our Tutor Group are as follows: Tutor Group Captain- Adoni Astrinakis, Vice-Captain- Sutthaharon Manoharan, Library- James Bender, SRC Representatives- Matthew Banks and Lou Edwards, Absentees- Phil Freeman/Alex Reed and Notice Board and Room Appearance- Nathan How. As you can see, everybody has a role to play in helping to support this co-operative and enjoyable environment. Mr Young taught us all we need to know about a study regime, basic facts of life and general skills. The new addition to our Tutor

Tristan Hughes at the House Chess. Note the look of success!

group was an exchange student from Italy, Alberto Vannetti. Thanks go to Mr Young for putting up with us for another year, and we are all looking forward to resuming our group once more in 2000.

## 11MFi

have had a very productive year with a lot of achievements from everyone in the class. Jason Siu won the Share Market Game. Bryce Taplin and Alistair French had a very successful sailing session winning the majority of their races, and Sam Heaven and Bryce Taplin acted in the Senior School Pre-tertiary theatrical production "Our Country's Good". Overall it has been a great year for 11MFi and we all thank Mr Fishburn for his effort in looking after us.

## 12CSm

Our final year at school has been a good one for 12CSm. In first term we welcomed a new teacher, Mr Tom Daly as our temporary Tutor for the term. Then, in second term Mr Curtis Smith, from Texas, took over. After overcoming his initial difficulty understanding our Australian accents, Mr Smith settled in very well, and has been a good Tutor and friend since. Our class has been a committed group and every activity this year saw a 12CSm boy join in. From the House Drama in Term 3 (which Buckland 'almost' won), to the numerous sports carnivals, Buckland was always very vocal in it's support.

Buckland won the prestigious House Grill this year, which is a long-running competition between Buckland and Stephens House.

Being in Year 12 this year brought various positions of responsibility. 12CSm had a few School Prefects this year, and many of its members were House Prefects. They all contributed to the School and the House with real spirit and commitment. We thank Mr Daly for his encouragement and loyalty to the House; and Mr Smith for his invaluable support throughout the last couple of terms. We are leaving Hutchins on a high note thanks in part to these two tutors and the strong friendships we have made within the group.

## 12PCr

has experienced an enjoyable year. Ian Wilson and Allan Johnstone were the Tutor Group Captains. Alistair Kan and Aaron Buckland gave the Captains magnificent support as Vice- Captains.

The Tutor Group has performed very well academically, which has played an important part in Buckland's success in the academic component

of the Cock House Competition. Notable achievements from Tutor members include: Ian Wilson who achieved a High Distinction in the Chemistry Quiz; Ben Wild who achieved a Distinction in the National English Competition; Alistair Kan and Simon Shaker who achieved Distinctions in the Chemistry Quiz. Prefects in our Tutor Group included Ben Wild, School Prefect, Sam Shelley, House Vice-Captain, and House Prefects: Kyle Brown, Tim Polegaj, Sam Shelley, and Nathan Winter. Anniversary Tie winners included Alistair Kan, Matthew Ferguson, Allan Johnstone and Ian Wilson.

Sporting achievements included Cap winners: Aaron Buckland - Tennis, Tim Polegaj - Cricket and Football, Andrew Tennant - Rugby, Ben Wild - Volleyball, Nathan Winter - Cricket and Basketball. First Colour winners included: Kyle Brown - Rugby, Matthew Ferguson - Soccer, Alistair Kan - Badminton, Ian Wilson - Rugby, and Nathan Winter - Soccer. Second Colour Winners included: Allan Johnstone - Orienteering, Sam Shelley - Cricket, Simon Shaker - Volleyball, Chris Sykes - Soccer, and Ian Wilson - Orienteering.

Captains of sport were Aaron Buckland - Tennis, Nathan Winter - Basketball and Cricket.

Many positive suggestions have been passed to the SRC through our class representative Ian Wilson. The Tutor Group has also been heavily involved in button-selling, the Anglicare Doorknock and the 40 hour famine appeal.

All in all it has been a good four years for the PCr Tutor Group and our success would not have been achieved without the constant support and help of Mr Crofts. Thanks!

## From the Housemaster

It has been a strange year for both myself and Mr McLeod. Firstly we have seen very little of each other, because whilst I was getting lost in the immense crowds of India, he was sorting out locker keys, going to meetings, organising House sports, looking after the pastoral care of the House (as well as David Blackwood), and generally doing all those things that take up a Housemaster's time.

My family and I had an enjoyable break, firstly trekking in Nepal, and later sampling the sites of Egypt, Israel, Greece and England.

I would like to thank Jamie and all of this year's leavers for their support. I would also like to extend my thanks to the Tutors in Buckland House. It has been a good year.

## House Captain's Report

At the start of the year I wondered if School House could become an even tighter group by enhancing the house spirit, camaraderie and unity. The question was asked and the boys answered, not with what they said, but by the way in which they behaved. Never giving up, never dropping their heads, always supporting their house mates and working together as one in the hard times and savouring our victories when the opportunity arrived.

Unitas Et Praestantia, united and working together, is the motto that School House has adopted, and I believe defines School House. Every member of the house that I have approached has said he is proud to be a member of this brotherhood and if he had the choice, he would choose to remain with the 'Blue Boys'. The feeling of belonging, knowing that your mates are supporting you no matter

what and being a part of a unified group allows the boys to experience something they may never encounter again. This is what makes being a member of 'The Hass' so special. From these feelings of belonging and unity stems the well renowned spirit and determination of the House. It is this determination and spirit, as well as the outstanding leadership from senior boys and Mr Rae that has seen School House achieve so much in 1999.

The House is finally re-emerging as a force in many cultural activities illustrated by an outright win in the house music and a very convincing second in the drama. Gone are the days of School House being seen as only succeeding in sport. With this change the House has become one, with no more prejudice separating members of Burbury House and day boys.

Other achievements for School House have included firsts in the rugby and senior debating and a very impressive second in the swimming at the start of the year. The involvement of the entire House has been outstanding, with School House boys making up the majority of those who participated in various doorknocks and the organisation of lunches which were enjoyed by everyone.

I would finally like to state that I have been a member of School House for over three quarters of my life and I will be sad to leave the community, House members and mates. I would like to thank the executive for their help and support this year, and give a special thanks to Mr Rae and the tutors for their guidance and encouragement. I have thoroughly enjoyed being your captain in 1999 and I wish School House all the best in the future.

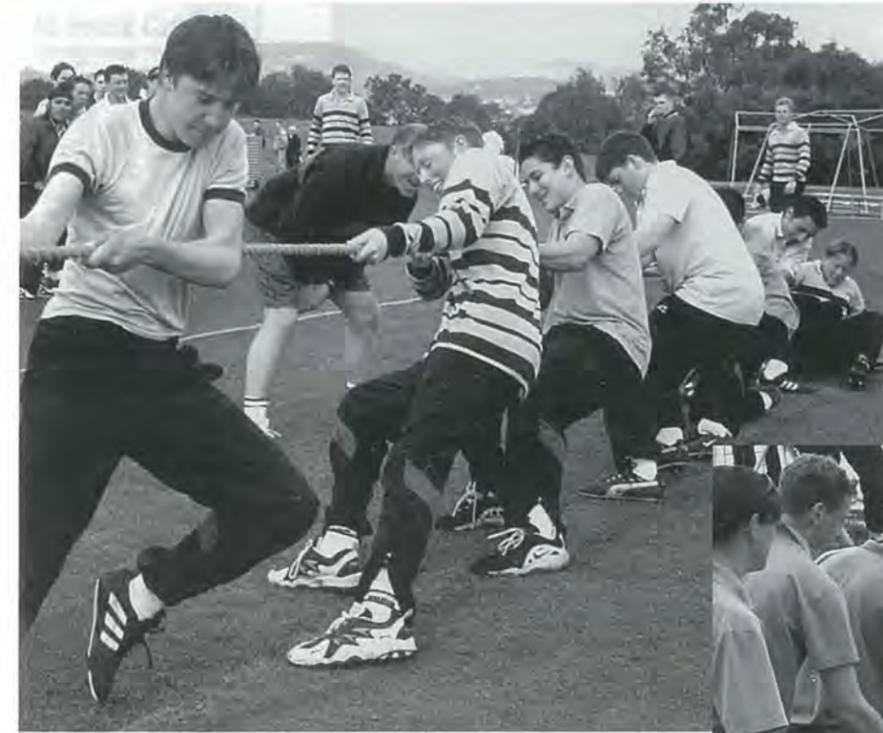

*Luke Doyle  
House Captain*

### Housemaster's Report

The year has been a rewarding one across a wide range of pastoral activities. The House has enjoyed broader success in the inter-House competitions. House publications have displayed skills in both design and content. This has generated wide interest and appeal amongst the readership. Social activities have been well organized, smoothly run and well received. In 1999 the leadership and support of the Year 12's has contributed significantly to these positive outcomes.

The inter-House scoreboard suggests that once again we did not have the talent enjoyed by other houses. Nevertheless, as a House we experienced great strides in a number of areas. At the commencement of this year there was an emerging sense of determination within the senior ranks. Sam Shoobridge and Nathan Moore cemented this approach in the House Swimming where School House enjoyed its best result this decade. A great team effort saw a wonderful second place achieved. Music too, under maestro, Patrick Hamilton, was both well organized and rehearsed. School achieved first place in both sections. Congratulations to those who contributed to the wonderful entertainment. The rugby team demonstrated what spirit and commitment can achieve when harnessed positively - and Orienteering, under the leadership of Tom Waters, provided inter-House success for the second year in a row. The House Drama cast, headed by James Shoobridge and Daniel Copping, deserve

acknowledgement for their excellent performance in the comedy "Bouncers". In all other inter-House events, the contribution of participants has been excellent, whether as participants in fixtures, officials or spirited vocal support, for which the House is renowned. This is very reassuring.

The publication of high quality newsletters have reflected the commitment and enthusiasm of Tod Sirawattananon and Keith Meure. Newsletters are an important medium in strengthening House identity. So too have been the term lunches held in Burbury House where many boys across the age groups have demonstrated valuable organizational skills. In addition to this, Macdonalds lunches have again proved popular with the younger grades. The family chapels continue to reflect growing support amongst the parents and students. The programme for the final service involved a significant number of students, was innovative and importantly, a most enjoyable occasion. We look forward to more such events next year.

In 2000 there will be two significant changes. Firstly, all boys need to make effort in academic work

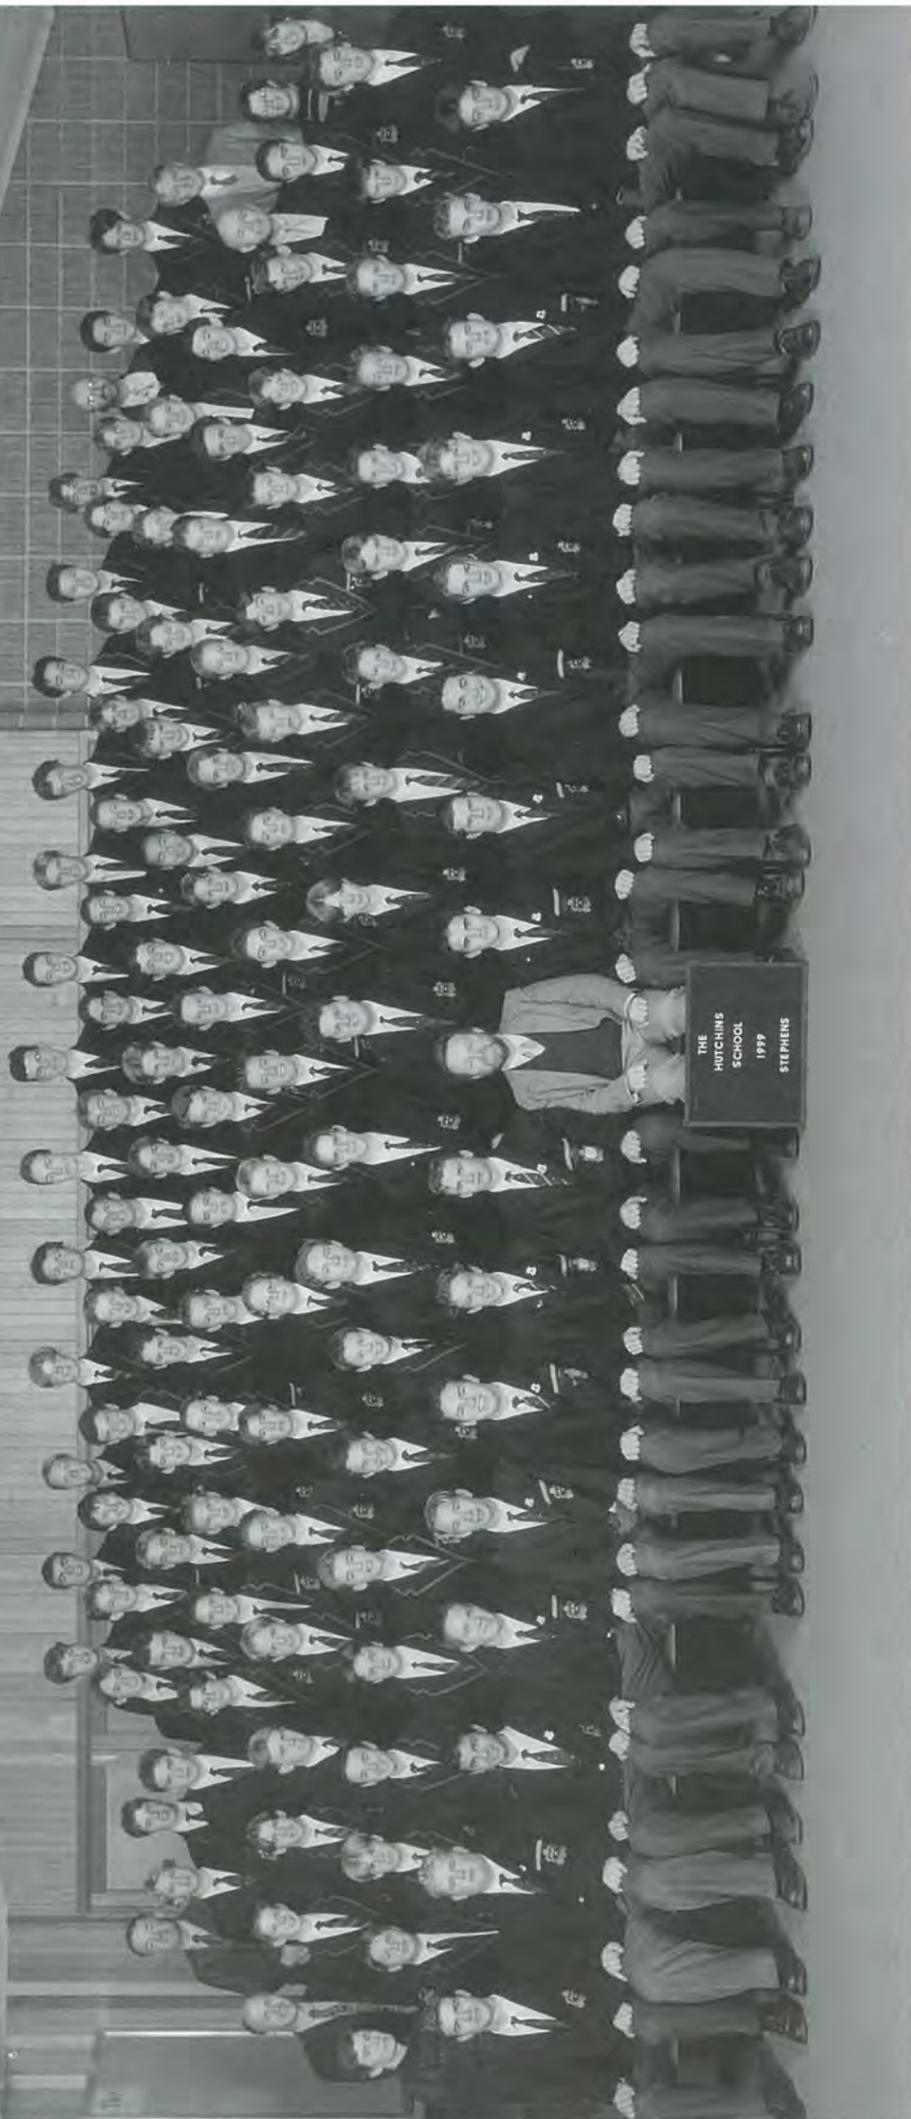

a priority. The collective effort in term three was very good, however, this needs to be reflected consistently through the year because there will be a new inter-House award for next year, specifically for academic effort. We could be the inaugural winners if enough boys demonstrate self-discipline and apply themselves to their studies in term one. The organization of vertical tutor groups is the other major development for 2000. We will have seven tutor groups, plus an administrator to assist with the organization of most House matters.

Special thanks are extended to Luke Doyle for his wonderful leadership where loyalty, energy, enthusiasm and concern for others were so evident. The House Executive and Year 12 students provided excellent leadership. There has been a consciousness of the importance of

positive role modelling here. All members deserve praise for their broad contribution to the House. Finally, our tutors continue to give generously of their time, guiding and monitoring all student needs. Their collective efforts are greatly appreciated.

# Stephens House

## The House Captain

One of the major challenges facing Stephens House in 1999 was the restructuring of the tutor group system. The diversity of the cross-age groups was designed to foster a greater sense of identity and corporate spirit within the House. In addition, it makes an important contribution to the educational priorities which underpin the entire program at Hutchins; student leadership, a strong empathy for others outside the age peer group and a greater sense of accountability to a more diversified tutor group. Through combining year groups we have attempted to bridge the gap between younger and older boys.

Initially I was sceptical, thinking this system may have weakened the cohesiveness within the age groups and curtailed the freedom granted to older boys, removing one of our time-honoured rites-of-passage. In retrospect, I believe the introduction of the cross-age tutor groups has been well accepted and has contributed to the success of Cock House this year.

I would particularly like to thank Mr McQueen and Mr Stacey for their guidance and tireless efforts throughout the year. Many thanks must also go to the House Executive for working constantly and contributing to the smooth running of the House; to the tutors and especially to the Grade 12's who made 1999 a year to remember.

Finally, I would like to thank the people who gave me this opportunity which has been undoubtedly a great challenge and a valuable experience, in a school that I am proud to have been associated with.

*Nick MacLeod*

*House Captain*

## Stephen's Victorious Year, 1999

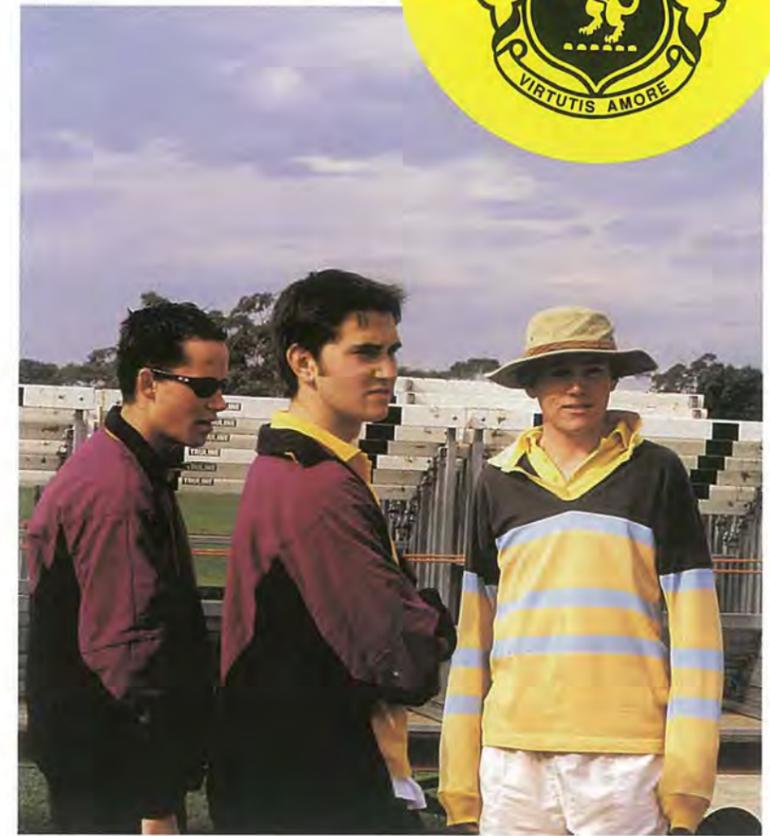

### Term 1

#### Tuesday 23 February House Swimming:

The House Swimming results provided a great start to the Cock House competition. Lively support from the crowd spurred on notable performers; Aaron McKibben, Derek Flakelar, Edward Moase, James Toppin, Simon Gardner, James Eddington, Sam MacMillan, Chris Wagner, Sam Madden and Peter Cerny.

#### Thursday 11 March Summer Sports Day:

In table tennis John Campbell and Arthur Pitman contributed well to their team. The orienteering team did well with Matthew

*Phil Vogel, Mark Groom and James Beamish in his bat*

Gardner and Patrick Harradine putting in a strong effort and Josh Marsh filling in a vacant position when we needed him. Jeremy Behrakis and Ben Dermoudy represented their team well at Kingborough with Stephens coming first. Chris Rudge, Mark Allen, John Playle, Sam FitzGerald and Andrew Rudge won the tennis convincingly over more experienced players.

Out on the water, Finn Dorney, as captain of sailing, and others such as Stewart Wells, Marcus Ashley-Jones and Adrian Clark fought hard to outrank other Houses. James Stoessiger represented the House in surfing. Hugh Brolsma, Harry Pugsley, Nick MacLeod, James Baker, James Troon and Alasdair Grenness also put in a great effort in rowing.

In cricket, Rowan Ashby, Ben Taylor and Charles Schreuder put in their best effort while Jason Clark and John-Paul Mitchell were part of the winning basketball team.

Keitaro Yasuda and Richard Charlton spoke superbly in the Impromptu Speaking while Christian Rainey showed everyone how a golf competition should be organised.

#### Wednesday 5 May Winter Sports Day:

The House rugby team faced adversity, short in

numbers but with Hugh Brolsma as captain and team members such as Mark Groom and Stuart Ecob putting in a great effort, the team fared well. Daniel Woods played volleyball. James Beamish, Ben Creese and Sean Le Rossignol represented the House in hockey while Andrew Browne was part of the winning squash team.

The badminton team captained by Zaheer Khan and including Jesse Plumb, Anthony Kelsall, Alex Tozer, David Roberts and Andrew Summers enjoyed victory. In the soccer, Andrew Deane, Robert Knight and James Symmons lead us to a fine victory. Pryderi Jones, Monty Hutchins and David Johnson represented the House well at Kingborough.

Our football result was outstanding. Tom Windsor, Michael Walsh, Richard Hallam, Rhys Long, Tom Gibson, Brent Commene, Cameron Burgess, Alex Thomson, Hugh Griggs, George Friend, Blair Browning, Luke Sorrentino, Jay Long Simon Gardner and Liam Nicols all contributed to the superb team win.

#### Sunday May 16 Family Chapel:

As always, Joe Aston was extremely helpful playing the piano. Rodney Smith and James Porter with the reading helped make the event so successful.

#### Monday June 21 Music- Jazz:

Our band consisted of Nick Smithies, Richard Salter, James Harrison, James Toppin and Jesse Plumb. James Field, put his heart and soul into singing "Cats Eyes", a song so incredibly catchy that I heard Housemasters humming it as they made their way to the door.

#### Term 2

##### August Autism Conference:

Andrew Deane, Joel Sorrentino, Adrian Bold, Finn Dorney, Mathew Jackman, Daniel Woods and Felix Blackler were part of the group which provided much appreciated community service through this and other Lend a Hand activities.

Brent Commene and Harry Pugsley

#### August 16-23 The Stephens House Festival:

This was a chance for all Stephens members to celebrate being part of the House and also an opportunity for Year 11s to demonstrate their leadership abilities.

Musical skills were displayed on the Monday. Robert Catchpole and Andrew Graeme-Evans organised one of the most successful music competitions in years, giving competitors the chance to show their lyrical creativity.

On Tuesday, at lunch, the art competition was held. Peter Cerny and James Jenkins did a great job putting the art competition together and bringing out the artistic talent in all of us. Also on this day, was the writers' lunch with a superb guest speaker organised by Shaun Wallbank.

On Wednesday, the house hop, with Richard Griggs assisting, was a lot of fun. That night, The House Night was held. The spirit of the House was reflected in the large number who attended. Thanks must go to Peter Bardenhagen for his efforts here.

Thursday, and Luke Sorrentino and the Year 9's provided a delicious tutors' recess. Sam FitzGerald also helped out, holding a very successful formal House Lunch that was very different from previous years and set the standard for the future.

To start the final day of the festival many including John Cooper attended the house breakfast at McDonalds. Later that day, James Laird and Jamie Shearing held the spectacular drama competition. Some talented participants, including Alex Finnis, put in a great effort.

Alex Deane was responsible for the overall organisation and Andrew McCann also produced the notices for every event, resulting in a festival that was a great example of what can be achieved with House spirit, mateship and pride.

#### Wednesday August 25 Athletics:

The athletes provided lots for the house to cheer about with fantastic wins and superb performances such as the 5000m runs of Tom Stove and Hugh Brosma.

#### Final Week Term 2 Drama:

A large cast including; David Halvorsen, James Laird, Jamie Shearing, Richard Charlton, Mark Kramer, Hugh Miller, Felix Blackler, John Eland and Tom Windsor under the direction of Chris Hamnett, put in a fine performance.

#### August Debating:

Tom Giblin, David Roberts, Adam Foster, John Morey, Hugh Richardson all assisted in coming second.

Edouard Kelly flew off to Brazil for his holiday.

At the swimming

#### Term 3

##### Week 3 Music - Rock:

Robert Catchpole, Scott Lovell and Cameron Sherriff were all members of the band that played 'Whole Lotta Love' by Led Zeppelin, definitely the crowd favorite.

##### Chess:

Black and White pitted against each other. Bice Dibley, Mathew Jackman, Grant Miller, Ben Tallboys and Paul Orłowski put in their best effort to finish equal second with Buckland.

##### House Song:

Developed and written by James Murdoch, Adam Smark, Cameron Sherriff, John Eland and Nick MacLeod, it was received well and is sure to feature in future Stephens House functions

##### Fair:

Mark Playle participated superbly, as he has all year with the fountain. Lee Richards with his lucky jar contribution was typical of the many who contributed to our Fair effort.

Finally: a very happy year, thanks to the quiet support of everyone from longtime House member Rohan Clifford to our Special Guest exchange student Phil Vogel.

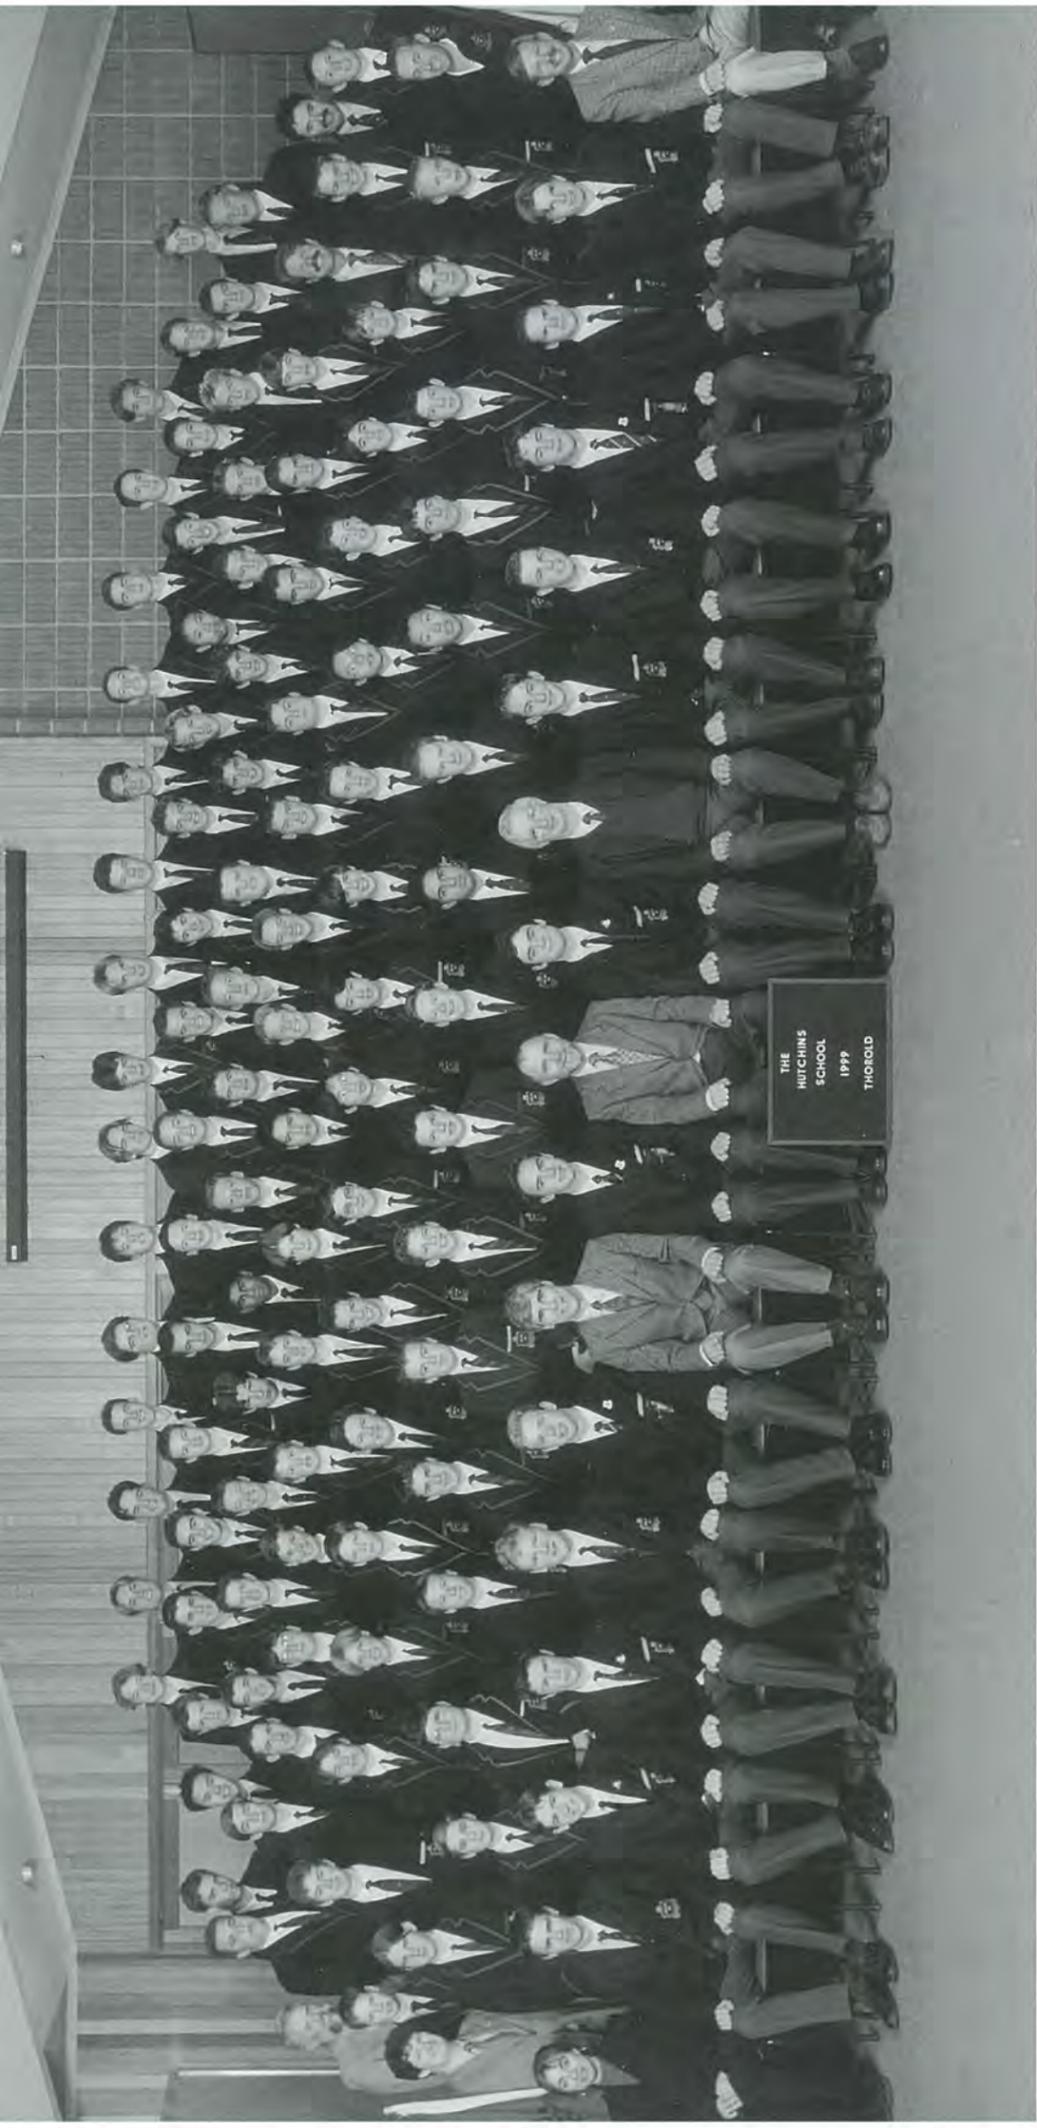

Andrew Rudge

#### Year 12

As can be said of the entire school, the strength of our House lies in its personnel. We have a delightful complement of students and a very professional group of tutors. This year we farewell Mrs Joanne Cook, thanking her for her year as a tutor with us, and it is with sadness that we farewell Mr Rex Beamish from the school. He has been a loyal and dedicated Steves tutor since the inception of the revamped House system.

This year our experiment with the cross-age tutor groups could have been a very difficult exercise. There were no signs of any such difficulty because of the good humour of the boys, the unquestioned dedication of their tutors and the enthusiasm and efficiency of our Administrator, Mr Stacey. Little wonder that I am so very proud of Stephens House.

Mr I McQueen  
Housemaster

# Thorold

## The House Captain

Thorold started off the year with a number of goals in mind. They were to continue the school's push on academics, to promote unity between the year groups within the House, and to succeed in the Cock House competition.

Thorold has been strong in academics for as long as I can remember. This year Thorold once again showed its academic strength by convincingly winning the Cock House academic section.

The House was united throughout the year by both frequent meetings and a number of memorable major events. Examples were the very successful family chapel service and the talent search assemblies.

In the Cock House competition Thorold got off to an uncertain start with a third place in the swimming carnival and a number of upsets on summer sports day. However, we knew that our strongest events were yet to come.

At the half way stage of the competition we were in third place. Stephens had been too strong in the first half of the year and were all but out of reach. However, Buckland, in second place, were well within striking distance.

There was a change in Thorold during the second half of the year. Inspiring wins in competitions such as athletics, drama, debating and chess led to a surge in House spirit enabling us to take second place from Buckland.

As the athletics carnival rolled around House confidence was at an all time high. We won this event last year and had a very strong team again this year. However, hopes were dashed when it was learned that some six of our top athletes were injured. On the day of the competition Thorold rose to the occasion with numerous excellent performances. We stole the win from Stephens at the last minute. Truly a great performance.

House Drama was another success story thanks to Simon Martin and his team. The amount of effort put in by those involved was truly awe

inspiring and led to a polished and thoroughly enjoyable performance.

This year marks the retirement of the noble Mr Cripps from the House and the school. I am sure everyone has appreciated his efforts and dedication to the House over the long period he has been involved. I know we will all miss his good humour and witty comments as we walk down the corridors next year.

I have really enjoyed this year and feel that it has been successful. Our aims on the whole have been achieved and I will look back on 1999 with fond memories. Thank you to everyone involved with Thorold this year, especially to Mr Overton for his guidance, and vice-captain Alastair Walsh for his help. It has been a great year.

*Michael Asbbolt  
House Captain*

Thorold House Executive 1999. Mr S Cripps left back row

## The Housemaster

Michael has outlined the success of our House in academics and sport in 1999. The year group reports which follow highlight individual success. There have been the 'superstars': Nathaniel Symmons' national selection in water polo, Michael Gozzi's role at the Community Leaders Search Conference, the O'Connor brothers in Judo, Tim Hazell's drafting to Hawthorn, James Cameron – an international competitor in rock climbing ...

These members of Thorold have enjoyed great success. But what is important to me is that each person in Thorold knows that he or she (including staff) is valued, each has made a contribution. Thank you to each of you for your part in making Thorold House an enjoyable community within Hutchins in 1999.

No one deserves a thank you in this regard more than Mr Stuart Cripps, Housemaster of Thorold 1985-91. We all enjoyed the special assembly organised by Mr McNamara to honour him. "Stuart Cripps this is your life" will long be remembered. We were privileged to have past headmaster Rev Dr D Clarke and two of Mr Cripps' past students: Messrs C Drury and L Morrisby to help us reminisce.

No one on the staff at Hutchins has been more supportive of Thorold House over such a long period than Mr Cripps. Following the assembly Mr Cripps presented the House with a tapestry which he had crafted "The Monarch of the Glen". Thank you and every best wish to you Mr Cripps.

Best wishes to all our 1999 Leavers. You have each made your individual contribution to Thorold and Hutchins. Now enjoy all the future holds for you. This is the end of one experience, but the future holds so much more.

*Mr J Overton  
Housemaster  
(P.S. Remember to set the alarm clock, Ashy!)*

#### Year 9

This year, Year 9 Thorold has been fortunate to have the ever-vigilant guidance of tutors, Mr McNamara and Mr Moore. Without them, Year 9 would not have had such a successful year, excelling in all areas and exceeding all expectations!

James Cameron, an expert in rock climbing, came second in the under fifteen division of the National Escalade Festival, second again in the Tasmanian State Titles and first in the Pitch Competition. James has also been fortunate to compete in the prestigious American Touchstone Junior International Invitational Championships, held in San Francisco, where he was placed seventh.

In academics Ben McKay achieved a High Distinction in the Australian Mathematics Competition. Ben and Jon-Ho Chan both came equal second in the State in the Australian National Chemistry Quiz, with Timothy Cooper also gaining a High Distinction. Jon-Ho came first in the under sixteen Tasmanian Junior Chess Championships and Nathan Young achieved a High Distinction in the Australian Schools Computer Studies Competition.

There were numerous excellent individual achievements throughout the year. Drew Latham represented the school in Perth for sailing, and

*Thorold Debating Team: Eric Daniel, Simon Martin, Tim Starkey*

came second in Australia in the Nationals for 12ft cadet dinghies. Adam Batchelor won the Southern Tasmanian C-grade Grasstrack Championships in motorbiking. Jonathan Haynes came fifth in the under fifteen division of the Interschool Cross Country and second in the 200m hurdles and relay at the Interschool Athletic Carnival. Jonathan also competed well in kayaking this year. Andrew Egan was a member in the winning swimming teams for the freestyle and medley relays, which came first in the SATIS and State Competitions. For House Drama Ben McKay was a member of the winning Thorold team. Matthew Drury, Andrew Jackett and Paul Ancher were selected in the under fifteen State Cricket Squad.

*Jon-Ho Chan*

#### Year 10

1999 has been a year of great achievement and endeavour for Year 10 Thorold House boys.

In sport, four members have represented Tasmania at National Championships. Peter Ayliffe played in the State U16 Hockey side, Ben Crosswell played for Tasmania in the State U16 Soccer side, Sam Halliday played State U18 Water Polo and Cameron Wurf won a gold and a bronze medal at the National Rowing Championships.

Also four boys represented the school at first level, a significant achievement considering their age. These boys were Greg Irons (Volleyball), Duncan Forbes (Squash), Ben Crosswell (Soccer), and Sam Halliday (Water Polo and Football).

Hugo Brettingham-Moore, Peter Ayliffe, James Seddon, Cameron Wurf and Sam Halliday were all members of either the school swimming, athletics or cross-country teams and competed with determination for their school.

In the arts, Year 10 Thorold boys were plentiful in the Thorold presentations for both Drama and Music. Greg Irons, Tim Green, Patrick Durkin and Jon Owen were all members of the successful 1999 House Drama team. Patrick, Greg, Tim, Mathew Finlayson and Sam Harvey made up the entire Thorold House Music (Rock section) team, putting on a highly polished performance.

Academically, boys have done well. Ian Pang received an Academic Excellence and Academic Effort certificate. David Alcock won a High Distinction in the Australian Geography Competition and Sam Halliday a Distinction in the Australian Mathematics Competition.

All in all, 1999 has been a very successful year.

*Sam Halliday*

#### Year 11/12

Years 11 and 12 were combined into three tutor groups in 1999. The tutor groups were ably lead by Mr Webber, Mr Calder, and Mr Servant.

Simon Martin (director) and Nick Dodd, along with many others, put on a fantastic performance for the House Drama competition. Their first place in the House competition was thoroughly deserved.

Sebastian Carr and Alastair Walsh rowed in the First VIII and won the Head of the River and State Championships. They also competed at the National Schoolboys' Championships in Adelaide placing third. Also at the schoolboy nationals Nick Dwyer was placed second in the single scull competition.

James Green, Jeremy Scott, Jamie McLoughlin and Richard Headlam were members of the premiership winning open hockey side. James was the highest goal scorer for the season and Richard was also selected in the State U17 hockey side.

Matthew Smith and Scott Wells both competed strongly at the Southern and State Athletics. Scott broke the 24 year old 100m record winning that race and the 200m at both championships. Matthew won the 100, 200 and 400m and the relay at both championships. Shaun King was also a member of the winning open relay team. Michael Ashbolt was Vice Captain of the School Athletics Team, Captain of the School Sailing Team and a member of the school Swimming and Cross-Country teams.

Nathaniel Symmons made the Australian U18 Waterpolo team and also competed for Tasmania in the National Schoolboys Waterpolo Championships. Blake O'Connor won the under 66kg section of the Australian Judo Championships. He subsequently attended a weeks training at the Australian Institute of Sport and has also been invited to compete at the Oceania Olympic Qualifying Games. Tim Hazell had an excellent season playing for the Tassie Mariners football team and attended an AFL draft camp in October. His performance throughout the season and at the camp impressed the selectors so much that he has been drafted to the Hawthorn Football Club for next year. Matthew Fishburn competed at a high level in four first teams this year. His performances resulted in four cap awards (basketball, rugby, tennis and volleyball) and an honour badge.

## The Director's Report Saying 'Yes' to Boarding

The boarding community has had a very settled year with a very positive and supportive culture generated throughout the year. It has been a year which has seen some significant changes and this culture has sustained the community throughout. The commencement of three new staff members – Mr Steven Mavrigiannakis, Mr Matthew Brazier and Mr Tim Whelan; the transition to Spotless catering; the introduction of pastoral tutor groups and the installation of cable television have been accomplished very smoothly, largely through the goodwill and hard work of all within the community.

The departure of the members of the kitchen staff who had rendered so many years of excellent service to the community – Mrs Liz Cochrane, Mrs Berice Grubb, Mrs Dulcie Evans, Mrs Debra Jordan and Marie Lillyst was a difficult time for the community. The Spotless staff, under the leadership of Mrs Vanessa Broadbridge, have provided a very efficient alternative.

I would like to thank the seniors who have worked so well with staff to conduct the daily operations of the boarding house, adhering to the administrative guidelines but with an understanding of the individual needs of all members of the community. In particular, I would like to pay tribute to the excellent contribution that the Captain, Ben Gray, has made. He has evidenced an admirable

willingness to represent and serve the needs of the student members of the community. He has made a palpable contribution to the welfare of his student colleagues and he can feel very proud of his efforts.

The staff have provided excellent leadership within the community. Their willingness to participate in the new pastoral groups has done much to secure the positive and supportive culture within the community.

The contribution of the parents has been greatly appreciated. The Burbury House Support Group has again had a very active year. Barbecue facilities were installed adjacent to the kitchen area. New seating was provided within the senior television room. The community is very much indebted to the efforts of both the outgoing executive, Mr Craig Ellis, Mr Bill Webster and Mrs Stephanie Burbury and the current executive of President: Mr Bill Webster, Secretary: Mrs Sarah Nicholas, and Treasurer: Mrs Stephanie Burbury.

In all, it has been a very settled and supportive community. I have greatly appreciated the efforts made by everyone to secure the very best environment and facilities possible. I have appreciated the endeavour and enterprise evidenced by so many within the community. The contribution made by the resident and ancillary staff within the boarding house has been excellent. Their efforts and energies have been tireless.

To those that leave us, both staff and students, on behalf of the rest of the community, I offer thanks and our very best wishes. To those

that remain, I offer my thanks and congratulations on a fine year. Let us build on this momentum next year.

*Mr A Morley  
Director of Boarding*

### **The Captain's Report**

The year 1999 in Burbury House was one of exceptional achievement. It saw the House develop into a compact and prosperous community. The environment has been mostly a happy one and there has been much room for personal development and camaraderie. This year has also allowed many of the House to reveal their true colours in many academic, sporting and extra-curricular areas.

1999 saw the rise of tutor groups within Burbury House, which were placed under the authority of one of the masters and the two seniors subordinate to him. This was an excellent development and it allowed many avenues to be opened that were not available to past students. Through the new system the students were able to form a more workable bond with the masters and seniors making for a less hectic year. These tutor groups were also the basis for many types of group activities such as swimming, bowling, rock climbing and watching movies. Many of the activities were combined with the Collegiate and Fahan boarding houses. But this system was not just a basis for having fun. Through the system, masters were able to follow closely a student's academic progress and to identify any problem areas and remedy them. This has been of great benefit to many of the younger members of Burbury House.

In the sporting arena there have also been outstanding personal performances. The House has been represented in the First VIII rowing squad, the First XV Rugby team, the First XVIII Football team, as well as many other successful teams throughout the school. It has been a great year and has seen the rise of many future sporting leaders of the school.

Extra-Curricular activities have also been a major focus of many of the members of the House. There has been involvement in nearly all the areas of the school ranging from the Hutchins Parliamentary Assembly to organizing and providing technical support at the various Socials throughout the year. The House was also well represented throughout the leadership positions of the school. There were House Prefects, Captains of Sporting teams, the leader of the Hutchins parliament, a School Prefect and members of the SRC. It has been a great year for leaders within the House.

1999 also saw the rise of a new group of Boarding House seniors from the ranks. Many of the boys who made up the leaders of the House this year had been members since Year 6 and 7 and were extremely familiar with the internal manoeuvrings and conduct of the House. This was reflected in their leadership this year and an environment was created in which there was a happy and noticeable comradeship between the members of the House, young and old. This year there was great interaction between the older and younger members, which has been lacking in previous years. This year would not have been as successful as it was without the support and leadership of the Year 12's and their example to the younger members of the community.

This year has been an excellent opportunity for development and camaraderie. There have been great steps taken towards the future of Burbury House and younger members have shown their true value. The House has performed well throughout all areas of the school and this year it has a record to be proud of. But none of this could have taken place without the caring and helpful manner in which the staff of the House interacted with the boys and the way in which they were able to deal with any complications that arose. Their actions were exemplary. Great thanks must also go to Mr Morley for his leadership of Burbury House throughout the year and his unwavering support and guidance. His conduct in dealing with internal matters of Burbury House has been admirable and he deserves recognition for the part he plays within the House. I wish all members of Burbury House good luck in future years.

*Ben Gray  
Captain of Burbury House*

*Patrick Durkin abseils down the fire escape*

# International Exchanges

### **Curtis Smith**

Curtis Smith is on a one year teacher exchange with Mr James McLeod. Curtis is from St Mark's School of Texas, Dallas, Texas, USA and he arrived at Hutchins in June 1999. He is teaching Senior School English and Middle School drama. Curtis is accompanied by his wife, Lynne, and his five year old son, Luke. Luke is attending Hutchins and is currently in Mrs Amanda Sargent's Prep class.

### **Cathlyn Gieselman**

Cathlyn Gieselman came to Hutchins in February 1999 for one year as a Prep School teacher. Cathlyn is a teacher at University School, Cleveland, Ohio, where she has taught for four years. She holds a teaching certificate under the State of Ohio and has completed a Masters Degree in Education from John Carroll University, Cleveland, USA. Cathlyn will return to her position at University School in December.

### **Sam Warren**

Sam Warren came to Hutchins from Worcester, England in September 1998 to work as a Gap student for a year. Gap students are attached to the Physical Education Faculty and assist with the Outdoor Education program. Sam was tremendously popular with both staff and boys. He was proficient in many sports, and was a keen canoeist, rock-climber and abseiler. He also held the British Alpine 3 Star Award for Skiing. Sam returned to England in mid 1999 to study at Sandhurst Military Academy and pursue a career in the British Army.

### **Nicholas Bryant**

Nicholas Bryant commenced as a Gap student at Hutchins in February 1999. Nicholas is from Cape Town in South Africa. He was a student at Wynberg High School, Wynberg, South Africa, and is the first Gap student from the school to come to Hutchins. Nicholas' family runs a large sporting footwear manufacturing business in South Africa. He is tremendously athletic and energetic and one of his main interests is marathon running. Nicholas benefited enormously from his time at Hutchins.

### **David Jenkins**

David Jenkins came to Hutchins in September 1999 for a year as a Gap student. David is from Sheffield, Northern England. He enjoys mountaineering, skiing, bushwalking and a variety of sports. He is also a musician and plays the oboe, both privately and in concert. When he returns to England in 2000, David will commence a degree course at the University of Liverpool, and he wishes to pursue a career in forensic science.

*L to R: Sam Warren, Cathlyn Gieselman, Chris Sykes, Nicholas Bryant, Curtis Smith, Lyn Smith and Philip Vogel*

### **Christopher Sykes**

Chris is a student from Carnduff, Saskatchewan, Canada. Carnduff is a small town of about eleven hundred people, situated in the extreme southeast corner of the province. Chris is a serious student, who was awarded the prize for the most diverse student at Carnduff High School each of the three years he attended. Chris is seventeen and is in Year 12 at Hutchins. He particularly enjoys soccer and volleyball. His hobbies are reading, writing, fishing, swimming and especially listening to music.

### **Philip Vogel**

Philip is from Harrismith, on the high veld of South Africa. He previously attended Grey College in South Africa, and is on a year's exchange at Hutchins, currently in Year 12. Philip is a dedicated long distance athlete and sportsman, who loves adventure sports such as aggressive inline skating and scuba diving. He likes to relax by roller-blading with his friends and listening to a wide range of music. When he leaves Hutchins, Philip plans to study Engineering and Law.

### **Alberto Vanetti**

Alberto is from Varese, a small town near Milan. He is spending a year at Hutchins as an exchange student and is in Year 11. He enjoys playing tennis, soccer, baseball and swimming. His other interests are music and his computer.

### **Andreas Schreiber**

Andreas spent three weeks in Year 12 at Hutchins in Term 2 1999. He is from Munich in Germany, and his interests are skiing, bicycling and travelling.

# The Curriculum

## The Director of Studies

What a pleasure to report on last years results and developments this year!

### Exceptional Year 12 TCE Results

Last year was a magnificent year for academic achievement with outstanding results at a state level. Our leavers covered themselves with academic glory. The number of boys who qualified for university entrance rose from 74 the year before to 92 last year. This is the second highest number ever. Hutchins achieved the highest number of perfect Tertiary Entrance Scores of 100 in the state. This does not mean that only a few boys at the top did exceptionally well. What is so pleasing is that the increase in performance was across the whole year group, particularly amongst the middle level boys. One gains a measure of their achievement by looking at the mean Tertiary Entrance Score which last year rose from 60 to 66. A further measure is the improved performance of these boys last year over their own Year 11 performance. Some research has been done into why this group of boys performed so well. It cannot be attributed to an unusual general ability. What appears to have made the difference was an outstanding work ethic. The whole school family congratulates them all on their outstanding performance.

I would like to particularly recognise Chris Line's outstanding record of achievement over the last two years. I am sure he would not mind my reporting that he studied 10 pre-tertiary subjects and gained 197 tertiary entrance points over two years. In 1997 he gained outstanding achievement on four pre-tertiary subjects (ie. 78 points). Last year he gained OA results on six pre-tertiary subjects (ie. 119 points). This is the best performance by any boy to date. I have no doubt we will hear much of Chris in the future.

The following boys gained Tasmania University Scholarships: Mark Evenhuis in Arts/Law, Martin Matthews in Information Systems and Simon Binny in Biomedical Science. Marcus Yong would have received a University Scholarship in Science but wished to study Medicine. William Moase was offered a University Scholarship in Engineering but decided to study Mechatronics at the University of Melbourne. Stephen Catchpole received an Engineering Scholarship from the University of New South Wales. Phillip Bender (1997 leaver) received the George Washington Walker Trust Bank Scholarship in Commerce.

There were many outstanding individual results. In the seven year history of the TCE

only five boys have achieved perfect scores of 100: Andrew Sypkes in 1994, Richard Davis and Michael Evenhuis in 1995 and Phillip Bender in 1997. Last year there were ten perfect scores of 100. These boys deserve very special congratulations for their fine achievement : Stephen Catchpole, Adam Eijdenberg, Mark Evenhuis, Nathan Harris, Roy Kwan, Chris Line, Martin Matthews, Will Moase, Tim Pitman and Marcus Yong. Other exceptionally high scores were achieved by Simon Binny, Lucas Plumb (99), Jeff Brett (94), Andrew Beck, Peter Lockett and Tim Beckett (96), Andrew Chung and Will Lamprill (95), Richard Maddock (92), Greg Steedman (94), Nick Bamford, Ben Heaven and Matthew Williams (91), Phil Beattie and Will Mollard (90), Luke Bereznicki and Zac Johnston (89), Andrew Greenhill (87) Sam Dermody, Sam Ekins and Michael Ross (86), Edward Edgell, Matt Irons and Peter Pakulski (85), Will Gamlin (84), Tom Larkey and Alex Miller (81). I have no doubt we will hear much of these boys as they continue their studies at university.

### A Focus on Academics

The work done last year and this year has been part of a continuing effort to produce the very best academic results. By this I mean staff and students working together to enable each boy to achieve the best personal results of which he is capable. For the first time we administered academic matters together with pastoral matters through the House Tutor. Tutors have been directly involved in counselling on course choice and monitoring academic performance with the aid of reports developed on the academic database. There is a new section in the Student Diary where the boys are able to keep track of their results. This has assisted the Tutor/Parent partnership, which is so important for academic progress. There is no doubt that a key factor in academic success is improved student work ethic. The school promotes this through such activities as: study skills courses, after school tutorials, setting and checking homework, encouraging personal management skills and the use of the diary and counselling, and reporting on academic progress including effort.

### The Teaching and Learning Project

The Teaching and Learning project addresses a range of issues. The first is the unique nature of a single sex boys' school which drives us to look at how we can provide more effectively for boys learning needs in the classroom? The second is a response to developing research on

multiple-intelligence which is helping us to better understand the emotional and social development in boys. The third is a need to develop new units of study in the Middle School. Fourthly, a need to address concerns about boys and literacy and lastly, the need to provide more adequately for gifted boys.

This year the project involved teams of teachers who met regularly to talk about teaching and learning, to share teaching practice and to make our understanding of boys learning a more explicit part of teaching at Hutchins. Current research into change in schools makes it clear that collaboration between teachers is an essential component of successful implementation.

### Information Technology

Once again there was a significant effort made to upgrade our computer facilities. The Business Lab was refitted with new computers and more computers were put into the libraries. The network was extended to include the Centre for Excellence, Science Block, Early Learning Centre and the Design and Technology Block. All that remains now is the Chapel, Gymnasium and Boarding House, which will all be online by the start of 2000. The major expenditure next year will be the upgrade of the Middle School Lab and the provision of small clusters of computers in areas of the school.

### Literacy

The Literacy Committee, formed this year, was made up of staff representatives from the mini-schools. Rather than attempting to set benchmarks or cover ground that is already well worn at both state and national levels, the committee decided to look at specific ways to improve reading, spelling and writing at Hutchins. It explored a range of possibilities to extend Year 7 to 10 boys in their reading programs and suggested strategies for the school to implement. It also looked at spelling and writing, for example, finding a realistic balance between handwritten and word-processed material, and made a number of recommendations to Faculty Heads. The committee stressed the need for every teacher in every faculty to take responsibility for literacy at Hutchins.

## SRC Curriculum Executive

The SRC Curriculum Executive continues to grow and develop a broad range of curriculum activities. This year the Executive members were: Ben Wild (Chairman), Matthew Banks (Secretary), Eric Daniel, Finn Dorney (Clubs and Societies), Richard Headlam, James Jenkins (Learning Programs), Alex Deane, Richard Chopping (Curriculum Review), Richard Griggs and Alex Thomson (Activities). They have had a very busy and successful year offering an extended program on 1998.

They arranged and conducted a large number of events which included: a house 'cross-age' tutoring program for year 9 boys, a survey of Summer and Winter Sports Day arrangements, Clubs and Societies Day, a review of the Student Diary, Young Achiever Australia, a defensive driving course, a speed reading course, dancing lessons for the Year 12 leavers, the 'Battle of the Bands', the House Challenge, 3 on 3 Basketball Competition, the Beep Fest, the Hutchins Gift, Torporama and publication of a Clubs and Societies Brochure, an Examination Study Guide and a Course Choice Guide.

This year has seen the development of an SRC Intranet site where all boys have access to the working papers for each of the committees. It has also seen an expansion of the school web page site. Special credit is due to Tod Sirawattananon for the very successful overseas and exchange student site. A particularly successful feature of this year was the Scholars Conference organised by Ben Wild. Our special guest was Mr Michael Tate AC who addressed the conference on censorship. In addition, the Executive provided support for a number of school functions such as : Open Day, The Fair and the Leavers 'Funny Hat' Barbecue. It was pleasing to have a visit from senior boys at Wesley College in Perth where they are looking at developing their SRC on the Hutchins model.

Mr P Hodge

Fish Year 3

Clowns Year 3

Sebastian Godfrey Year 11

Acrylic painting Year 9

Paul Ancher Year 9

**Year 5** students have displayed initiative and great creativity in the art area. They have produced solid 'bird mobiles' and have completed skills exercises in drawing, studying bats for their form and texture. Students produced sensitive detailed drawings.

**Year 6** classes enjoyed a variety of activities, including cartooning, modelling and lino-cuts. Some of the results were outstanding, and the enthusiasm of this year group should ensure further success.

Mr S Hickey  
Coordinator of Art

Sculpt Mould Figure Year 10

This year we welcomed Mrs Marja Bratt to Hutchins as the replacement teacher for Miss Donnelly who took leave to travel overseas. Mrs Bratt is a teacher with vast experience and knowledge. She will be of great benefit to the school and her students. This year also saw the partial building of a larger ceramics space in place of the old impractical space. At the moment we are using the space both for ceramics and sculpture until it is fully enclosed and heated. At this point we shall set up a more purpose built ceramics studio. Both staff and students are excited by this prospect and look forward to making some really great ceramics work.

**Years 11/12** have produced several very strong student folios this year. Last year we were able to achieve four perfect scores in the TCE. This year should see similar results. The best folios have come from Oat Koobapremkit, Adoni Astrinakis, James Walker, Sebastian Godfrey, David Townsend and Pat Hamilton. All their folios have demonstrated an enormous amount of work and personal expression.

**Year 9** has worked in many different media this year including ceramics, paint, crayon and dye. The aim of Year 9 is to concentrate on developing skills in the use of materials and to develop accuracy in drawing and painting.

**Year 7** has been very keen, motivated and talented. They have worked in a variety of mediums and used many different skills. The aim in these years is to develop the imagination and to reinforce confidence and productivity in their Art.

In the Junior School Mrs Bratt's classes have had a very productive, adventurous year. High standards have been achieved by all students. Their enthusiasm has been positively rewarded.

**Year 3** students have followed themes in the production of their work. Fish have been produced in varied media. All the students are to be commended on their ability to work through long periods to gain excellent outcomes. The production of 'clowns' in oil pastel are an example of the Year 3's capacity to produce vibrant results.

**Year 4** students have worked hard to master specific skills, producing work in many media. These have been well received in their display about the school. The "Indian Chiefs" were a fantastic effort.

# Business and Enterprise

The following are just a few of the activities which boys have participated in this year. Our aim is to develop the attitudes and skills which will enable them to take control of their lives and to see themselves as their greatest source of opportunity.

## Plan Your Own Enterprise Competition

Students studying Year 10 Commercial Studies & Technology are required to prepare a business plan for a hypothetical business of their own which is then submitted to the Plan Your Own Enterprise Competition (Tasmanian Division) sponsored by Business Educators Australasia (BEA). Sam Trethewey won the Tasmanian individual section with his plan for a Bathtime Nanny and represented Tasmania at the national finals. The Bathtime Nanny is a very innovative concept in the home health and safety area and received favourable comment from health professionals who attended the presentation dinner. Adam Stankiewicz and Oliver Hallock were also successful by winning the Tasmanian group section of the competition with their plan for an electronic reminder system.

Sam Trethewey, Year 10

## E Team

During August, five Year 11 boys participated in the E Team program. E Team is a structured workplace problem-solving experience that focuses on quality management and enterprise. Additionally, the skills of flowcharting, brainstorming and presentation were taught. This year Alex Deane, Arthur Pitman, Jason Siu, Mathew Baldwin and Ben Tallboys worked on site for one week at the Hobart City Council, looking at improvements that could be made to the process for lodging and releasing cash bonds and bank guarantees. Overall, it was an enjoyable experience for all involved.

Arthur Pitman, Year 11

## Tasmanian Schools Constitutional Convention

Held in March, this convention brought together Year 11 and 12 students from across the state to discuss three questions related to the referendum that would be put to the Australian people in November. The questions were - Should Australia become a republic? Is the proposed referendum model acceptable? Were there any sections of the model that should be reconsidered? The convention provided young Tasmanians with a unique opportunity to learn more about our system of government, as well

as a chance to improve debating skills and communication. Whilst 76% of the delegates voted in favour of Australia becoming a republic, an overwhelming majority did not support the proposed model. The convention found that there were a number of reasons why Australia should become a republic. These included the irrelevance of the Queen to modern Australia; the potential for conflict between the Prime Minister and the Governor General and most importantly, to give Australia a sense of pride and place in the international community.

Matthew Baldwin, Year 11

## Wrest Point Economics Challenge

Once again our teams performed well by winning this year's Challenge. In August, Economics students and their teachers from across Tasmania gathered at the University of Tasmania to take part in a day of problem-solving. Workshop teams discussed the economic situation facing Tasmania and created their own economic plan for the State. They heard from three guest speakers: Dr Mike Vertigan, Executive Chairman of the Bass Link Development Board; Mr Peter Brohier, on the Bass Strait Highway and Mr Ross Marshall, Director of the Tourism Council Australia (Tasmanian Division).

## ASX Sharemarket Competition

The ASX Sharemarket Game is an exercise that involves the trading of 100 stocks using \$50000. The aim: make as much money as you can from the 100 stocks in ten weeks. Arthur Pitman and I were able to come first in Tasmania with prize money of \$500 each. What was most important though, was what we learnt from the game. Skills attained from this experience include graphical analysis, company research, and when to sell and when to buy. The final skill we learnt, was patience - no matter what happens, wait, the share prices will eventually move up. We also learnt never to sell shares at a loss.

Jason Siu, Year 11

Mr P Symons  
Head of the Faculty of Business and Enterprise

# Careers and Vocational Education

Over recent years, much has been said in the media, in published tomes and by all sorts of experts around the world, about the changing nature of the workplace and the global market environment. We cannot deny that the world of work is different now from what it was a decade ago, but hopefully the desire 'to work' or to participate in the provision of some meaningful service or production, will continue to be the opportunity for our children.

For those with teenage children in their last years of schooling, or young adults at TAFE or University, the latter part of the year is a time when more questions are asked, more concern expressed, more interest taken, and more panic or obvious uncertainty shown, about future work and life.

There are many problems and challenges about what to do next and decisions have to be made: subject choices for next year and whether they are relevant to career options; whether to try for a job or continue to study; whether to take a year off for an exchange program or work to make some money before going on to study; and the choices to be made between courses and institutions.

However career development activities should go on all through the year and it is my job within the School to provide a range of opportunities for this to occur. Research and counselling should be done and chances taken to look into the world of work. It is also important to acknowledge the wide range of work-life skills that are developed at school across the range of subjects, including sports and extra-curricula activities.

There is, of course, no one right answer to many of the 'career planning' concerns, but as parents we expect that our children will get it all together. Let's face it, did we really know what we wanted to do when we were their age? Was it easier way back then? In fact we probably thought we had it all figured out, but what were our parents thinking about the decisions we were making?

How much should we get involved and step in to take charge? My advice is to back off to a large degree; let them do the running. We need to encourage them and seek to provide opportunities for them to explore, but we cannot seek to live our life through their potential career choice. We cannot make 'our' decision for them. However research does show that career choice is one area where young people still value their parents' opinions.

The work-life we have been experiencing over recent years will be the same for them. As they enter the workforce in the next century,

change, re-training and many short career phases, will be the norm. Some of these many jobs may be in a similar vocational area, but others will be in fields unrelated to those that have gone before. This will provide opportunity to move on, rather than to be stuck in one field for a long period of time.

So how can you plan a 30-40 year 'career'? The answer is that you can't anymore. Take heart, that we as humans do adjust to change and our young will make it in the brave new world. As parents we should be encouraging them to make the most of all the learning experiences they can have and to acquire the range of workplace and life 'competencies' needed to cope with the future...but it is their life.

*Mr R Stacey*

*Careers Counsellor and Life Member of the Australian Association of Career Counsellors.*

# Centre for Excellence

"When I think of the Centre for Excellence, I think work." (Luke, Prep G). "I like the Centre because when I have something on my nerves like the sound 'ph', the Centre helps me work it out" (James, Prep G). 1999 has

certainly been a year of work, helping all those little and big boys with their nerves (and a lot of the parents and teachers with theirs!). We have worked with boys, parents and teachers from Kinder to Year 12 in the areas of gifted, remedial and english second language whilst continuing to maintain our standardized testing program throughout the school. It is exciting to see boys take up the challenge....

We chose to take up the challenge...

George  
Jeremy  
Bob  
Derek

Thanks for all the help without it we would surely fail

It was great to have Mrs Joanne Cook on board replacing Ken Kingston, the surfing psychologist, overtaken by the need to travel extensively around the world AND keep us informed of the great time he's been having. Mrs Cook has managed to keep her youthful good looks and sense of humour despite the boys' efforts to erode all. It was tough convincing the adventurous kayakers that they actually did have work to do! The year 7 - 10 Special Electives are growing in popularity and certainly made more palatable by the fact that kind, caring boys like Adam bring cake for their teachers' afternoon tea.

Mrs Sakul has continued her fun and games with the younger boys and the older boys have continued their fun and games with her. Letterland continues to entrance all the boys that fall under its spell. "I like the Centre because it showed me about Letterland," says Luke. There are certainly lots of exciting characters and the extension boys can boast very hard reading words courtesy of Letterland's Mr 'Tion! Almost 1500 words in fact. Mrs Sakul's work with the boys from Kinder to Year 10 is rewarding in the results that have been yielded.

Miss Middleton keeps the boys in Years 3 and 4 on their toes and the feeling is often reciprocated. The Macquarie Reading program staffed by our wonderful volunteers has again been a success for a number of boys from years 3 - 6. Miss Middleton reports some great results over the year. Sadly this year we farewell Miss Middleton after 27 years as one of our hardworking Hutchins teachers. "We like the Centre for Excellence because Miss Middleton is so kind to us." Annette Middleton joined the Centre for Excellence on a part time basis after working in the Junior and Prep School for 22 years. We wish her every happiness in her exciting travel plans for the future.

The Centre also saw the retirement of Mrs Margaret Poulson, one of the first Special Education teachers employed by the school. Over the years Mrs Poulson has taught many a junior, middle and senior school boy. Mrs Poulson will be sadly missed by the boys, parents and staff alike and has certainly played a vital role in establishing the Centre as it is today. "We miss Mrs Poulson and her funny voice", (translate funny as Scottish!) (Cameron, Year 4).

Mrs Veronica Yates continues to support and work with both Hutchins and Collegiate ESL (English Second Language) students. This means we rarely get to see her except in the distance running between Hutchins and Collegiate. ESL has certainly come a long way in the last few years and this is due largely to Veronica's hard work and dedication to her students.

Third term this year saw the welcome addition of Mrs Kandy Parker.

Kandy joined us from Florida, USA and has endeared herself to the boys who kept arriving just to hear her accent. Kandy worked closely with the Year 6-10s taking on challenges like improving handwriting and reading.

The Centre has continued to grow and build, establishing a good reputation both in Australia and overseas. It is wonderful to see our boys gaining from experiences such as Tournament of Minds, General Knowledge Britannica Quizzes, Brainwaves Club, Individually structured Acceleration programs, Subject acceleration, Maths extension groups, Philosophy extension, Writersports, Thinking groups, Mentoring programs and individually tailored electives and remedial programs.

Whilst the remedial program continues to maintain a solid approach to supporting boys with learning difficulties and disabilities, the gifted program is launching a very individual approach, targeting our gifted boys and ensuring a challenging path for their educational future. It has indeed been a busy and fulfilling year. Special thanks to Mrs Anna Kirkland, our hardworking secretary; Mrs Penny Brown, Mrs Meredith McQueen and Ms Jaqi King, our most able classroom assistant teachers.

2000 will see a new, exciting year for the Centre and certainly one for me personally as I take maternity leave. Mrs Jo Cook will be taking over and I wish her and the team a productive and happy year.

*Ms C Hogan-Jones*  
Director  
Centre for Excellence

Adrian Bold (Year 12) Princess Wharf Development, Salamanca

Matthew Smith (Year 12) Maglev – Magnetic Levitation Train System

## Design and Technology

Imagination and method have been explored this year to develop some exciting results. The range of work and the application of technique to create a wide variety of effects and uses for our native materials has been stunning. Through the stewardship of Kent Moore, Roy Servant, Anthony Hyland, Chris Berndt, Rodney Berndt and Tom Turbett the boys have taken an individualistic approach to a wide range of design briefs. With some boldly creative solutions they have shown that they are capable of amazing things.

## Electronics

The Electronics workshop has now been fully operational for one year and is achieving its objectives of offering students better storage for projects, a greater range of tools which are suitable for the construction of electronic circuits, easier access to the facility's computers and more physical space.

Greater use of computers has saved time with students being able to simulate circuits quickly. The quality of finished circuit boards is also improved as students are able to draw circuit board negatives, print them out and use a light sensitive circuit board manufacturing process which has a high level of accuracy.

A diverse range of electronics projects have been produced this year and these include a light switching box by David Bell; Ph meter by Adam Kean; intercom by Rohan Clifford; portable CCD camera linked to the Hutchins School web site by Justin Hallock and Oliver Perkins; and a temperature meter by Anthony Kelsall.

## Design in Wood

### Year 11 / 12

In keeping with the tradition of personal designs evolving into interesting projects the matrices found the first brief of an executive toy rather challenging. Some excellent work was done with Nick Randall and James McShane producing two totally different but effective examples. Other pieces of high quality work this year

have been Nick Randall's veneered cabinet; Richard Clark's steel, timber and glass table; and James McShane's Blackwood and steel occasional table.

### Year 10

The Year 10 classes were presented with design briefs ranging from incorporating stone to sculpting an athletic performance in timber and brass. A very talented group showed a lot of creativity and inventiveness in their designs. Andrew Morrisby's sculpted ice hockey player; David Brooks's cricket player and Brandon Servant's track athlete were exceptional.

## Design in Metal

The main project for Year 11 was the construction of outdoor furniture using a combination of Sandstone and Metal. The quality of these projects make it hard for individuals to stand out, but some notable pieces were Adam Jones' "Bird Bath"; Stuart Burbury's "Outdoor Table"; Chris Button's "Wood Rack"; Caroline Sutherland's "Brazier"; and Richard Simpson's "Rock Guitar".

Year 10 produced some wonderful clocks earlier in the year. The students are currently working on furniture using a diverse range of materials. Joshua Tomlin, Cameron Wurf, Patrick Harradine and Sam Healey are creating some notable pieces of work.

Year 9 started the year designing and producing a range of candleholders. Recently they have been designing and making their own fishing lures and accessories. Xavier Goc produced some great lures and a wonderful fish landing net. Caleb Lang has developed a range of experimental lures that are sure to land the big one. Other earnest workers have been Anders Marchant, Josh Crossin and Henric Nicholas, who has been working tirelessly on the school's electric locomotive.

## Design Graphics

Year 9 students have had the opportunity to discover a diverse range of drawing techniques and conventions throughout the year, with a large majority of students excelling in all aspects of the course.

One of the challenges this year was to design and construct a bridge with a maximum weight of 500g. It was then tested to breaking point, some bridges withstanding weights up to 85 kg. Notable structures were those of Tim Cooper & Alan Hales, Josh Crossin & Matthew Drury and Julian Balcombe & Rowan Oliver.

Alan Hales, Joshua Crossin, Matthew Drury and John Cooper have consistently produced drawings of exceptional quality.

Year 10 students have continued to build on from a successful Year 9 year. David Roberts, Brandon Servant, Karl Walker and Matt Gardner all deserve a special mention for their commitment and participation in all aspects of the Design Graphics course. We wish all the boys well as they continue with their studies.

## Computer Graphics and Design

The senior boys continue to respond very well to the graphics and design components of the course. Various aspects of Computer Graphics have been covered, including 3D modelling, animation and multi-media presentation.

Many design briefs have been solved, exposing our boys to the design process and the opportunity to be creative. The subject continually evolves and it is now possible to specialise in nearly any strand of design and computer graphics.

This year exceptional work has come from David Townsend, Arthur Pitman, Philip Freeman, Adrian Bold, Tom Bignell, Tod Sirrawattanonan, Ben Turner and Alastair Walsh.

Mr T Turbett  
Head of the Faculty of Design and Technology

# English

As a K-12 school we are in a strong position to provide a language and literature program that has breadth, depth and, above all, continuity: such an opportunity should never be undervalued.

At the secondary level, Hutchins has an English curriculum with clear pathways for Years 7 to 10, as preparation for the pretertiary TASSAB syllabuses. Our courses range from the traditional literary canon to hypertext, from Socratic enquiry to media studies, from formal language skills to creative writing. As English teachers we need to be flexible and innovative in our thinking, planning and teaching; and our students need to see the relevance of different course components, to feel secure in what they are doing and be confident about taking risks.

In February we welcomed Mr Tom Daly and in June Mr Curtis Smith on a teacher exchange with Mr James Macleod who is in Texas for a year. Colleagues and students have appreciated their expertise and enthusiasm.

This year 291 boys entered the Australian Schools English Competition. There were 84 credits, 36 distinctions and 8 high distinctions which were awarded to the following boys: Jonathon Manning, Charles Spiegel and Dylan Viney (Year 7); Joseph Aston, David Millington and Edward Webster (Year 10); Nick Chapman and Richard Charlton (Year 11). Charles, David, Edward and Nick were awarded medals for being top in Tasmania in their respective divisions.

In association with The Literary and Debating Society, the faculty held four very enjoyable evenings of Poetry and Prose in Performance in April and May, involving a large number of students from Year 3 to Year 12.

Former head of the English Department at the University of Tasmania, Professor Emeritus Adrian Colman, who judged the finals, spoke very favourably of the material chosen and the high levels of performances. Winners were Matthew Mulcahy (Junior), Greg Irons (Intermediate) and James Shoobridge (Senior).

Hutchins was very fortunate to have well-known writer Margaret Scott to judge the Short Story and Poetry Writing Competitions which are run each year for students from Years 7 to 12; and the finalists enjoyed chatting informally with Dr Scott about their writing after she had spoken at Headmaster's Assembly. Short Story winners were Andrew Bennett (Junior), David Millington (Intermediate) and James Field (Senior). Poetry Writing winners were Jonathon Cook (Junior), Rowan Ashby (Intermediate) and James Field again (Senior). James also won the Writers Workshop Zum Cafe Poetry Reading Award.

In the Dorothea Mackellar Competition, out of a maximum of 20 entries allowed from any one school, 15 Hutchins boys received commendation, and the following received certificates of high commendation: Robert Joyce and David Halvorsen (Year 10), Eric Daniel and Nick Chapman (Year 11) and Ben Gray (Year 12).

I look forward to the arrival of Mr Bradley Wells who takes up the position of Faculty Head from the beginning of 2000 and from whom we can expect new and exciting directions for English at Hutchins.

*Mrs E McQuilkin*  
*Acting Head of the Faculty of English*

# Mathematics

This year over 150 students in Years 7 to 12 took part in a number of Mathematics competitions. Many of these boys received awards of various kinds. The main purpose of this article is to recognize the achievements of those boys who performed at the highest level in these competitions.

The Tasmanian Schools Mathematics Competition was held in May. In this competition the First Prize (\$100) in the Senior Section was won by Matthew Woolley (Year 12). In the Intermediate Section, 'Outstanding Awards' (\$25) were won by Aup Koohapremkit and Andrew Morrisby in Year 10 and in the Junior Section, by Vaughan Allen and Dean Rollins (Year 8) and by Ronan Fenton (Year 7).

The Australian Mathematics Competition was held in August. The following boys received High Distinction awards in that competition: Ben McKay, Andrew Simmons, John Eland, Isuru Amarasena, William Kay (Year 9), Tom Mills, Jack Madden (Year 8) and Charles Fish and Ronan Fenton (Year 7).

Each year in August, schools from all over Tasmania take part in a Mathematics Relay Competition organized by the Mathematical Association of Tasmania. This involves teams, each made up of four students, competing against each other in a problem solving competition. Hutchins' teams came second and third in the Years 11/12 section of this competition and third in both the Years 9/10 and Years 7/8 sections. The boys involved were Matthew Woolley, Bice Dibley, Chris Halse-Rogers, Matthew Smith and Aaron Buckland (Year 12), Arthur Pitman and Nick Starkey (Year 11), Andrew Morrisby, Aup Koohapremkit, Ian Pang and Duncan Forbes (Year 10) and Jonathon Manning, Lee Andrewartha, Robert Easter and Hayden Farquhar (Year 8).

In September we learnt that Nick Starkey, who in recent years has won numerous awards in both State and National competitions, has been invited to attend the National Mathematics Summer School in Canberra in January 2000. Nick is one of only three Tasmanian students to be invited to this gathering of 75 of Australia's brightest young mathematicians.

*Mr B Burch*  
*Head of the Faculty of Mathematics*

# Modern Languages

*Mrs Cazaly and Karl Woisetschlager (Year 8) enjoy an Indonesian lesson on batik*

At the conclusion of 1998 we farewelled Ms Sally Young, who took up a position as Head of Modern Languages at The Armidale School. At the start of this year we welcomed back in a full-time position Mrs Anna Cazaly. Mrs Cazaly teaches French, Indonesian and English.

The Faculty has been fortunate this year in that Mrs Rae Burch was successful in gaining a scholarship to further her studies of French in Toulon, Southern France. Mrs Burch will add a further month to her time away in France, returning to school in early March. Mr Rob Wilson was successful in gaining funding to pursue further study at the Universitas Sanata Dharma in the city of Yogyakarta, Central Java. He will be in Indonesia during December-January.

We again had a good number of entrants in the Alliance Francaise competition. Boys from the ELC and Junior School entered a poster competition, with Tom Kiddle gaining an award and Jeremy Upton gaining a Mention Honorable. Congratulations also go to Jeremy Upton who gained a Mentions Honorables for grade 5/6 poetry. Alistair Tooth, Mark Toppin, Ben Creese, David Halvorsen and Nick Chapman also gained awards in the poetry section.

Both Bastille Day and Hari Kemerdekaan (Independence Day) were celebrated in all areas of the school. Chocolate covered creamy French pastries, nasi goreng and sate were the highlights of the celebrations. It is amazing what the boys can whip up on a couple of BBQs over by the pavilion!

Again Indonesia has dominated much of the news in Australia. We actually have Australian troops occupying Indonesian soil as part of the Interfet Forces. This year has fully tested the Australia-Indonesia relationship. One can really only understand and have empathy with one's neighbours, no-matter what part of the world they are from, if one has taken the time to learn about them, their language and customs. The events unfolding in Indonesia have really brought home the fact that Australians cannot live in isolation from the rest of the world. We deal with people from other countries every day of our lives and sometimes these dealings have an enormous impact upon us. By offering the boys the opportunity to study modern languages we hope that we are readying them to take their place in a multi-cultural world.

*Mr R Wilson*  
*Head of Modern Languages*

# Performing Arts

## Music

1999 has been a particularly busy and exciting year for music and we continue to be overwhelmed at the standard of music that our students aspire to and achieve in performance. I am constantly challenged and encouraged with the variety and depth of music that our students play and listen to. Just when you think you've seen it all, you come to the realisation that you have only just begun to scratch the surface. Music is such a wonderful journey of discovery and self expression, and each year our students attack it as they do life, sometimes with amazing creativity and innovation, sometimes with real angst and a disturbing view of reality, but always with a freshness and energy that comes from the genuine belief that they are discovering something for the first time.

## Major Events

This year we put on our biennial concert with Collegiate at Wrest Point. This is becoming a musical event that the wider musical community genuinely looks forward to, and this year our students really excelled themselves. The combined item featured one of the biggest orchestra and choir ensembles that I have ever worked with. It was great fun - especially my bass drum playing which I felt was the 'highlight' of the evening. (Mind you, they only gave me one stick and then hid me down the back).

The Swing Band have again been gigging all year and continue to impress audiences with a professionalism well beyond their years. This year we were invited to play at the inaugural Tasmanian Big Band Symposium in Launceston. This wonderful idea (of Brian West and Frank Bansell) has grown into something that has profoundly affected the jazz community in Tasmania, and has been a terrific catalyst for our own big band's development. Our band played brilliantly (of course!), but I think everyone agreed that to work with, and listen to, James Morrison was an experience not to be forgotten. He is truly an inspiration.

## Around The Traps

The Orchestra, String Quartet and the String Ensemble have quite an extensive repertoire, and continue to perform regularly. Thanks to Mrs Dennis and especially Anne Morgan who has taken on the job of orchestral director this year.

There were some outstanding performances in the House Music competition this year, particularly in the rock section. The overall standard of performance was simply fantastic. The winners,

Mr Legg demonstrates his versatility at the Hutchins Collegiate concert

School House, played Kashmir by Led Zeplin - a particularly challenging piece. They used fiddle and cello as well as the rock band and gave the audio class a real mixing nightmare, but in the end pulled it off brilliantly.

Music in our Junior School is one of the most vital areas of the school, with all the choirs and ensembles continuing to involve a large number of boys. All the groups are involved in a large number of school functions. This year we said farewell to Mrs Macleod after many years of dedicated service, and welcomed Mrs Short to the full time music staff. Always a person of incredible energy and devotion to music and her students, Robin has been a real asset to our already strong program.

## School of Performing Arts

I guess that the School of Performing Arts will be one of the most exciting adventures I have embarked upon in my ten years at Hutchins. Most other states in Australia have schools offering substantial extension programs for students gifted in the performing arts and it will be fantastic to be able to offer the same (or better) within the state, so that students from here will have the benefit of remaining close to home for a little longer than they might otherwise. And for those students coming from interstate and overseas you could not hope to find a better, cleaner, more family oriented environment in which to pursue a passion for the performing arts than here in Tasmania, particularly within this unique family that is Collegiate and Hutchins Schools.

Mr A Legg  
Head of the Faculty of Performing Arts

Trombonist Adrian Bold  
(Year 12)

# Drama

Another busy year has been spent preparing and presenting all forms of drama throughout the school. Five major productions have been staged as well as House Drama and participation in Eisteddfods. We have seen the presentation of *Our Country's Good* by Timberlake Wertenbaker, *Of Mice and Men* by John Steinbeck, *Treasure Island* by Robert Louis Stevenson, *The Club* by David Williamson and *Patsy* by Mawson and Smith. Thank you to all the staff involved in directing and assisting with productions. Without your support the quantity and quality of work would not be possible. I am excited about the ever increasing interest in drama and am equally impressed by the enthusiasm displayed by all the production students. I must make special mention of my senior drama students who are leaving us to pursue their dreams. They have been the most enthusiastic, energetic and rewarding group of drama students I have had the pleasure of teaching at Hutchins. Next year will be an even bigger year for The Drama Department with the staging of the musical *Little Shop of Horrors* as well as the implementation of The School of Performing Arts

# Physical Education and Recreational Studies

The Physical Education Faculty has continued to work towards best practice over the past twelve months. Sport science has again been very popular and the boys have produced some high quality work. One outstanding research topic was presented by Michael Ashbolt (Year 12), who investigated the comparative levels of UV radiation between land and water based sports. Years 9 and 10 have been undertaking the new Health and Physical Education syllabuses and next year we will be introducing new syllabuses for sport science in Years 9 to 12.

Mr Stewart has once again worked tirelessly caving, walking, climbing, sailing, kayaking, rafting and driving the bus in the Outdoor Education program. I am sure that all the boys are very grateful that we have such an experienced and qualified person in the school to run the program. Mr McNamara has had the huge task of re-introducing the Duke of Edinburgh's Award. Currently twenty three boys have enrolled. The old Hutchins Award will continue until all boys have completed their award levels. Mr French has been coordinating the unitized curriculum in the Middle School, which aims to mix sport science, health, fitness, personal development and skills into a more appealing format for Year 7 and 8 boys.

Mr Wirtz has introduced a perceptual motor program into the ELC, which has proven to be very successful. Mr Servant has taken over the running of the weights club, which, excuse the pun, has gone from strength to strength and currently we have a very dedicated group who train four days per week.

Mr David Jenkins is our new Gap student for the next twelve months. David is from Sheffield, and attended King Egberts School. He hopes, after his year at Hutchins, to attend Leeds University to study Chemistry. During the year we farewelled Mr Sam Warren and Mr Nick Bryant, who both gave the school tremendous service in outdoor education and other faculty activities.

Mr Hoskins has taken his final PE lesson at Hutchins after twenty six years of wonderful teaching. David has accepted a part time loading as the SATIS convenor and will continue as the school's Sports Administrator. David has contributed huge amounts of time and energy to physical education, health and sport science, having taught PE from Kinder to Year 11 and sport science Years 9 to 12. As the head of faculty, (1974 – 91) David was the driving force behind many innovations including the introduction of Physical Education Studies, now sport science, into the curriculum and the development of the whole school aquatics program. A few years ago, it was well known that David knew the first name of every boy in the school! His experienced teaching and kind manner will be sorely missed in the classroom and the gym by both staff and boys. We all congratulate him and wish him well in his new appointment.

Finally I must thank all of the faculty staff for all the 'extras' and the tremendous work that they have once again produced to make 1999 a very successful year indeed.

*Mr S Young*  
*Head of the Faculty of Physical Education and Recreational Studies*

# Humanities and Religious Studies

It has been a busy year for the members of the Faculty of Humanities. We have all been quietly adjusting to the prospect of a "Crippsless" department, and wondering how we are ever going to cope without his skills as an historian, geographer, teacher of SOSE, religious studies...and, well, any other subject one cares to name. Stuart Cripps is simply irreplaceable. What his impending retirement has made us all realize is that we are going to need to learn new skills to cover the yawning gap he will leave.

The process of adjusting began early in the year when Alison Smithies and Andrew Webber attended a conference which introduced them to a new Civics course called 'Discovering Democracy'. They learned about the course, ways of teaching it and about a new, interactive CD rom which teaches students about our political culture. Chris Rae spent a good deal of time at a special conference for teachers of AAP and found the process a very valuable one giving him background and techniques which he is already making use of. Chris and Andrew also attended a three day conference entitled 'Reworking Years 9 and 10'. The implications of this conference are profound and may lead to important changes in the way we deliver our curriculum in future. Alison took part in a Curriculum Corporation trial on 'Discovering Democracy' units – her particular focus was 'Australian Heroes'. We hope the results of her work will be useful nationally. Chris did new work with his Geography class and took them on excursions to the Southern Forests, to study the coastline and Mount Wellington. He also had in guest lecturers on de-afforestation in the Tropics and a speaker from Dr Bob Brown's office who spoke about forestry from the conservationists' perspective. Alison, we are proud to announce, has been chosen for a three week a trip to China by the Asia Education Foundation and will spend time studying matters political, social and geographical in Yunnan, Shanghai and Beijing. She will be able to see at first hand contrasts between Chinese rural and industrial life.

The Religious Studies Department was given a shot in the arm with two visits to Tasmania from Dr Peter Vardy, an outstanding educationalist and scholar from England. He introduced Father John Goodwin, Trish Knight, Lance Morrisby, Barrie Irons and Andrew Webber to the highly successful British model of Religious Studies – the so-called 'Five Strand

Approach'. His second set of lectures introduced the same five people to the Philosophy of Religion. It is going to take some time to work through the implications of Vardy's lectures, but changes should begin in 2001 in the Junior School.

Whilst all this was going on, Father John and Andrew Webber, (with help from Jodie Schafferius) organised and led a stimulating and valuable tour, with a heavy emphasis on religious sites and experiences, to Melbourne, New Zealand and Fiji. This tour is covered elsewhere in the magazine. It is hoped that next year there will be a Religious Studies tour to either Melbourne or Sydney.

So it has been a busy and productive time. Next year promises to be busier still and we will have to do without the services of Rex Beamish in SOSE. Best wishes to Rex and Stuart Cripps in the next phases of their lives and thanks to all teachers of Humanities for their sterling efforts through a very long and tiring year.

*Mr A Webber*  
*Head of the Faculties of Humanities and Religious Studies*

## Nettlefold Library

Where to start? The Nettlefold Library opens at 8.15am to let the first group of patiently waiting boys enter and rush to turn on the computers to complete their last minute assignment tasks, check email or print work before class. The next group heads for the newspapers. Then the photocopier starts slowly to churn through the day and await the queues. Messrs Herbert, Cripps and Overton are often present during the day giving timely advice and direction. Classes come and go, noise levels rise and subside. The year's highlights include a new library system and a memorable Anniversary Week display from the Archives.

It has been a year of events and even more changes about to happen. There has been much anticipation with plans for library refurbishment over the summer break. New carpet, chairs and tables, fittings, facilities and resources are in the first stage of a two phase upgrade to a new library, information and multimedia resource centre. Stage One will be completed before the start of the Term One 2000.

An innovative second and building modification stage will take place within the next three years. Newer technologies with increasing Internet services supporting knowledge, curriculum and information services impact only on the traditional library role and power of print by providing more options and choices. The place of quality book and video resources will not diminish as the need for technological and information literacy increases.

Mrs J Abell  
Director of Information Services

## Stephens Library

Great changes: Great assistance and great fun! The ELC have their own resource centre in that kaleidoscope of colour near the swimming pool. The picture book collection and some chapter books have already migrated. We plan to have the non fiction up there very soon. The library couldn't survive without the assistance of a loyal group of parents, to them we give a big thank you.

Author visits: Times are a changing and the opportunity to hear great authors at school has evolved to trips to the State Library, and to Collegiate and some evening opportunities for parents and boys, courtesy of the Children's Book Council.

"Weave the Book Web" saw the Stephens Library covered with spiders and webs for Book Week. Spidery stories were enjoyed as were the shortlisted Book of the Year collection. To mark Book Week the entire school set aside a time to DEAR (drop everything and read). The Stephens Library held a very successful Book Fair to encourage boys to build up their own libraries at home.

We held a Mystery reader competition whereby the teachers chose their favourite book and brought in a number of clues about their interests to enable the boys to match the book with the teacher. This was a big challenge. Cyber (Children's Yearly Best Ever Reads), a children's choice award, was introduced to Tasmanian schools for the first time. John Marsden's "Tomorrow, when the war began" was a firm favourite with the Middle School boys.

Work behind the scenes processing new resources went on frantically while the library staff were also learning how use a new piece of circulation software. At one stage the new system seemed to be more down than up and circulation rather hamstrung.

We warmly welcome Jill Abell who was appointed Director of Information Services at the beginning of term three. Many thanks to Pat McNeill, Louise Young and Tony Herbert for their hard work in what has been a challenging and exciting period.

Mrs M Headlam  
Teacher Librarian

1. You cannot win.
2. You cannot break even.
3. You cannot get out of the game.

(The above paraphrases the First, Second and Third Laws of Thermodynamics. In summary, we are told that we cannot get more energy out of a system than what goes in.)

As always, much happened in Science in 1999. At the beginning of this year, we welcomed Ms Alana Smith who took over Mr Millhouse's classes during Term One while he was on long service leave. We sincerely thank Ms Smith for her contributions and wish her every success in the future.

Congratulations go to the following boys for gaining High Distinction awards in the 1999 Australian Schools Science Competition: Nicholas Young (Year 4), Ben Shadforth (Year 5), Andrew Carolan (Year 6), Ronan Fenton, Nicholas Graney and Charles Spiegel (Year 7), Jack Madden and Tom Mills, (Year 8) and Michael Jeffrey and Geoff Kelly (Year 9). Special congratulations to Charles Spiegel who, as well as his High Distinction, was awarded a medal for having the highest score in Year 7 in Tasmania.

The results in the 1999 National Chemistry Quiz were also very pleasing. Jonathon Manning and Ronan Fenton (Year 7), Hayden Farquhar (Year 8), Jon-Ho Chan and Ben McKay (Year 9) did particularly well and were awarded special plaques at a Headmaster's Assembly.

In the 1999 Chemistry Titration Competition, teams composed of Years 9/10 and 11/12 boys competed against other Tasmanian schools. One of our teams came sixth in the Senior Secondary (Years 11-12) division of this competition. Certificates of Achievement were awarded to the following boys: Ian Wilson, Chris Halse-Rogers, Alistair Kan, Matthew Smith, Ben Ritchie and Tim Starkey (Year 12), Suthaharan Manoharan, Arthur Pitman and Nick Balcombe (Year 11) and Billy Barnard (Year 9). Our sincere thanks go to Mr Peter Starkey for organising and coaching the Hutchins teams in this competition, and for running the National Chemistry Quiz.

The 1999 Australian Institute of Physics Quiz was held at Hutchins. Fourteen teams from around the state, including four from Hutchins entered the competition. Team members cooperated to answer six rounds of ten questions covering the physics curriculum and general physics knowledge. Some questions required simple calculations to be performed, some required selection of the most appropriate answer from a list of possibilities, while others required brief explanations. The Hutchins team comprising Matthew Woolley, Chris Halse-Rogers, Bice Dibley and Aaron Buckland came first. Our thanks go to Mr Crofts for the time and effort he spent in making the Quiz the success that it was.

Oscar Potter and Arthur Pitman form Year 11 have been selected to attend The National Youth Science Forum to be held in Canberra during January 2000.

In the 1999 Tasmanian Science Talent Search Oliver Young, Peter Clarke, Michael Ashby, Beau Lesser and Trent Townsend all won merit prizes in the Upper Primary division of the Technology section. They were required to construct a timing device using marbles.

Junior School boys have undertaken some interesting

activities this year and include the following:

**Year 3:**  
A study of mining with the boys inventing great mining machines.

**Year 4:**  
A study of the Hobart Rivulet involving measuring such things as turbidity, salinity, flow rates, water usage and temperature.

**Year 5:**  
A study of energy, which involved the construction of mangles, soda bomb rockets and paddle boats.

**Year 6:**  
A study of the properties of air. The boys constructed rockets and balloon-powered vehicles.

The Hutchins Science Club has thrived this year and gave students the opportunity to:

- explore and investigate phenomena
- experience hands-on a variety of different scientific equipment
- perform experiments for which there is not time in a normal lesson
- perform their own experiments
- discuss science issues
- visit local scientific establishments around Hobart
- measure the diameter of hair using a laser
- trace the path of copper through several chemical and physical changes
- gain skills in titration
- get friendly with a cathode ray oscilloscope (CRO)
- see the sounds of an electric guitar on the CRO

Along with Mr Docking's active and enthusiastic Double Helix Club in the Junior School, the Science Club helps to encourage our budding young scientists to expand their horizons and increase their appreciation and enjoyment of the subject.

Finally, I leave you with a poem written by Nick Chapman (Year 11), which he wrote last year:

*Force equals mass times acceleration,  
This Newton found out after much consideration,  
An object at rest tends to remain so,  
But not when acted on by a resultant force though.  
Mass times velocity is equal to momentum,  
A vector is a force with both size and direction.  
If energy is not conserved there is something amiss,  
It seems Einstein had something to say about this.  
Centrifugal force is an absolute not,  
It's true, I lied to you not.*

Mr H Smith,  
Head of the Faculty of Science

Jesse O'Hara and Justin Hynes (Year 6) visit the Minerals and Mines Centre

# The Co-curriculum

## The Aviation Centre

Throughout 1999 many hours of work have been given to restore and commission our new flight simulator. The Cessna 172 was purchased from the mainland after it had been dismantled and cut up for spares. The aircraft now sits in D1 in the Middle School with an adjacent classroom which will be developed into an appropriate briefing/teaching room.

Tango Hotel Sierra is superbly painted and has a new interior. Several students are working on electrical/electronic systems for the plane which include Communications (Anders Marchant), Software function controls (Monty Hutchins) and operational aids (Stuart Woolford). Paris Buttfield-Addison and David Sorrell-Saunders are producing support material for use by students and teachers. The centre has had regular use by the Middle School Highflyers course. Mr Moore and Mr Fish would like to thank Mr Roy Servant who painted the plane and Mr McGregor who installed some local scenery onto the computer.

This year we have started a partnership with the Aero Club of Southern Tasmania who very kindly decided to house their GAT full motion simulator in our Centre. Both facilities can be shared. The GAT provides the added dimension of realism and real time instrument training. We appreciate the aero club's support immensely.

At this stage curriculum support material is being developed together with a variety of certificate levels of accomplishment so all teachers can use the flight centre as a cross curriculum teaching and learning tool. Aviation and flight can draw from almost all of our subject disciplines so, in time, it will be an enjoyable and motivational addition to the teaching program at Hutchins.

Mr K Moore

## The Hutchins School AVIATION CENTRE

## Hutchins and the World Wide Web

Hutchins has readily identified the need for students to have the opportunity to develop a broad understanding of the World Wide Web and related technologies.

In 2000 opportunities for students to learn and live with the WWW will be increased. Subjects from Year 8 onwards will give students ample opportunity to become active participants in the Information Technology age.

This year our Web Design team, MR Web competed very successfully in the Australian Schools Web Challenge. After winning the State Senior Secondary Section the boys travelled to Sydney to see how they would go at national level. Congratulations to David Townsend, Arthur Pitman, Richard Charlton and Peter Bardenhagen on being National Runners-Up and Highly Commended for their website which celebrated the centenary of St John's Hospital.

The School's Web Site continues to grow and in 2000 there will be an even greater involvement of students with the implementation of an Intranet into the resource system of the School.

This year Richard Charlton and Arthur Pitman have produced a show piece. "The Darkroom" illustrating Richard's photographic skills and Arthur's web design skills.

Nick Bester continually produces outstanding presentations for the Chapel Choir. His pages are innovative and very user friendly.

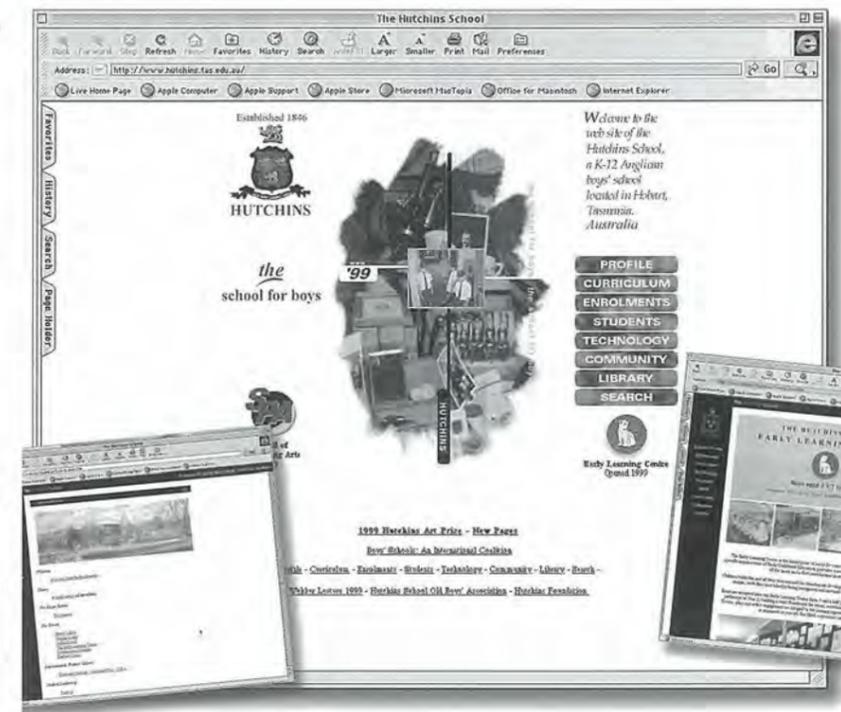

Tod Sirrawatanon has provided outstanding support for the International section of our site. He has produced excellent work spanning many cultures and has added a great deal of depth and contrast to our site.

Isuru Amaresena and Andrew Twin have reworked the Science pages with Isuru establishing a place for our Science Club. Feedback and enrolment in our Science Club can be done directly from the club pages.

Check out <http://www.hutchins.tas.edu.au> and the new pages section to see Mr Web's winning site and all the other student work.

There are many more efforts from students which shape our web Site and 2000 will provide us with more opportunities to make our website and Intranet integral parts of Hutchins. Mrs Jill Abell our new Director of Information Services brings a wealth of experience and leadership to the WWW committee.

Mr K Moore

## Outdoor Education

The Outdoor Education program this year took boys from all classes from Year Three to Year Nine to sites pertinent to curricular studies in a number of disciplines. Boys were fortunate to have the additional leadership of two fine and capable young men: Sam Warren from the UK, a British Army scholarship holder who shone in his ability to teach and to organise efficiently, and our first student assistant, Nicholas Bryant, from the Wynbery School in South Africa.

Year Three went to Port Arthur to look at some of the skeletons in Van Diemen's Land's historical closet while Year Four went to the Adamsons Forestry area, the Geeveston Forest Museum, Catamaran and Esperance. Year Five went to the Southport Campus to study the formation of caves and Year Six travelled across to the East Coast 'Eden' Maria Island to examine the aboriginal and European history of that beautiful place.

Year Seven learned to look after themselves on an overnight walk to the far South Coast. They camped in tents, cooked with fuel stoves and packed and carried all they needed in rucksacks. This intense experience begins the phase of the Outdoor Program which is more centred on the wilderness. In Year Eight the boys did a week-long camp in the Eastern Tiers, centred at Little Swanport. The thrust of this program was to teach boys to be self-sufficient over a more extended period by navigating themselves in remote and challenging country, camping and cooking and safely doing an extended flat-water kayak trip. Teamwork and time and resource management are key factors in the successful completion of these journeys. In Year Nine the camps, again at the Southport Campus, emphasised aquatic skill acquisition. Boys could choose from windsurfing, bodyboarding, snorkelling, fishing, sailing and kayaking as well as climbing and abseiling. The voluntary Year Ten walks went to the Labyrinth in the Lake St Clair National Park. Centred at a base camp at Pine Valley, boys from Years 10 to 12 and girls from Collegiate went walking, rock climbing and exploring in the superb mountains of that area, building still further the skills they have acquired in their Outdoor Education program.

*Mr A Stewart*  
Director of Outdoor Education

## The Duke of Edinburgh's Award

The internationally recognised Duke of Edinburgh's Award has been re-introduced to the School this year and has replaced the Hutchins Award. It is available to any student looking for challenge, adventure and personal development. It presents students with a balanced, non-competitive programme of voluntary activities which encourage personal discovery and growth, self reliance, perseverance, responsibility and service to the community. The criterion for gaining an Award is individual improvement through persistence and achievement, taking into account the participant's initial capabilities.

Hutchins has twenty one boys registered with the Award this year and we anticipate a significant increase next year. Examples of some of the activities our students are currently involved with include:

- Service** animal shelter, coaching, first aid, conservation projects, youth work
- Expeditions** bushwalking, canoeing, mountain biking
- Skills** archival research, learning chinese, guitar, rock climbing, dog handling
- Physical Recreation.** archery, football, athletics, sailing, soccer, golf

Running concurrently with the Duke's Award this year has been the final year of the Hutchins Award, giving some boys their last opportunity to complete the requirements necessary for the four phase award. Activities undertaken have included sailing the school's sloop 'Aurora', sea-kayaking off Bruny Island, walking in the Southern Highlands, kayaking the Hellyer George and upper reaches of the Arthur River and walking and climbing in the Freycinet Peninsula to name but a few. Thank you to Mr Stewart, our dedicated Director of Outdoor Education, without whom many of these activities could not take place.

*Mr R McNamara*  
Co-ordinator of The Duke of Edinburgh's Award

Prime Minister John Howard attended a special sitting of the Hutchins Parliament held at Parliament House, Hobart

## Hutchins Parliament

The Hutchins Parliament was formed in 1999 and is the means by which students can gain practical experience in the operation, both formal and informal, of the Australian parliamentary system. They can develop skills in policy formulation and bill drafting as well as practice in the arts of debating and public speaking.

This year the United Hutchins Party, under the leadership of Edward Webster, formed the government with the Social Democrats, led by Richard Charlton occupying the opposition

## Sail Training

A variety of people have been involved in the various aspects of seamanship, boat handling and navigation that are offered through the sail training facility. Students from Fahan, Collegiate and Hutchins, as well as parents and staff, have undertaken theory and/or practical courses. Theory courses were run on small boat safety, seamanship and coastal navigation (all Australian Yachting Federation certificated) throughout the year. The highlight was again the emergency procedures class.

We greatly appreciate the generosity of Mr Rob Smith, who has taken up to seven students at a time on his

benches. The presence of two members from the Hutchins Conservative Party and three Independents made for some very interesting voting on bills relating to the privatisation of public schools, abolition of trade unions and politician's salaries.

Undoubtedly the highlight of the parliamentary term was August twentieth. A special sitting of the Hutchins Parliament was held in the House of Assembly at Parliament House in Hobart. Our special guest was The Hon John Howard MP, Prime Minister of Australia. It was very fortunate that Mr Howard could give

up his time to come and watch the parliament, as well as address the House on several issues such as free choice, media freedom and East Timor. Even during the afternoon tea, Hutchins boys, full of questions, surrounded the Prime Minister.

The school's support for this event was much appreciated. I would encourage boys to get involved in parliament. The more the merrier.

*Joe Aston*  
Convenor

forty-foot cutter for overnight sails to Nubeena and down the D'Entrecasteaux Channel. They have gained valuable sea time as well as night sailing practice. The School's yacht, Aurora, has again been plying the Derwent River on afternoon, day and night sails. She has been successfully navigated by students to the visiting US aircraft carriers and other points of interest down river. In the year of the worst Sydney to Hobart race, the most awe-inspiring sail was being caught in a storm in which the wind speed twice went off the scale at 56knots. Alex Green and Mr Rupert French were crewing and we were pleased the new deep third

reef, just recently put in the mainsail, worked so well. Rodney Smith and Oscar Potter are well on the way to completing their Competent Crew Certificates.

Tom Hall and Oscar Potter have been regular crewmembers working Aurora as the starting boat for the weekly dinghy sailing races. Tim Starkey and David Johnson have helped with routine maintenance during the year. Aurora is looking resplendent in her new jib and coat of paint, expertly applied by Mr Andrew Stewart.

*Mr P Starkey*  
Master of Sailing

## Literary and Debating Society

Senior C Debating Team: James Field, Daniel Copping, Ms C Hogan-Jones (coach), Simon Martin, Tom Windsor and James Walker

History will remember 1999 as a year of great success for the literary and debating society. Breaking a ten year drought the Senior C debating team brought home a victory in the Grand Final, going one better than the performance of 1998's Year twelve's. The school also entered sixteen teams in the junior, intermediate and senior divisions of the private school roster while Daniel Copping and James Field were selected in the state debating team that competed at the national championships in Canberra. The anniversary debates were once again hotly contested with the students triumphing over both the staff and old boys. These results are indicative of the quality and depth of public speaking in the school and this strength of numbers bodes well for debating in future years.

Success was also found in public speaking competitions this year with Jamie Shearing winning the local, regional and state levels of the Rostrum Voice of Youth. He then went on to represent the state at the national finals.

Tristan Roberts represented the school very well in the English Plain Speaking competition, as did Edward Webster and David Halvorsen in the Legacy Youth Public Speaking competition. James Field was the regional public speaking winner of the Lion's Youth of the Year Quest.

Four evenings of The Poetry and Prose in Performance competition were hosted by the society in conjunction with the English faculty with a high standard shown at all levels.

Finally many thanks must go to all staff coaches, Simon Martin and Tom Waters for their hard work and patience in coaching debating teams throughout the year. Above all however, should be recognized the tireless work of Mrs McQuilkin in organizing and coordinating the activities of the society.

James Field  
Year 12

## House Drama

The House Drama Competition is rapidly gaining a reputation as the most enjoyable evening on the Hutchins calendar. Yet again, the boundaries of the drama studio were stretched as some two hundred audience members squeezed into its walls. They were treated to a continually improving standard of plays, with the order of presentation mirroring the final result from last to first.

The opening play of the evening was 'Streuth', performed by Buckland House. As the standard of the competition is so vastly improving, I believe that Bucks out-did last years effort of first place. Streuth was a play about bad acting that presented a number of well-rehearsed forgotten lines, shaky sets and off-stage interruptions, held together by an hilarious performance from William Whitehouse.

Next came Stephens House, performing 'Boots and All'. Steves assembled a large cast of hopeless rugby players who win the most impossible game of the season. Despite Chris Hamnett getting the audience to cheer for him, and Tommy Windsor's sexy tights, School and Thorold were not going to let James Laird cheat to victory as his character had just done in the play.

After the interval, the audience returned to the nightlife at Club McAdam, with School House's 'Bouncers'. As DJ Lethal Luky D "The Love Doctor" pumped out the tunes, the four bouncers told the story of what happens late, including a frighteningly realistic re-enactment of Nathan Moore and Ben Gray's Saturday night.

With disco balls, strobe lights and karaoke Thorold's 'Trouble is Eating My Pants' had us laughing from beginning to end.

The most unfortunate aspect of House Drama is that someone has to pick a winner. Clearly the adjudicator, Mr Robert Jarman had great difficulty in determining which of the four plays was the best, especially considering they were each very different. In the end Thorold, with a carefully polished show for the whole family, ruled the day.

On behalf of the actors, crewmembers, audience members and directors, I would like to thank the House Masters for their support, the adjudicator, Mr Robert Jarman, and Mrs Weeding for her enormous help with all of the plays.

Daniel Copping  
Performing Arts Prefect

William Whitehouse in Buckland's 'Streuth'

Jesse Plumb and Tom Windsor in Stephens' 'Boots and All'

Nick Chapman, Keith Meure, James Shooobridge and Daniel Copping in School's 'Bouncers'

Thorold's 'Trouble Is Eating My Pants'

## Of Mice and Men

John Steinbeck's play has long been one of my favourites. I really respond to his faith in the human spirit. Finally, I decided it was time to try a production of the play. The result was very pleasing.

The cast worked hardest and longest of all involved. Edward Webster's George was a delightful portrayal; everyone was convinced by Henry Nichol's Lennie and Isobel Thomson and Melanie Irons provided exactly the right contrast as Curly's wife. Richard Clark needs mention for his very careful playing of Slim but in truth, there was not one weak link in this very supportive cast. Even Felix Blackler's dog performed right on cue.

Sam Trethewey, James Seabrook and James Troon headed a first-class backstage crew, attending rehearsals long before the performance dates, and Stephens House Year 11 students performed the many front-of-house tasks.

The programme lists over forty people who contributed to this production and I am extremely grateful to them all but I would like to conclude by giving special thanks to Simon Martin whose work as my assistant was invaluable.

*Mr I McQueen*  
*Stephens Housemaster*

*Melanie Irons and Henry Nichols in 'Of Mice and Men'*

## Our Country's Good

Our Country's Good, written by Timber Wertenbaker, was performed by a group of Year 11 and

12 students. Set in the Australia of 1878, the play follows officers and convicts of the First Fleet as they attempt to stage the first play performed in Australia. Based on a true story, it examines the themes of redemption, and the power of the theatre to bring people together.

The latter theme became evident first before our eyes when, during rehearsals, students from both Hutchins and Fahan formed friendships which will surely grow throughout the year. We were thrust into a situation where experienced drama students were cast alongside many attempting the course's first year. The result was a quality display of teamwork from all involved.

The dedicated theatre production class, who were responsible for lighting, sound, and backstage, along with our costumes, worked with the actors to produce a performance which gained high praise from audiences.

To highlight individual performances would only be going against the message of the play itself. Therefore I would like to thank the entire cast for giving their all in what was a difficult play. Also, a great thankyou must go to director Mrs Weeding, who was responsible for maintaining the focus of three individual classes who were involved in the production. Her teaching helped to develop skills we would not have acquired otherwise.

*James Shoobridge*  
*Captain of Drama*

*James Shoobridge, Simon Martin, Daniel Copping and Matthew Banks in 'Our Country's Good'*

## Treasure Island

The production of 'Treasure Island' was put on by Year 7 boys in early July. It was an extremely successful show, with everyone working hard throughout the three months of preparation and rehearsing prior to the play. Under the direction of Miss Jo Richardson the boys shaped up pretty well. Miss Richardson was assisted by Mrs Waters. The cast of twenty one boys supported by a backstage crew of fourteen, were also guided by a number of senior students. Everyone contributed well to the performance. We would like to thank Mrs Weeding who helped with backstage, choreography and costume. Overall it was an excellent performance, and everyone thoroughly enjoyed being part of it.

*Ronan Fenton, Simon Foster*  
*Year 7*

*Year 7 boys perform 'Treasure Island'*

## Patsy

This classic tale of murder and mystery Egyptian style was presented by the Year 8 Music and Drama Production students. Approximately fifty five students took part in the production and were responsible for all aspects of making the script come to life. A number of boys took on the roles of backstage, props, sets and costumes. A group of boys became the musicians and the rest of the class auditioned for the acting parts. The performances over two nights were very successful with everyone having a great time.

## The Club

The final senior production this year was David Williamson's 'The Club'. The play was performed by the Year 12 Theatre Performance class and Nick Dodd, while the Theatre Production class took care of the set, lights, sound and publicity.

'The Club' is about the goings on in the administration of a football club. Set in the mid 70's, this semi-biographical play about Collingwood has everything from drama to comedy, sex, drugs and rock 'n roll. Due to examination time restrictions, the play could go for no longer than an hour and fifteen minutes. This resulted in a tight play that was well paced and kept the audience on the edge of their seats. Thanks must go to Mrs Weeding, for staying calm during the rehearsal period and being able to produce such a polished performance. Thanks must also go to Nick Dodd for playing Danny. Nick was not being assessed in the role and gave up his time to complete the cast of six.

*Simon Martin*  
*Vice-Captain of Drama*

*David Blackwood, Keith Meure, Nick Dodd, James Shoobridge, Simon Martin and Daniel Copping in 'The Club'*

*Alex Menzie, Matthew Mulcaby and Adrian Meredith in 'Patsy'*

*Mummies rise in 'Patsy'*

## Athletics

1999 proved to be a very successful year for the Athletics team. This success began at the Southern Independent Schools Athletics Carnival. Under the leadership of Nick Avery as Captain, Michael Ashbolt Vice-Captain and ably supported by James McCulloch as team Manager, we entered the carnival sufficiently prepared and primed for a strong performance.

Competition was fierce all day with Hutchins battling against traditional rivals St Virgils in the junior section and Guilford Young in the senior section. Outstanding performances on the day came from Tom Ayliffe (800), Andrew Dawson (long jump and hurdles), Clifford Ohara (1500), Mark Toppin (hurdles), Stuart Hall (discus), David Powell (shot put), Caleb Lang (shot put), John Andrews (long jump), Chris Sonneveld (high jump), Tom Stove (1500), Sam Halliday (discus), Scott Wells (100, 200), Matthew Smith (100,200, 400) and Rhys Long (javelin). The U16 and Open relay teams also won their events. Hutchins were unfortunate to go down to St Virgils in the Junior Boys' Trophy and Guilford Young in the Senior Boys' Trophy, we did however win convincingly the Aggregate Boys' Trophy over Friends.

The State Independent Schools Athletics Carnival followed one week later. With only one competitor representing each school in each event and the inclusion of five schools from the North of the state, we entered the meet expecting a very close encounter. After experiencing a slow start to the day, the team gradually gained momentum and proceeded to battle out each event with the same ferocity shown the week before. The highlight was Scott Wells in the Under 16 100m running a time of 11:10 seconds, breaking a 24 year old record, set in 1975. He also won the 200m. Other wins came from Matthew Smith in the

Athletics Team members Michael Ashbolt (vice captain), James McCulloch (manager), Mr French and Nick Avery (captain)

Open 100, 200 and 400m; Tom Stove in the U15 1500m; John Andrews in the U15 long jump and Andrew Dawson in the U13 hurdles. The Open relay team of Shaun King, Matthew Smith, James Jenkins and Nick Avery were again convincing winners, as were the U13 relay team of David Powell, Chris Alomes, Sam Kirby-Fahey and Andrew Dawson. We won the Aggregate Trophy over northern rival St. Particks.

In October Hutchins fielded a junior and a senior team in the Knockout Cup. The junior team went down to St Virgils but the senior team were able to beat rival Guilford Young.

Sincere thanks must be given to all coaches who gave time and effort to the athletes. These include Max Cherry, Mr MacNamara, Mrs MacNamara, Mr Halley, Mr Sheppard, Mr Addison and Mrs Priestly.

Mr C French  
Master in Charge of Athletics

## Australian Rules Football

### UNDER 13

Coach: Mark Herd Nicholas McKenzie Matthew Brazier  
Manager: David Lawless

The under 13 season was an up and down season for us. Everyone has improved a lot but unfortunately we only won one game against Dominic. Ronan Fenton, Sam Harvey, Isaac Bennett and Huw Nestor were selected to try out for the Southern Team. We would like to thank Mark Herd and Nick McKenzie for being great coaches throughout the year. Special thanks to Mr Lawless for being our team manager and all the parents who gave us support every Sunday. We are all ready for a much more successful season next year.

Richard Burbury, Henry Alluright, Chas Mackinnon

### UNDER 14

Coach: Grant Jackson William Lamprill  
Manager: Shane Rollins

The under 14 team had an average but fun season with only three wins. These wins would not have been possible

without Grant Jackson, our coach, who put in a lot of time and effort. The team played well but was occasionally thrashed by other teams. We could have achieved more if we were as committed as Mr Jackson. It was a great season and we learned a lot about teamwork, commitment and developing spirit. We would like to thank the parents and Mr Jackson for their efforts supporting us throughout what was a long, but enjoyable 1999 season.

Jonathon Nicholas and Nicholas Weeding

### UNDER 15

Coach: Robert Evans David Harper  
Manager: Charles Brothers  
Best and Fairest: Matthew Drury

The under 15 team had reasonable success during the season winning several games and experiencing many extremely close losses. Our big men in the backline, provided plenty of run. Josh Crossin powered through the packs and John Cooper and Richard Wilkinson took the kickouts with pinpoint accuracy. They were just three of our

playmakers in the backline. Our big man up forward, George Papoutsakis, took some excellent grabs and slotted them through. Ruckmen Guy Ellis and Corey Wills gave opposing sides a scare. Helping Guy in the ruck contests were out rovers and centre line players Matthew Drury, Xavier Goc, Tom Walker, Andrew Jackett and Richard Ellis. The whole team would like to acknowledge the hard work of the coaches, Robbie Evans and David Harper.

Richard Ellis

### UNDER 16

Coach: Alan Morley Nicholas Leitch  
Manager: John Windsor John Donovan

The under 16 team this year had mixed success. Whether we had fourteen or twenty-one players, everyone put in maximum effort. With the legendary Healey force in the forward line, or the dominating Sam Tethewey in the backline, we were always in with a chance. We would like to thank Mr Morley for his coaching skills and his ability to keep calm even when we were 120 points down at times. Those who played regularly for the under 16's were: Hugo Brettingham-Moore, Andrew Donovan, Blair Browning, Sam Halliday, Hugh Ellis, Ben and Sam Healey, Marcus Jones, Malcolm Page, Tim Robson, Marcus Windsor, Richard Webster, Sam Tethewey, Charles Schreuder, Ben Wilson, Stuart Thomas and Aaron McKibben. Without these core team members the under 16 team would not have existed. Thanks must also go to those who helped out the under 16's in times of desperation when the numbers were short. Eight members of the squad played with the First XVIII this year.

### Second XVIII

Coach: Andrew Jones  
Manager: Mike Polegaj  
Best and Fairest: Tom Windsor  
Best and Fairest Runner-Up: George Friend  
Most Improved: Kristiaan Gumley  
Coaches' Award: James McShane  
Coaches' Award: James Johnston

The Second XVIII, after a slow start to the season, struck form towards the end of the year. The team posted a 6-4 win/loss ratio during the rostered season. They found themselves in a semi-final against Guilford Young College. In what was an epic struggle all day, their Grand Final dreams were extinguished by a two point margin.

### First XVIII

Coach: Chris Rae  
Manager: Mike Polegaj  
The "Roy Barnett" Best and Fairest: Sam Palfreyman  
Best and Fairest Runner-Up: Simon Taylor  
Most Improved: Michael Walsh  
Best Utility Player: Tom Gibson  
Most Committed Player: William Whitehouse  
The "Chris Rae" Award: Sam Palfreyman  
The "Luke Watchorn" Award: Nicholas Avery  
Tasmanian State U/18 Team: Tim Hazell  
Tasmanian State U/18 Team: Rhys Long  
Most Consistent: Tim Polegaj  
Best Player First XVIII versus Old Boys: Richard Griggs

The First XVIII posted a 10-2 win/loss record during the rostered season. Added to this were victories over the Old Boys and Trinity Grammar during a pre-season tour of Melbourne, along with a four point loss to Camberwell Grammar on that same tour - in all, it was a very successful season.

Acknowledgement of service to Australian Rules Football was the principal theme of the Presentation Evening for the

S Palfreyman

M Walsh

W Whitehouse

Open Football squad. The parents of the First and Second XVIII donated a BBQ to the school to be installed in the refurbished David Brammell pavilion. They also donated a framed photograph of the last First XVIII premiers team of 1997. It was an extraordinarily generous contribution on their part and a gesture characteristic of the service they have rendered to the sport over a number of years. Mr Mike Polegaj was singled out for special recognition for his outstanding contribution. As manager of the First and Second XVIII he has provided outstanding service to the school and the sport. Earlier this year, Mr Polegaj's work was recognised by the Tasmanian Football Foundation with a Community Volunteer Service Award. The contribution that the Palfreyman family have made to the sport over a number of years was also acknowledged at the dinner. Sam Palfreyman, the youngest of a family of contributors, and Captain of the First XVIII, capped off the evening by winning the 'Roy Barnett' Best and Fairest award along with the 'Chris Rae' award for sportsmanship, commitment and determination.

Mr A Morley  
Master in Charge

## Badminton

The First IV team has had a very successful season. Phillip Freeman, Nick Starkey, Matthew Woolley and Tim Starkey (c) formed a team with a wealth of experience who were able to dominate the season. Unfortunately the team was plagued by injuries and sickness. First Nick was out midway through the season with a broken finger. He returned, only to be sidelined for the finals with a broken leg. Tim battled through the second half of the season with glandular fever and Phil played through the finals with chicken pox. Our reserve, Alistair Kan, was frequently called upon, and never failed to perform. Finishing the roster strongly, we entered the finals feeling confident but knew we had to remain focussed. In the major semi-final we met our archrivals, Guilford Young. In a match played in good spirits we defeated them by 60 points, putting us straight through to the final. In the final we again met Guilford. Both teams were well prepared and our opponents came out firing, resulting in some close competition early. By the singles matches Hutchins had asserted their dominance, giving us an unbeatable buffer with two games to play. A well contested match ended with Hutchins achieving a 67 point victory and the College Boys A Division Premiership.

*Tim Starkey*

The Second IV team experienced some success throughout the year in the Division A roster. The team of Alistair Kan, Richard Clark (c), Matthew Smith, Zaheer Khan and Peter Bardenhagen performed well against the Friends team but were unable to overcome the stronger Hutchins First and GYC teams.

*Richard Clark*

The Third IV of David Bell, Anthony Chu, Keitaro Yasuda and Eric Daniel reached the final but lost to GYC. The Fourth IV of Arthur Pitman, Suthaharan Manoharan, Kenneth Kwok and Alex McMaster made it through to the preliminary final against the Third IV. The Hutchins-Fahan Mixed team of Emma Evans, Kirsty Starkey, Anthony Bastick and Ben Warren won their final through teamwork and good communication. The Hutchins-St Mary's Mixed team of Cherie Kelly, Florence Ko, Rizman Haroon and Raizal Haroon had an enjoyable season and made it to the preliminary final.

The Year 10A team of Anthony Kelsall, Alex Tozer, Luke Cahill, Tony Miller and Ian Pang made the final. The Year

*First Badminton - Winners of the Southern Tasmanian College Roster and Hutchins Most Successful Team Trophy:*

*Back row: Matthew Woolley, Alistair Kan, Nick Starkey,*

*Front row: Mr Starkey, Tim Starkey (captain), Phil Freeman*

10B team of Luke Lamont, Hugh Richardson, Liam Chivers, David Millington, Nick Parker, Ben Tumney, Tom Morse, Adrian Kan, Jeff Chung and Fraser Johnston displayed good team spirit. The Year 9 team of Jon Alomes, Jesse Plumb, Teerapong Mahariasiri, Michael Jeffrey, Isuru Amarasena, Alex Barwick and Mark Jessen made the preliminary final against Geilston Bay.

The year has been a great success for the Year 7 team. Michael Chapman, Lars Becker, Dylan Viney, Jeremy Parker and Richard Simmons put in a great effort and managed to win all their games and the Year 7 Division A Premiership. The team also won all the events at the High Schools Badminton Championships.

Once again, at the end of the season, the staff and students went head to head in the annual Staff versus Students match for the Broken Racquet Trophy. Though both teams were plagued by injuries to key players, an enjoyable afternoon was had by all, with the students winning the trophy back with a convincing display of badminton prowess. I would like to thank all the staff for their coaching, the Master-in-Charge, Mr Berndt, and all the parents who supported the boys and helped to make 1999 a successful year.

*Tim Starkey*

*Captain of Badminton*

## Basketball

Hutchins basketball flourished again in 1999 with twelve teams entered in the School Basketball Association, the Kingborough Basketball League and SATIS. Their successes were many with younger teams continuing to develop their skills and knowledge of the game.

### Open

In the College Division of the SBA three teams were entered in Term I and their standards and achievements were

noteworthy. College A squad led by Co-Captains of Basketball, Michael Walsh and Nathan Winter defeated the strong teams of Claremont, Friends, Rosny and Elizabeth but fell short to powerful GYC in two deciding matches including the Grand Final. The College B Year 11 side led by Captain Lou Edwards, competing in the same division, demonstrated strong commitment but lost some close encounters. Too many injuries resulted in the team being merged with the College A's. The College C team won enough matches to make the Grand Final of Division II. Their improvement and consistent effort was inspirational and the efforts of Raz Haroon and Kristiaan Gumley along with Keith Meure and Peter McKenzie will be long remembered.

In SATIS during Term III, the Open Firsts, coached by Mr Fishburn, produced some excellent teamwork to pip Guilford and Rosny in the last week of the competition to retain the Southern Secondary College Shield. A week earlier, in a playoff for the SATIS Shield, the squad lost an outstanding defensive encounter to Guilford.

The first match of the SATIS season was the most memorable as Hutchins beat a determined Guilford in their own gym by 10 points. The squad went on to beat Friends twice, Claremont and Elizabeth by forfeit and lost big to Guilford in a re-match. The final game against Rosny demonstrated all our strengths and a few of our weaknesses as we fell across the line 60 - 56. Our success was due to the accurate outside shooting of small forward Oliver Torenus and guard John-Paul Mitchell, the playmaking of point guard Matt Fishburn (top assists) and the rebounding and scoring of Michael Walsh, Nathan Winter and Cameron Partridge. The School will remember their season as one of the finest ever.

*College A Basketballers*

*Front Row: Simon Gardner, Matt Fishburn, Lou Edwards, Ki Han, John-Paul Mitchell, Jason Clark (scorer)*

*Back Row: Cameron Partridge, Oliver Torenus, Kristiaan Gumley, Nathan Winter (co-captain), Michael Walsh (co-captain) and Mr Fishburn (coach)*

### Year 10

In Term I the 10A squad coached by Mr Dermouy performed well in the SBA 10/9 competition losing to a strong Friends team in the final. In Term III the 10/9A squad led by Captain Sam Halliday and guard Josh Marsh along with talented Year 9's are currently leading the roster and are quietly confident of a spot in the Grand Final. The 10/9B and 10/9C have also had moderate success over the year. Contributions from Aup Kooahpremkit, Corey Wills, Tom O'Connor, Tom Crawford, Bronson Fernandez, Nick Meredith, Aidan Neale and Daniel Abdul-Rahman bode well for next year's college teams.

### Year 9

Mr Toppin, Mr Dermouy, Mr Fishburn and Mr C Smith report strong application and improved skills from the combined squads to produce many wins and most importantly, solid teamwork. Both Year 9 teams in the Term I SBA competition reached finals and demonstrated important skill development. In the combined teams Hugh Griggs, Grant Burdon, Simon Hall, Jay Long, Alex Reid and James Toppin are names to remember in the future. It should be noted in most divisions Hutchins Year 9 boys were competing against older, bigger and more experienced Year 10's.

### Year 8

In Term I the SBA teams coached by Mr Turbett and Justin Muskett gave a good account of themselves and made the finals. Mr Toppin reports that a very enthusiastic team of 12 boys played as two mixed ability teams in the Term III roster. They met with a high level of success, winning the majority of their games. Isaac Bennett as point guard and Sam Muskett and Aston Wills as centres injected good skills into the games. Ben Jackson has been a consistent scorer and James Ashbolt and Stuart Foley's skills have shown the

greatest improvement. In the weekend knockout competition, the 7/8 team came runner-up in second division which was a pleasing result.

#### Year 7

The Year 7 team coached by Dr Ludwig, although not finding much success with victories, played with good spirit in both Terms I and III. Term I standouts were Isaac Bennett and Hayden Cengia. Isaac was promoted to the Year 8 team for Term III. Ed Ashbolt and Toby Mestitz helped Hayden with the play. The team ball skills improved greatly over the season and with the same application they will be a team of the future.

Special thanks go to the coaches, some of whom took two teams for two terms. They included Mr Toppin, Mr Fishburn, Mr McNamara, Mr Turbett, Mr Muskett, Dr Ludwig, Mr Dermoudy and Mr C Smith. Thanks also to the student coaches and umpires, particularly Nathan Winter, Michael Walsh, Matt Fishburn, Oliver Torenus, John-Paul Mitchell and Lou Edwards as well as Year 11 and 12 students who took the time to help out, particularly scorer Jason Clark. My special thanks go to Mr David Hoskins for his extraordinary support as referee and administrator and to all the parents and supporters over the year who helped with bench duties, provided transport and paid for drinks. You are the backbone of this sport and the reason for our continuing success!

*Mr M Fishburn*  
Master in Charge of Basketball

*Cameron Partridge attempts a big rebound*

*Michael Walsh scores off a fast break*

## Cricket

### First XI

The cricket season started with the annual Victorian tour, where we played six games including 'The Boot'. The Boot game has become tradition as it observes a keen rivalry between Hutchins and Peninsula Grammar School. The prize for the victor is a brass cricket boot, a symbol which brings together the friendships and competitiveness of the two schools.

The Boot game was played over two days with a maximum of 108 overs. We won the toss and decided to bowl on a wicket with plenty of movement. In the end this proved to be a decisive move, with Hutchins bowling Peninsula out in 39 overs for 76 runs. Alex Thomson was impressive, taking 7/19 off 11 overs. Tim Hazell and Nathan Winter proved to be a formidable opening combination. However following this good start the team lost six wickets in quick succession, putting the lower order

under unnecessary pressure. To the teams delight they held it together thanks to George Friend with 24. James McCulloch displayed his exceptional bowling talent in Peninsula's second innings taking 5/32 off 19 overs and with the support of Blair Ludwig and others, we dismissed Peninsula for 154. This left Hutchins chasing a small total of 73 for an outright victory. The duration of our second innings was short but sweet as we passed the combined Peninsula School scores with only two wickets down. This gave Hutchins the 'Boot', winning by 8 wickets.

Thanks must go to Mr Young in his first season as the First XI coach. He worked tirelessly all season and without his support, encouragement and leadership the team would not have achieved what it did. Mr Morley also offered some valuable advice and support on the Victorian tour.

### Second XI

"The Magoos" beat LCGS in the State

Final to be declared the State Second XI Cricket Champions. The Grammar side was bowled out for 27 runs in 25 overs. Ben Wilson, who took 4 wickets, and Nick Avery were aggressive with the early batsmen. The later order batsmen provided more resistance. Willie Whitehouse and Sam Shelley cleaned up the tail. The openers Matthew Banks and Cameron Partridge got us off to a 20 run partnership. It was left to Luke Doyle to strike a 4 to win the match. Many thanks to Sam Shelley, the Captain, who has led the side well throughout the season. A special thanks to those parents who helped on the day. It really was appreciated.

*Mr Sam Warren*  
Coach

### Year 10

#### Hutchins Black

Charles Schreuder and Alex Tozer captained the Hutchins Black team. The leading wicket taker was Cameron Burgess and the leading run scorer was Charles Schreuder. Alex Tozer had the

best batting average. Other good performances were from Damon Holmes opening the batting with attacking style and Sam Halliday opening the bowling with pace. Sam Calvert set the standard in the field, with Peter Ayliffe close behind him. Huge improvement came from Marcus Windsor with his big hitting lower order batting. Blair Browning and Corey Wills were also very handy players. Our team was victorious in winning the competition we were in. Many thanks must go to our coaches Mr Brammall and Mr Calder for their efforts over the enjoyable season.

*Charles Schreuder*

### Hutchins Lions

Hutchins Lions was also a Premiership team after losing only one match during the season. Greg Irons and Brent Commene captained the team. Best bowling performances came from seamers Robert Joyce, David Halvorsen, Sam Harvey and leg spinner Greg Irons. Regular run scorers were Brent Commene, until he was selected for the First XI, George Papoutsakis, Ben Taylor, Derek Emerton and Andrew Morrisby, our best catcher in the gully. Jeremy Inglis made a welcome return to cricket after a knee injury. Special mention must be made of Rowan Ashby and Ben Andrewartha who did not miss a practice and made enormous strides as bowlers. Finally thank you to Mr Peter Taylor our ever reliable and accurate scorer.

### Year 9

Hutchins Black had a disappointing season as far as overall results were concerned, but good performances came from bowlers John Cooper, William Calvert and Isuru Amarasena, and batsmen Matthew Drury and William McGregor. Thanks must go to Stuart James and Tom Wilkinson for coaching us and to the parents for all their support and scoring. Special thanks to Keith Stove for umpiring.

The Hutchins Lions team finished last season on a high by winning the Division 1 Premiership. Good performances came from batsmen Paul Ancher and Andrew Jackett, and bowler Rowan Oliver. Chris Jones took some great catches fielding at gully,

### Second XI

*Back Row: Ben Wilson, Sam Shelley, Kristiaan Gumley, Malcolm Page, Michael Nicholas*  
*Front Row: William Whitehouse, Matthew Banks, Cameron Partridge, Nick Avery, Richard Griggs*

and good, consistent all-round performances came from Will Kay, Nick McIvor and Richard Wilkinson. Special thanks must go to Mr Overton for coaching us and to Mr Ancher for scoring.

*Andrew Jackett & Paul Ancher*

### Year 8

In first term this year both of the Year 8 teams performed very well. The Hutchins Blacks won all but two games for the season. Hutchins Lions won most of their games. Some very good batting efforts for the Blacks came from Harkiran Narulla, Lewis Halliday and Robert Easter. The best bowlers were Nathan Jones and Matthew Bax. Other good bowlers were Piers Symons, Lewis Halliday and John Kennedy. For the Lions Vaughan Allen, William Priestly, Alex Menzie, Stuart Arnold and Nathan Brooks all batted well. The best bowlers were Vaughan Allen and Sean Freese. Other good bowlers were Patrick McMullen and Ben Morrison. Overall it was a great season. We would like to thank Mr Dave Harper, Mr Brazier and Mr Calder for coaching the teams.

*Robert Easther and Alex Menzie*

### Year 7

Hutchins Black had a good season winning all but one game. We all enjoyed our cricket and we built up some good team spirit. Merits, for attending all the training sessions, having a good level of sportsmanship and performing well with the bat or ball, were awarded to Callum Czyn, Daniel Alcock, Tom Coyle and Ben Fergusson. Other regular players were Sam Harvey, Nick Graney, Michael Norris, James Jubb, Henry Allwright, Jethro Wishink, Louis Alderdice, Ben Sheehan, Gwydion Jones and Peter Eland. Thanks must go to our coach Mr Peter Fergusson and the Old Boys who trained us during the week.

*Ben Fergusson*

In term one the Lions had a successful season. The team was fortunate to win every game. There were many outstanding performances including Jake Squires for his bowling and Chris Alomes for his batting. The major reason for the success of the team was performance in the field and the sportsmanship on and off the field.

*Matthew Lister*

## Hockey

### First XI

Our flagship team competed successfully at the top end of the Open Division 1 competition. Leading into the tenth and final roster match, the side had already secured the Southern All Schools minor premiership and the southern premiership for Independent Schools.

A loss to Friends in this final match, although not costly in terms of placings, did stop our momentum into the finals. Our southern semi final proved to be a major disappointment when Guilford put us out of grand final contention. However we regrouped for the State Final against Scotch. This final match of the season, played in Launceston, proved to be a titanic struggle between two evenly matched teams. With the result undecided after playing normal time, the high standard contest continued through periods of extra time to an historic conclusion - the first ever shared state premiership.

Throughout the season, our Firsts were superbly led by Captain Alister Hodgman and Assistants James Beamish and Nathan Moore, who along with Jeremy Scott and Jason Clark have completed three years of service to the First XI Squad. Coaches Mr James McLeod and Mr Ian Addison welcomed successful A Grade coach and Hutchins parent Mr Rob Mollross to the First's coaching panel.

### Second XI

Guided by coach and Old Boy Mr Andrew McQuilkin this team put in a consistent effort to qualify comfortably for the finals. An excellent effort in the semi final set up a Grand Final clash with Friends, but our boys couldn't quite repeat the effort of the previous week. With First Squad players Jamie McLoughlin and Rob Catchpole ably supported by a number of experienced players, this side went very close to achieving ultimate success.

**Team 3**, coached by Mr Anthony Hyland, were locked in a tremendous battle with SVC throughout the season, with a win apiece and only goal difference edging Saints ahead at the end of the roster. Meeting again in the Grand Final, these teams played a scoreless match with the title eventually going to our archrivals through their slightly superior ladder position.

**Team 4** continued their tradition of success, with only one loss in four seasons. 1998 First XI Captain Alistair Williams coached this side to a deserved 2 - 0 win over worthy opponents Taroona to complete another unbeaten season. Mr John Ancher managed this team for the third consecutive year.

**Team 5** traditionally find it tough to compete with the generally stronger teams in their grade, but in 1999 a terrific all round effort meant qualification for the semis. With GAP student Nick Bryant and First XI Vice Captain Nathan Moore providing the off field leadership, this group can be proud of their achievements.

**Team 6** performed very well at the top end of their division. Roster match draws against main rivals SVC and New Town were noteworthy efforts, as was the second place at the completion of the roster season. Unfortunately a loss to New

Town in the semi prevented a chance of a premiership, but the side developed very well under the guidance of their coach Father John Goodwin. **Team 7** matched up well with all but the top sides. With Mr Ken Walsh continuing his support for these

boys, and with First XI players James Green and Mark Jeffrey providing coaching input, they made steady progress to finish with a tight play off match with McKillop, unluckily losing out with literally the last hit of the day.

**Team 8** had several notable performances, especially their win against the powerful side from New Town. Old Boy and coach Mr Rob Blair developed a good spirit with many boys making considerable improvement. This side finished with a commendable play off match effort against SVC.

**Team 9** comprising a number of boys from the highly successful Hutchins Junior School Black team from 1998, enjoyed premiership success with a narrow victory over Taroona in a tense final. With First XI Captain Alister Hodgman providing the coaching and with able support and assistance from Mrs Cathy Graney, these boys were our first Year 7's to win a grand final match in several years.

A number of Hutchins players achieved representative status in 1999. Representing the South in intrastate competition were Guy Russell, Richard Headlam, Jeremy Inglis and Peter Ayliffe (Under 17), with Guy, Richard and Peter going on to represent Tasmania at an interstate Under 17 tournament.

Our Under 15 reps were Alistair Addison, Paul Ancher, Ben Creese, Alasdair Grenness, Nick McIvor and William Priestley, while our Under 13 reps were Richard and Charles Gard, Harkiran Narulla, Nicholas Graney, Hamish Hall and Nathan Street. Three players attended National Championships with their respective state teams: James Beamish (U/18) and Alistair Addison and Ben Creese (U/15).

This year's report would not be complete without acknowledging the sterling contribution made by Mr John Anderson to Hutchins Hockey over a number of years. His support around the grounds and behind the scenes will be greatly missed as he follows another hockey stalwart, Mr David Brammall, into retirement. We wish him well.

*Mr I Addison*

*Acting Master in Charge of Hockey*

*First XI Captain Alister Hodgman wins a tussle in the State Final*

## Orienteering

Orienteering has grown dramatically in popularity this year, with many newcomers in all age groups taking up the challenge of a sport that requires both high levels of physical fitness and a sharp mind. These talents are evident in great quantity in many of our students, and this is reflected in the results achieved at both major competitions.

The Southern Championships saw strong performances by James Walsh, who was placed fourth in the Men's 14 A; Matthew Jackman, who ran second in the Men's 16 A; and David Sary, Hugh Ellis, Tom Waters and Tristan Roberts who ran well in the Men's Open A.

Buoyed by this success, and assisted by the support and encouragement of Mrs Headlam, the school team went on to perform admirably at the State Championships despite several key members falling ill. Notable performances included James Walsh and Matthew Jackman in their age class and Tom Waters and David Sary a creditable sixth and fifth in the Men's Open A.

Once again, many thanks to Mrs Headlam. It is hoped that in 2000 the numbers of 'cunning runners' will be bolstered by hordes of new competitors willing to have a try and enjoy themselves.

*Tristan Roberts*

*Captain of Orienteering*

*First VIII in action: From left Hugh Broisma, Alastair Walsh, Nick Denholm, Sebastian Carr, Will Headlam, Simon Taylor, Nick MacLeod, James Murdoch and Charles Blundell (cox). Not pictured Alastair MacLeod and Alex Thompson*

## Rowing

This year was, without doubt, one of the most successful in the Boat Club's history. Our Captain of Boats, Sebastian Carr, was an outstanding leader and an inspiration to all our oarsmen.

The First Eight, under the expert guidance of Cameron Crichton, showed their potential early in the season sweeping all before them in the major schoolboy races in Tasmania. After a great deal of fundraising and organisation by their parents, the Open Squad travelled to Adelaide for the National Championships in March. They acquitted themselves well against Australia's best schoolboy crews and came away with a Bronze medal in the Junior Eights. They then competed in the major races on the Tasmanian Schoolboy calendar - the Tasmanian Schoolboy Championships and the Head of the River. Although Scotch-Oakburn and Launceston Church Grammar were competitive, there was little surprise when Hutchins stormed home for convincing wins in both races.

The Second Eight, under the leadership of Lance Morrisby, courageously played second fiddle to the First Eight and did it with style. Although unsuccessful in their attempts to secure an eights victory, they were worthy representatives of the school, and the club was very proud of their efforts.

All underage crews enjoyed success this year. The Under 14 quad scull, stroked by Will Clennett, and the Under 15 quad scull, stroked by Anthony Males, were outstanding, winning a number of events including the State Championships. The Under 16 Eight, stroked by Andrew Donovan, were unlucky not to come away with some wins under its belt. It was a similar story with the Under 13s, who will go into next season well prepared and with a number of races to their credit.

As with most sports, the huge efforts of coaches, parents and supporters make it all possible. Paul and Caroline Carr, along with all the Open parents, were outstanding in their efforts this year. Graeme Roberts, Peter Stankiewicz and all the supporters worked tirelessly to ensure the financial security of the club. Lance Morrisby, Mark Roach, Wayne Males, John Clennett, Jim Turner, Nick Dwyer, Phil Hutton, Tom Kibbey, George Roberts, Mike Webber, Roger More, Bill Webster, Chris Manning and Cam Crichton once again demonstrated their selfless support of rowing and the school by expertly coaching our boys. Our thanks go to them all. 1999 was a vintage year for rowing at Hutchins.

*Mr T Fish*

*Master in Charge of Rowing*

## Rugby

### First XV

The First XV this year was a small but skillful squad. What the team lacked in weight it made up with audacity, and throughout the season displayed plenty of courage. Throughout the year there was extreme rivalry with all the opposing clubs. As the season progressed the team grew in skill and fitness and the games reflected this. The true potential of the team was demonstrated in the game with a touring team from Orminston College in Brisbane. Although going down to the more practised and skillful opponent, the First XV far from disgraced the school.

It was the annual King Of The Mountain grudge match between Hutchins and Hobart College that was a true reflection of the First XV. It was with skill and mettle that the team matched a physically larger and faster side, and won 22-7. It was a game fought in front of a large crowd and contained a great deal of passion and almost religious fervour. It was the team's finest hour in 1999.

Wins in the preliminary finals brought the team to the Grand Final which was fought with great passion and fire. Unfortunately injuries to important players before, and in the opening minutes of, the game meant the team was unable to stand up against the power of the Glenorchy squad and went down 31-0.

### Under 16

Injury and illness prevented us from fielding a full fifteen man side this season. We did well however to end the season fourth on the ladder. In 1999 we welcomed quite a number of new players to the game with Chris Morey making a real impact for the team. We really benefited from training together with the First XV, and our skill level increased dramatically. The awards for best back, best forward and most improved went to Nick Starkey, James Laird and Jon Haynes respectively. Special thanks go to Pak Rob Wilson for coaching us.

*James Laird*

At the end of the year it is customary to have a team gathering at which Mr Webber, the Coach, and the team celebrate the accomplishments of the season and acknowledge exceptional individual efforts. This year the awards for Best Forward went to Sebastian Carr, Best Back to Stuart Ecob, Most Improved to Daniel Woods, and Ian Wilson was the recipient of the Clubman award. Thanks

*Hugh Broisma putting in a chip kick*

*First XV before the Grand Final*

must go to Mr Andy Westbrook, for his coaching of the backs, Mr Ian Millhouse and Mr Phillip Stary, for their aid in the running and coaching of the team, and to Mr Andrew Webber for his unwavering support and inspirational coaching.

*Ben Gray  
Captain of Rugby*

## Royal Tennis

For another year the school has been fortunate to have access to this fascinating sport.

Each Tuesday afternoon boys are able to use the Royal Tennis Club facilities in Davey Street. The court has been in existence since 1875 on the site of Hobart's first brewery. The Club was formed in 1855, so it must be one of the oldest in Australia. The game owes its history to 13th century France and 14th century England and it was not until 1599 that rules were written down. The game is still played in both countries as well as in Australia and the USA.

Skills in lawn tennis, squash and badminton come in handy when playing royal tennis where hand-eye and racquet-ball coordination skills are needed. However this does not stop beginners starting royal tennis as a sport at school and many boys have played the sport over two or three years. There is no inter-school competition, but boys have gone on to play in their own time or are now taking part in a pennant organised by the Club. Old Boys have the opportunity to play the game whilst at university too.

*Mr R Stacey  
Master in Charge of Royal Tennis*

*Mr Webber commiserates with  
Will Headlam*

## Sailing

Our school sailing season commenced in March with thirty keen boys participating in our after school summer sport sailing program in Puffin Pacers. They were ably coached by senior sailors in the school together with Mr Starkey, Mr McCammon and Mr Webber. On Summer Sports Day we saw sailors from each house participate in the house competition sailing Puffin Pacers in teams racing. The victors this year were Stephens, closely followed by Buckland, Thorold and School. Hutchins also entered two teams in the 1999 Tasmanian Yachting Association Schools Regatta in March. This was fleet racing and our sailors experienced all types of trying conditions, from 15 knot gusts, through to no wind and excessive tides. After a series of heats over two days our sailors placed in the top three positions.

Seventy seven boats, twenty six teams and fifteen schools participated in the Schools Regatta with Hutchins 1 team – consisting of Marcus Jones (Sabot), Michael Ashbolt and Sam Fitzgerald (420), Jamie Chung Gon and Mark Jeffrey (420) sailing away to win the regatta convincingly – 82 points ahead of second place. Hutchins 2 team – consisting of Finn Dorney and Charles Cunningham (International Cadet), Stewart Wells (Laser Radial), Matthew Banks and Drew Latham (International Cadet) finished in third position, just missing second place by a point.

On an individual basis, Hutchins were successful with four representatives in the top 10 yachts overall. Marcus Jones was placed eighth, Finn Dorney and Charles Cunningham were placed third, Michael Ashbolt and Sam Fitzgerald came second and Jamie Chung Gon and Mark Jeffrey finished in first place. Prizes included The TYA Perpetual Shield to the winning team; Finn Dorney and Charles Cunningham being awarded the highest ranked International Cadet, and Jamie Chung Gon with Mark Jeffrey being the highest ranked individual boat at the regatta. Our thanks go to David Ellis for his coaching and to Mr McCammon for his help and organisation.

*Jamie Chung Gon  
Co-Captain*

### Sailing

*Back Row: Drew Latham, Mark Jeffrey, Matt Banks, Charles Cunningham  
Front Row: Finn Dorney, Michael Ashbolt, Jamie Chung Gon, Sam Fitzgerald*

### International Epiglass Teams Racing Championship

Chosen to go to Western Australia for the finals of this championship were Captain Mark Jeffery crewing for Marcus Jones; vice captain Matt Banks and crew Drew Latham, Stuart Wells and Charles Cunningham. After much fundraising our team was set to go when disaster struck. Stuart Wells was injured and was unable to travel to Perth with the team. We were only hours away from withdrawing from the competition when a substitute was found. Nick Parker, who had limited teams experience, accepted our offer to travel to Perth just eight hours prior to departure. Our flight was filled with tuition in the fundamentals of teams racing rules.

As the week's racing progressed we discovered we were fairly competitive. With one great win and some placings we came out in fourth place overall which was quite an achievement. Our thanks must go to our manager Mr Rob McCammon and our coach Mr David Ellis. Also many thanks must be given to our fill in skipper who helped us out by dropping everything at the last moment to accompany us to Perth. We hope to challenge for the top spot next year.

*Matt Banks  
Co-Captain*

## Soccer

With an influx of younger players, the **First XI** was one of the youngest teams fielded by Hutchins in many years. The team was unbeaten in the Statewide Independent Premiership defeating a strong St Pat's team twice. The Southern Independent Schools Premiership came down to the last match against Guilford Young College. In an emotion charged game, with the momentum of each team swinging just as much as the ball was changing direction, Hutchins pulled together and showed its class by defeating Guilford Young 3-1. Unfortunately our hard road to the State Final took its toll on the team and we went down to a very well drilled and persistent St Pats team. Congratulations go to the entire team on a very successful season and to Adam Smark on winning the Michael J Davis trophy. Special thanks go to James Symmons for captaining the side and leading from the front and to Mr. Hoskins who tirelessly works on and off the pitch as coach, teacher and guide to the players.

*James McCulloch*  
Captain of Soccer

The **Second XI** had another strong season winning all six of its statewide matches. The southern roster was also hard fought but we were not as successful, being ousted from the state final by a strong Guilford Young side in close and low scoring matches. The new members of the team admirably filled the positions in the team left open by last year's leavers. It was a long and hard season but was still rewarding and enjoyable, even though the result was not what we had hoped for. Thanks to our coach Rowan Dix for his efforts throughout the season.

*David Hay*

After a fairly slow start the **Under 16 A** team went on to have a fairly successful season, finishing second on the ladder. We were finally beaten by our old rivals South Hobart Soccer Club. It was an enjoyable season with a very friendly team spirit, due in no small measure to the excellent and supportive coaching of Michael Moase, whom we thank for his hard work. It is hard to single out individuals from the team but perhaps Peter Cerny, Tim Green and Leith Walker deserve special mention, with Mark Playle being the Most Improved.

The **Under 16 Burgundy** team had a shaky start to the season but with the coaching of Mr Moase, all players in the team made considerable improvements in both individual and team skills. Thanks to Mr Moase for giving up his time to coach us and to all the parents whose constant support was greatly appreciated.

*James Porter*

**First XI**

Back Row: A Deane, F Dorney, C Hamnett, A Deane  
Middle Row: O Hallock, R Joyce, N Winter, A Graeme-Evans, J Tremayne, A Smark  
Front Row: M Ferguson, A Thomson, J McCulloch, Mr Hoskins, J Symmons

This year the **Under 15 A** side set out to win back to back premierships. Two of our leading players were selected in the first eleven but we gained new quality players. Under the guidance of our coach Nick Cook we landed in second spot on the ladder. The only team who posed a threat were the age-old rivals South Hobart. We were in the position to win the league with a match against South Hobart, but after two of our goals were disallowed by the referee, we lost our confidence and South Hobart ran out with the match and the Premiership. Thanks to our coach Nick Cook and manager Greg Kay, and to all the parents for their wonderful support and enthusiasm throughout the year.

*David Webber*

With some recruiting from other sports the **Under 15B** side hoped to finish above the bottom of the table - a position we have held for the past two seasons. Unfortunately that was too optimistic. We played Sacred Heart in the final to decide the wooden spoon for 1999. All players tried their hardest in this match but we were unable to overcome a better side and we lost 2-0. Our thanks go to our three coaches Pete Middleton, Sam Heaven and Bruno Ferreira.

*Ben McKay*

The **Under 14 A** team had a varied season. We enjoyed our share of success as well as losses. Going into this year's competition we were able to dominate matches by going in hard for the ball and making fast breaks. Everyone in the team contributed to this but none more so than Robert Knight and Masaki Kon whose skills lifted the performance of the team. Our coach again this season was Grant Hildyard and he did another great job.

*Andrew Egan*

The **Under 14 B** team had a very successful season winning five of our games. With Chris Line's expert coaching and all of the parents to back us, we accomplished more than we thought. Some of our leading goal scorers were Jorge Burgess-Lowe, Harjit Singh Mahindroo and Christo Johnston. Thanks to Mr Chris Line for his coaching and Mr Foster for providing the oranges at each game.

*Harjit Singh Mahindroo*

The **Under 13 A** team had a very successful season, winning the first division roster by nine points. There were plenty of fine individual performances as well as very good teamwork, and our success was due to the excellent coaching and support we received from Mr Carlos Souza, Mr Lister, Mr Shepperd, Mr Gordon and Mr Hoskins.

*Alex Menzie*

The **Under 13 Burgundy** squad had a very successful season, finishing runners-up and beating the top team twice. Our last game was an outstanding win where Michael Johnstone twice headed the ball in from corners. So practice does pay off! Thanks to Mr Hemming and Mr Kerr for coaching us.

*Peter Hemming*

## Surfing

In March the Boardriding Surfing Team consisting of Shaun Wallbank, Lou Edwards, Nick Parker, James Stoessiger, and Chris Button as well as the Bodyboarding Team consisting of Geoff Swan, Tim Warren, Cameron Erwin, Hugh Richardson, Fraser Johnson, Ben Turner and Phil Freeman competed in the State Championship at Clifton Beach. As per usual Tasmania only coughed up a pretty lame amount of swell for the day, but it was rideable. We entered competitors in College A Boardriding and High School Bodyboarding A and B Divisions. This was a good variety of divisions and although some people received difficult heat draws in the early rounds and were eliminated early, the teams did well. This is a commendable effort considering we had such a small number of boys in each Team. Outstanding performances came from Geoff Swan and Tim Warren who made it to the semi-finals of College Bodyboarding, finishing fifth and sixth respectively. Unfortunately young gun Cameron Erwin was sick and had to pull out just when he was looking promising. Shaun Wallbank did extremely well against experienced surfers to make the finals and finish third in College A Boardriding. His Team finished fifth overall, possibly our best performance so far! Thanks must go to Mr McCammon and Mr Hyland for their support and help.

*Shaun Wallbank*  
Captain of Surfing

**Under 13 Premiers**

Back Row: Mr Souza, J Manning, B Morrison, M Lister, J Sheppard, J Gordon, C Quinn  
Front Row: M Street, A Menzie, J Howe, C Fish, J Wisbink, T Carolan Absent: M Andreus

The **Under 13 Yellow** team won six, lost six and drew two matches. Our coach was John Alderdice who did a great job. We learned a lot and improved our skills. It was a good year and we would like to thank Mr Czyz, Mr Mulcahy and Mr Douglas for acting as referees.

*John Alderdice*

## Swimming

The Hutchins Swimming Team achieved very good results in both the Southern and State SATIS events. A total of five records were broken and Hutchins usually finished in the top four of every race.

The open team showed tremendous effort in the water at the SATIS carnival. Samuel Shoobridge (Captain of Swimming) dominated most of his events gaining first place in the Open 50m butterfly, Open 100m freestyle and the Open 50m backstroke. Hutchins was unstoppable in the Open relay events when they teamed Sam Shoobridge with Nathan Moore, Simon Gardner, Nathaniel Symmons and Michael Ashbolt. Both the medley relay and the freestyle relay gained first place. Samuel Madden (U15) broke the record for the 100m freestyle. When joined by George Croft, James Seddon and Xavier Goc in the freestyle relay, the U15 team not only won the race but broke the record. Likewise,

Open Freestyle Relay Team: Michael Ashbolt, Nathan Moore, Mr Morris, Samuel Shoobridge and Nathaniel Symmons

the U14 relay team of Joe Pemberton, Andrew Egan, Jack Madden, Adam Kilby and Tom Mills took out first place in both the freestyle and medley relays breaking the SATIS records. Joe Pemberton, coming back after illness, also swam a record time for his 50m backstroke, and Adam Kilby swam a record time in the Southern Carnival for his 50m butterfly.

Congratulations to the whole team for their effort over the swimming season. Once again Hutchins has demonstrated its strength in the pool.

*Mr S Morris*  
*Master of Swimming*

*Second Tennis: Joel Bevin, Anthony Kelsall, Mark Playle, William Priestly, Mr P Crofts, Robert Easther*

## Tennis

### First Tennis

The Firsts team of Aaron Buckland (Capt), John Playle, Matthew Fishburn and William Ward, experienced a mixed bag of results in 1999. In the southern roster we remained undefeated against both Guilford Young and Friends. This effort earned us a place in the state final which was to be played against Launceston Grammar. Although we anticipated a close encounter, and were hopeful for a win, difficult conditions and strong opponents soon dashed our hopes. The highlight of the final was the doubles win by Matthew Fishburn and William Ward who came back from one set to love down to win in three sets. Thanks go to Mr Crofts and Mr Chalmers for their support throughout the season and the many hours they have put into running the team.

*Aaron Buckland*  
*Captain of Tennis*

### Second Tennis

The Seconds team consisting of William Priestly, Robert Easther, Mark Playle and Joel Bevin had a very successful season. Our team was the youngest in the competition so we were playing opponents who were much older and with more experience. Despite this we were the undefeated team of the southern roster, winning thirty out of thirty sets. The State Final was played at Hutchins against Scotch Oakburn. Scotch had been very strong in the northern roster so we were prepared for a tough match. It was the first State Final for everyone in the Hutchins team so we were a little nervous, but also cautiously confident, as we had been unbeaten in our run to the Final. The team pulled together and played exceptionally well. Continuing our good form, we won all six rubbers and did not lose a single set in the match. Thanks to Mr Crofts and Mr Chalmers for their help on the day and throughout the season.

*Mark Playle*  
*Captain Seconds*

### Table Tennis

Table tennis entered a new era this year with teams from Grade 11 and 12 being entered in a separate competition. This now means that a student can play from Junior School until Grade 12.

In Term 1 two senior teams were entered under the captaincy of Zaheer Khan. The most successful player was David Bell who won 80% of his matches. The team of Zaheer Khan, Arthur Pitman, David Bell and Andrew Langford made the semi finals.

Nine teams from Grade 7 to 10 were entered in the high/primary competition. Hutchins 1 (Brandon Servant, Nick Meredith, Mark Jessen and Tim Carolan) won the final in Division 1. Hutchins 5 (Gareth Servant, David Peterson, Lewis Halliday and Justin Sanderson) won the final in Division 2. The outstanding player during this roster was Tim Carolan who won 94% of his matches. Another good player in Division 1 was Brandon Servant (80%). In Division 2, the best players were Gareth Servant (87%), Lewis Halliday (86%), Nick Summers (78%), David Peterson (76%) and Justin Sanderson (75%). Paul Howard (78%) played very well in Division 3.

In Term 3 there were nine teams from Grade 7 to 10 entered in the high/primary competition. At the time of writing the competition has yet to finish. Two teams are currently on top of the ladder for their division. They are Hutchins 7 (Nick Kimble, Nick Gregory, Lars Becker and Matthew Wilson) on top of Division 3 and Hutchins 9 (Daniel Alcock, Callum Czyz, Toby Mestitz and Charles Spiegel) who lead Division 4. The top players to date are Alex Halse-Rogers, the players in Hutchins 7, Daniel Alcock, Callum Czyz and Toby Mestitz.

*Mrs A Smithies*  
*Teacher in Charge*

## Volleyball

We have had a successful year in volleyball with the open Firsts team advancing to the final for the fifth time in five years. We only lost two games, both of which were to the team that defeated us in the final. That team was very experienced and had been training for a full year before they played us. We managed to put up a very good fight, taking at least one set off them every game, but with their Brazilian national representative their serve was just too strong. Matt Fishburn put in a consistent season, as did Luke Sypkes. Keith Meure, who was brought up from the seconds, showed enormous improvement and won the Peter Hodge volleyball trophy on the strength of his performance.

The Seconds had a year of experience and development. Unfortunately they did not win a game but some of their players had a few games with the Firsts and showed that they had enormous potential.

In the younger age groups there was mixed success. The Year nines put in a lot of effort finishing several places up from the bottom of the ladder, as did the Year tens. The Gold team, made up of both Year nine and ten, finished second on the ladder but suffered from a mysterious lack of players during the final series and dropped back down to fourth place.

After six years of playing for the school, five in the Open team, I would like to extend my sincere personal

## Waterpolo

The Year 7/8A made it through the roster with a convincing win in every game. Unfortunately the boys could not reproduce their earlier outstanding form and went down in the Grand Final to St Virgils. Despite this disappointing finish to the season, the boys should be very pleased with the improvements they made and all they accomplished, due in no small part to the coaching of Alastair Walsh.

The Year 7/8B team had a very good season, finishing fourth. Everyone showed great improvement which was very satisfying and encouraging for the players themselves, the supporting parents and their coach, Nathaniel Symmons.

The young Year 9/10 team showed great determination and improvement over the course of the season, which augurs well for next year. The teams' most consistent players were Harry Pugsley, James Seddon, Daniel Abdul-Rahman, Andrew Egan, George Crofts and goalie extraordinaire Jacob Chambers. The team would like to thank Tom Windsor and Mr McNamara for all their hard work during the season.

This year's Firsts team consisted of seven past and present state representatives. With the experience and outstanding guidance of Tony Cannell we cruised through the roster with 11 convincing wins and 1 draw. This trend continued in the Grand Final with a victory over Guilford Young, handing the Hutchins Firsts their third consecutive win in the College Boys trophy. This was a real team effort with all players contributing well, no doubt encouraged by the huge cheer squad.

*Volleyball Firsts*

*K Meure, K Gumley, N How, B Wild, P Orlouski, G Irons, L Sypkes*

thanks, as well as the team's gratitude, to Mr Scott who has coached us for many years now, and also to Mr Hodge who not only organised our teams but ran the entire roster.

*Ben Wild*  
*Captain of Volleyball*

*Waterpolo*

*Back Row: A Thomson, T Gibson, A Walsh, C Partridge, S Halliday, S Shoobridge, T Windsor*

*Front Row: J Murdoch, M Stankiewicz, S Gardner, T Miller, O Potter*

Special commendations to Tom Windsor, Sam Halliday, Nathaniel Symmons and Simon Gardner who represented the State at the National Schoolboy's Championships in Perth. From this tournament Nathaniel was selected in the Australian team and Simon was named first reserve. This is the second year in a row both students have been awarded this honour. Thankyou to Mr McNamara, all the coaches, and the parents.

*Simon Gardner*  
*Captain of Waterpolo*
